CARLISLE, PA. WEDNESDAY, MAY 20, 1846.

CAMP OF THE U. S. ARMY IN TEXAS We find in the New Orleans Tropic the fellowing account of the Camp of the U. States Army on the Rio Grande, with the names of all the officers. The Tropic states that the Fort with the batteries commanding Matamo-

rais, is occupied by Major Ringgold's troops Gen Taylor's camp extends about four miles along the river bank—two miles above, and two below Matamoras. The entrenchment two below Matamoras. The entertement to erect it required twenty-three hundred mentor thirty days. It is made of sand, and covored over with twigs woven together like basket work, surrounded by a very wide and deep ditch. The walls of the magazine, in deep ditch. The walls of the magazine, in the interior of the fortification, are formed of pork barrels filled with sand, seven fier thick, four tier high covered over with timber, on which sand is piled ten or twelve feet.— Twelve heavy pieces of ordinance are so ras. . Five hundred men could defend the fortification against any force the Mexicans

could bring against it at present.

By the death of Col. Cross, Maj. Thomas is the senior Quarter Master of the army of occupation. It is supposed that Col. Hunt, of our city, will be ordered to take Col. Cross

MORE TROUBLE AMONG THE MORMONS-From various intimations in western papers, it seems probable that there will be another disturbance between some of the citizens of Illinois and the Mormons remaining in the state. The Governor either has or is about to dishard the troops who have been protecting the peace of Hancock county until the Mormons had removed, and we now see calls for public meetings of the citizens appearing iu the newspapers.

LEGISLATION-Was probably intended ays the Reading Journal, for the good of the Public; but for many years past it has been regarded by the Nation as little more than a curse. Congress sits as a huge incubus unon the country-our State legislature as a lesser monster.-When the mempers chose to go home the whole country thanks them and feels relieved. Every one is grateful-no for what they have done, but for what they have not done. Congress it is supposed, would never adjourn, but for the warm weather. Could not the soat of government

The emigration from Germany this year, it is represented, will be immense. Preparations are being made on an extensive scale in parts of the country where hitherto there has not been much emigration. The emi gration spirit prevails, not among the poor, but among persons in good circumstances, and even among the rich and the wealthy People who own large and beautiful estates ve selling off their property and getting real ly to emigrate, with family and friends, to America. The immense wilderness of the West will allow them plenty of room.

It can hardly be credited that a salve can have any effect upon the lungs, seated as they and within the system. But it placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them, and expels them from the system.

I need not say that it is curing persons of Consumption continually, although we are told it is foolishness. I care not what is said, so long as I are consuming the system.

If parents knew how fistal most medicines, were to children taken inwardly, they would be slow to resort to them. Naw, let me say to pagents, that this Salve will always tell if a child has worms. It will drive every vestige of them away. (Read the directions around the box.)
