CARLISLE, PA. WEDNESDAY, JUNE 10, 1846.

WEST POINT.-The Harrisburg Union says, some of our contemporaries anxiously hold out the idea that West Point Academy had nothing to do with our victories on the Rio Grande We would, however, ask those gentlemen what enabled our little army to triumph over such fearful odds? Was it not their perfection in military science?, And we can see no difference as to whether that perfection was obtained at West Point or in years of hard service in the field.-Let us do justice to West Point-let us have all the military skill that can be drawn from its anoient halls, and from the vigorous minds of our scientific countrymen, and when this is united with American energy, enterprise and

FINNEGAN ARRESTED.—The Gettysburg Sentinel says :- "It gives us pleasure to state that this individual, who entered our county last fall and kidnapped a family of colored persons from Menallen township, and against whom the grand jury found a true bill for the interests of his Storie, and having secured the services of eareth and experienced with the interests of his Storie, and having secured the services of eareth and experienced with the interests of his Storie, and having secured the services of eareth and experienced.

Assistants, he confidently assures his friends and the public, that their orders and present pullons shall have the most securate attention.

DR. MYERS also informs his friends that in addition to his former large assortment of the public of the control of the co that this individual, who entered our county last, by the sheriff of this county, and committed to prison." Finnegan is, we believe, a constable of Washington county, Md., who makes a business of arresing Slaves....

courage, we can bid defiance to the world.

Up to the 21st inst., four complete regiments had departed from New Orleans for the seat of war. We observe that the gallant officers, who have already fought, are receiving complimentary swords, and other testimonies, from their friends.

The Pope has created Dr. John Mc-Laughlin, Commandant of the Hudson Bay Company beyond the Rocky Mountains, Chevalier of the Order of St. Gregory. His Holiness has confered the honor in acknowledgment of the services rendered by the Doctor in the cause of religion since the arrival of the missionaries in Oregon.

Accounts from various parts of Maryland and Virginia, mention very great destruction in the wheat fields, by the Hessian fly.

65 The Legislature of New Hampshire is to assemble on Wednesday next. The scsrion will be an interesting one, and first among its important duties, will be the choice of Governor, and a United States-Senator. - Mr. Hale will, no doubt, be the choice for the latter station.

The Natchez (Miss.) Prec Trader says that 36 persons were killed by the tornado as Grenada, and 50 wounded, many of them

They have been luxuriating on "green corn" in New Orleans.

Commodore Connor is said to be a native of Mifflin county, Pa.

The Bill for the increase of the rank and file of the Army, makes an increase to our Army of about 7000.

The citizens of New Orleans have despatched to Point Isabel in the stramship Alabama, a fine steed for Capt. Walker, the gallant Texas Ranger. They have also opened a subscription to procure him an elegant sword.

There are a million and a half of muskets in the various armories of the United Statesall ready to load and fire.

ORIGIN OF THE CAP OF LIBERTY .- In former ages, old age was honorable, caps became emblems of honor. By degrees it became the badge of freedom, for none were deemed mbloms of honor. By degrees it became to badge of freedom, for none were deemed onorable who were not free, and when a lave was made a freeman, he had a cap lave to bim, which he was permitted to the part in public. The Pilius or the age of the property slave was made a freeman, he had a cap given to him, which he was permitted to wear in public. The Pilius or the cap of Liberty, was simple in its form, in the shape of a sugar loal, broad at the base and ending of a sigar ton, broad at the base and ending in a cove. This prefigures that freedom stands on the broad basis of humanity, and runs up to a pyramid; the emblem of elemity, the show it ought to last forever. It was sim-ple, for Liberty is in itself the most shining mamont of man. It has none of the gilder trappings of despotism. The Cap of Liberty
was white, the native color of the und. ed. showing that it should be untainted by faction or tyrant.

"Ord, Rough and Ready."—This is the appellation by which the gallant Gen. Taylor will hereafter be known: We have been exceedingly struck with one sentence in his official despatch, dated. May 7th, just before he lest Point Isabel, and the day proceeding his first battle. He says, "if the enemy oppose my march in chalever force, I shall fight him." There is a plain and direct point in this sentence which indicates the character of the writer. The process of the writer and of of the writer-a man of few words, and of prompt and finatess action. The crisis de-manded that he should fight, without regard in dispurity of numbers or consequences.
His lion-licant met the crisis; and he obtain ed the victory which the brave army deser-

GEN. TAYLOR.—The U.S. Senule, in consideration of the distinguished services this gallant officers has readered his country, unanimously confirmed the nomination made. by the President, raising him to the brevet rank of Major General. This is a just reward to his metit, which is no less shown in this yalor, than in his humane and honorable conduct in relation to the enomy, whom the fortune of war has thrown into his hands.

by the President, Taising him to the brevet.

Timk of Major General. This is a just roward to his metit, which is no less shown in
his valor, than in his humane and honorable
conduct in relation to the enomy, whom the
fortune of war has thrown into his hands.

If Watkins and having provided hisself with
the means for conducting it in a manner that
his valor, alluding to the despatch of Mejia, in
Which he described the American General as
little better than a Mexican tailor, sayes off
it takes ping Mexican Tailors to make a man,
how many Mexican Generals will take to.

Drugs! Drugs! Drugs! ANOTHER FRESH ARRIVAL.

A GREAT SAVING MACHINE, AND NO MISTAKE — ECONOMY THE ORDER OF THE DAY!

MILLER'S PATENT, for cutting and grinding or crushing Corn Fodder, which entirely obvinies all the objections here-tolore made for cutting and grinding or crushing. Corn Fodder, &c. The subscribers have like satisfaction of announcing to the agricultural community, that they have purchased the right of manufacturing and vending the above mentioned machine in Cumberished county; and also that it is injuccessful operation at York, Pa. Every difficulty to the perfect execution having been fully surmoinfied, they feel warranted in stating that it is the most economical and excellent hivention of the day for the purpose to which it is designed. For durability and gower it has no equal in the many machines presented to the public for the same object; and all siceulific men, machinists, mechanics and largers, who examined or tested it gives their verdict in its favor. Its superiority sonsists in this, that it may be used by steam, thorse, water or hand power, that it is more caselly kept in order, and it performs its cutting and crushing by the same operation and does the work in a perfect manner. It is a great awing machine both in fodder and labor, as by the operation of it the larmer can make good feed of the whole cornstock from its root to its top, as it cuts and grinds or crushes the stock so fine that horses, cattle, or sheep, consume the whole of it, consequently it enables the farmer top, as it cuts and grinds or crushes the stock so fine that horses, cattle, or sheep, consume the whole of it; consequently it enables the farmer to feed five head of howes, cattle or sheep, to one with the same quantity of fodder, and makes better and slringer steep. With this machine one man can cut corn fodder sufficient to feed ten head of cattle in twenty minutes, and when attatelied to horse power can cut or grind and crush in fifteen minutes sufficient to feed fifty head of cattle. For cutting hay or sring there is nothing can equal to it. For its simplicity and usefulness it commends itself at once to the former, and only requires to be seen to be duly appreciated.

appreciated. The machine may be examined and purchas They will also receive and forward, daily, the Pitttsburg and intermediate points, Freight and Passengers also for the North and West Branch Canals.
