

Cartesie, PA-WEDNESDAY, JANUARY 28, 1846.

THE GOVERNOR'S MESSAGE. The Lancas ter Examiner says :- "The first annual Message of 'Mr. Shunk, has attracted an unusually small portion of public attention. We have never known a document of the kind to draw forth so little comment from the press. Even his misrepresentations have not generally been thought worthy of exposure. Yet there is one which we feel disposed to notice-for a meaner or more disingenuous attempt at deception was surely never before found in any Governor's Message. It is contained in

the following paragraph: "The history of Pennsylvania since the beginning of the year 1836, is a part of illustration of this truth. In December, 1835, when Governor Wolf retired from office, two months before the incorporation of the United States Bank, the State debt of Pennsylvania was \$24,589,743 32. It is now, exclusive of the amount received as a deposit from the general government, \$40,386.393 22, making an rai government, 340,306,649 90, not increase in ton years, of \$16,396,649 90, not withstanding the receipt, in the mean time, of \$2,867,514 28 of surplus revenue from the United States, and of \$3,446,780 21 as premiums for Bank Charters.

This is what logicians would call a " lie inferential.". The Governor did not dare as sort in direct terms that the State_debt had been largely increased during a Whig Administration, yet it is palpable that he wished to convey that impression. By alluding to "the beginning of the year 1836," and to "the increase of State debt" during the period of "ten years," he hoped to saidle a portion of the sixteen millions of increase upon Rither's Administration: but they must be ignorant indeed who can be called by such shallow. been largely increased during a Whig Administration, yet it is palpable that he wished to convey that impression. By alluding to indeed who can be gulled by such shallow.

in a branches of manufacturing industry, and the thousand little until one which are annually produced, swell the product of her industry to an almost incredible amount. By returns from the assessors of the several cities and towns in that State, made to the Secretary of the Commonwealth during the past year, it appears that the agricultural products of the State for the year were estimated at \$23,000,000; the whale, cod, and makerel fisheries at \$1,000,000; and the manufacturing products at \$90,000,000—making a grand total of \$124,735264, (one hundred and twentyfour millions, seven hundred and thirty-five thousand two hundred and sixty-four dollars." In the ninety millions of manufacturing products are included the ships built during

the year.

Massachusetts, however, is not only a great producing but a great consuming State. We have seen an estimate of the articles produced in other States and consumed in that State, amounting to some \$42,000,000; showing the importance of that Commonwealth as a mar-ket as well as a producing State. Such industry not only augments the wealth of the State, but increases the resources of the nation.— Nat. Intel.

The rumor gathers strength that our Administration as engaged in some secret nogoliation at London with that of Great Britain by which our Protective Policy is to be sold out to England forcertain desired concessions in regard to Oregon. We are consoled by the reflection that no such Tresty can receive the constitutional approval of the Sensite, to which a two-thirds vote is requisite. Every consideration of principle; sound policy and national dignity combine to dissuade, from such a treaty. The Oregon Question can never be wisely or properly blended with matters so utterly foreign from it as the adjustment of the respective Tariffs of the two stations. We ought not to buy deserts of rock and snow in Administration is engaged in some secret ne-otiation at London with that of Great Britain. ought not to buy deserts of rock and snow in Northern Oregon by the sale of the industr Northern Oregon by the sale of the moustry and prosperity of our people at home. What belongs to us on the Pacific, let us claim and stand for, until negotiation or arbitration shall extinguish anlagonist proteins. We shall surely obtain our own there, if we rely on the proper means of securing it; and what do we want more? Great Britan can reflect her proper means of securing it; and what do we want more? Great Britain can repeal his supporters have full power to overthrow our Protective Tariff. Why; then, should this Tariff question be dragged into a Boundary Treaty, and the country thus precluded from returning to our present system, should fresh. experience prove its overthrow as disastrous as like changes have hitherto-been? Letward the right to make our own laws, and last for the right to make our own laws, and to alter them when we see fit, without ask. to alter them when we see fit, without ask, also, a bleaulifug-permission of a Foreign Power. This is a matter of vital import, on which there should not be two opinions among American beauty and quality. Freemen - New York Tribune.

HARDWARE & CUTLERY.

Table Cutlery,

indeed who can be gulled by such shallow falsehoods.

It is true, as Governor Stank states, that when Governor Wolf intied from office in 1835, the State debt was \$24,589.743 32; but it is also true, which he does not state, that when Governor Ritner went out of office in Lanuary 1839, the State debt was only \$24,230,000 32, exclusive of a few small temperary loans—the fact being that the State debt was reduced during Ritner's Administration. If Gov. Shink, had chosen, or dated; to tell the truth, he would have stated that every dollar of the present State debt was contracted under Locofuso Administrations.

Resources of Alessachusarts—In industry and frugality, no State in the Union—stands before od Massachusetts. The perfectly systematic manner in which business is there carried on, the division of labor which prevails in a beanches of manufacturing industry, and the thougand title definitions Staylich are guint.

Cradle and Grain Scythes,

made of superior steel and inferior to none—all warranted good, befter the market cannot produce. Entire satisfaction will be given in every article both as to price and quality, to every person who may call at the old stand so well known as a Hardware Store, formerly kept by Lewis Harlan and fiext door to Cornman's Tavern, and also adjoining Geo. Keller's Hat. Store:

Call and see the oldfashioned Scythes, hay and grain Rakes, and various other articles which we deem it unnecessry to mention, but call and examior ine vonreelves, and remember they are all warranted. We are determined to sell at small profits and give entire atisfaction.

THOMSONS COMPOUND SYRUP OF TAR AND WOOD NAPTHA. :

1000 PERSONS in Philadelphia alone, can testify to the wonderful efficacy of that powerful remedy, THOMPNON'S COMPOUND SYRUP OF TAR AND WOOD NAPTHA Read! Read! Astonshing cure of Chronic Bronchitis!

Philadelphia, May 23, 1844. Mr. S Thomrson Dear Siris For more than four years, past I had been dreadfully afflicted with an affectio nof the throat, which my phy-sician pronounced "Chronic Bronchuis, caus ed by repeated and neglected colds. The distress suffered is indescribable. My throat was litterally raw with violent coughing, so that blood would come from it; also great oppression, pain and tightness ut-the chest ann fever—in short all the usual pulmonary' symptoms showed themselves, causing antick live of peace years. entire loss of necessary repose—my throat was leached and bilstored over and over again. I made trial of every known remedy, and at different periods had the advice of six physicians, and all with necessary repose. and all with no avail. About two months since I made trial of your Compound Syrup of Tar and Wood Naptha, and before I had taken the first bottle I felt relief. I continued until I had taken seven bottles, which completely removed the disease andrestored me to perfect health, and I firmly, believe I should not now be living, had it not been for your invaluable medicine. JANE PERRY.

I have now taken ten bottles it has entirely cured my cough. I have gained considerably in flesh. I think it a most valuable medicine, and one that ought to be universally known, that those afflicted with colds and coughs may have a medicine bott safe and sire to cure, if taken properly. While taking the medicine, I drank freely of molasses and water which I found excellent to keep the bowels open. If this statement can be of any benefit to the afflicted, you are at liberty to make such

MERRICK BARNES No. 6, Bread Street. Several months since, my wife was attached Several months since, my wife was attacked with a severe cough, attended with a pain in her side, which, from its obstinate contribunce hegan to alarmher. A few doses of Dr. Davis's Campound Sprup of Wild Cherry and Tarrelieved the pain and cared the cough; and by the time she had taken half a bottleful she was perfectly cured. She recommended it to an acquaintance, Mrs. Bannister, who was affected in about the same manners herself and the in about the same manner as herself, and the medicine proved equally beneficial in her case.

Mrs. Be also recommended it to soveral of her friends, who were, I believe cured by it. Their is my knowledge of Dr. Davis's medicine, and I deem it sufficient to recommend it as a valuable one. Charles Dewner, 144 Race St.
