

At the quarterly session, held for the object to promote the celebration of the Holy Sabbath, will be preached on next Sunday evening, in the German Reformed church, by the Rev. J. A. Geis.

The article on our first page entitled the Right Education of Children, was handed to us by an elderly friend, who thinks its plain truths worthy the deep consideration of Parents in this meridian.

Capt. Washington's Artillery at the Barracks have not yet left, the previous orders having been countermanded. They are expected to leave some day this week.

THE GLOUCCIERS.—The Sons of Temperance of this borough are to have a splendid celebration of the 4th. Several divisions from neighboring places will unite with them, and prominent gentlemen from abroad will deliver addresses.

The locofocos are also to have their usual celebration, for the purpose of consultation upon the next County Ticket!

Mr. WALKER'S CONCERT.—Mr. Walker was greeted by a very large and fashionable audience at his Concert on Thursday evening last, and his performances rapturously applauded.

Mr. Walker in compliance with the public wish will give another and last Concert tomorrow (Friday) evening, when a variety of popular airs will be introduced.

THE RAIL ROAD.—The stock of the Pittsburgh and Connellsville rail road has been all subscribed, and the Governor has granted the letters patent, as of course he could not help doing.

On Monday last the books for subscription of stock to the Central rail road, were to be opened in Philadelphia. The Ledger of yesterday says that over 6000 shares were subscribed, half of which were taken by eight individuals.

An Editor's life has its occasional sweets after all. We received a few evenings since a most delicious treat of Ice Cream and Raspberries "smothered in cream," with the compliments of Mrs. Helbert.

It will be seen that the Tariff of 1842 is in very great danger of being repealed. Mr. Polk's cry recently was that the Tariff must be reduced because it would produce a large amount of revenue.

The time for the organization and reception of Volunteers in this State, has been extended by an order of the Adjutant General, to the 11th of July.

The meeting of the friends of Gen. Taylor in New York, very properly abandoned the intention of proposing him as a candidate for the Presidency.

The Harborsburg Telegraph says that preparations are making for the taking of the stock of the York and Cumberland Railroad.

A majority of its own party and of the whole Senate decided in favor of the treaty, yet the Volunteer calls them traitors.

One of the most agreeable and healthy resorts we have in this neighborhood, is the Carlisle Springs. Mr. Conman informs the public that his establishment is now open for visitors.

John K. Kane, of Philadelphia, has received his reward for that Tariff. Letter of James K. Polk, by being nominated as Judge of the District Court, lately made vacant by the death of Judge Randall.

The Harborsburg papers contain, comparatively, notices of the most enthusiastic and glowing character upon Mr. Taylor's appointment as President.

One of the celebrated Plumbe Navigators in the harbor of Philadelphia, has been ordered to be removed to the Navy Yard.

The Harborsburg bridge is to be rebuilt. It is the intention of the proprietors to rebuild it with iron, and to extend it to the new site.

The Treaty--The Senate.

The Volunteer, in giving vent to its feelings of indignation, in the vote of the Senate, advising the treaty for settling the boundary of Oregon, says:

We are quite certain, that had the Senate of the United States manifested that pure love and devotion to the interests of our country, that have characterized the conduct of the President throughout this important and trying question, Oregon, with all its inlets and outlets, bays, rivers, harbors, &c., would, ere this, have been in the peaceful and undisputed possession of this country--its only legitimate and true owner.

But alas for the potency of British gold--in '46 with Arnold in '76, it has had its sway--and the President, having firmly planted himself on the line of 54-40, maintains there his position to the honor and glory of a nation--a position to which the people of this country, finally compelled, as a last resort, humbly to step from his proud pedestal and submit the whole matter for adjudication to the Senate--leaving it for them to determine, as they see fit, in their infinite wisdom.

Such Weather! It has been so cold for the last three days as almost to require fire, cloaks and every other comfortable appliance of winter!

Our new neighbor, Mr. Hinckley, for it is no doubt salutatory ebullition from him, would perhaps be disappointed if we did not notice his review of the "Whig Patriotism of the Whigs" in the Statesman of Wednesday last.

We suspect the reason why Mr. Hinckley is unable to see the evidences of Whig patriotism, is, that, like the locofocos generally, seems incapable of making that broad distinction which the Whigs are always careful to preserve--that of not regarding James K. Polk as the country.

But not only does this libel fall upon the heads of forty-one of the most eminent members of the Senate. The aim of agreeing to the forty-ninth parallel as the Oregon boundary had been long before committed by such men as Thomas Jefferson and James Madison and James Monroe--and were they acting under "the potency of British gold?"

In view of this Treaty, we would say, "all honor to the U. S. Senate," with its democratic majority! Notwithstanding its past patriotism and purity it stands higher now than at any period since the foundation of the government. Never did it do an act of higher honor to itself, and of the sacrifice of every thing like party or personal consideration, than in the fulfillment of this treaty.

Accidents--A locomotive, with a train of burden cars attached, was thrown off the track and precipitated over an embankment of twenty feet, at the lower end of this borough, on Monday morning last. Although the locomotive fell upon the ground below, the train of cars was not injured.

Important from the Army.

The New Orleans papers of the 15th inst. bring the following news: A letter was received in town yesterday, which states that Gen. Taylor had sent proposals to Gen. Taylor for an armistice, and that he had established his headquarters at Monterey, with 16,000 men.

We have no doubt of the truth of this rumor. The steamship New York was expected at New Orleans with General Taylor's proposals. The New Orleans papers of the 15th inst. state that Gen. Taylor had sent proposals to Gen. Taylor for an armistice, and that he had established his headquarters at Monterey, with 16,000 men.

The New Orleans Picayune of the 5th inst. contains a plan of the Mexican campaign under Gen. Taylor, in which his course of operations will be, first, the capture of the town of Camargo, situated on the Rio Grande, 250 miles by water, above Matamoros, as soon as transports can be procured for the troops, for which purpose Gen. Taylor has dispatched Capt. Saunders of the army to New Orleans.

It is added, that if the troops under Gen. Taylor occupy Monterey, the whole of Mexico this side the Sierra Madre will be in the possession of the United States, including the mining districts of New Leon, New Mexico, Santo Fe, Chihuahua, &c. &c.

The Charleston Mercury, (lococo) alluding to the scheme of conquering Mexico, takes strong ground against the project, and holds this language: "We shrink with dread from the development of a love of conquest among our people."

On the night of the 12th inst. a fire broke out in the Theatre Royal, St. Louis street, in the city of Quebec, at the close of an Exhibition of Chemical Diaporams, raised by the upsetting of a Campfire Lamp upon the stage.

Dr. Watson's Balm of Wild Cherry. This extraordinary success attending the use of this medicine in "diseases of the lungs and the many singular cures it has effected, has naturally attracted the attention of many physicians, as well as the whole trade of quacks, various conjectures and surmises have arisen respecting its composition.

The Harborsburg Argus has a very long article last week in favor of the "Whig" principle. It commences with "It cannot be denied that a distinction exists in the ranks of the Democratic party of Pennsylvania." "Whig" or "Anti-Whig" is the distinction which the Argus makes between the two parties.

Gen. Gaines has arrived at Matamoros, and is expected to be with Gen. Taylor in a few days. He is expected to be with Gen. Taylor in a few days. He is expected to be with Gen. Taylor in a few days.

Mr. Walker's Concert.

Our distinguished townsmen, Mr. Walker, after an absence of three months, has returned to our city, and is to give a series of public concerts, in aid of the Harmonic Association. During the short time he has been absent, he has acquired a brilliant and permanent reputation.

Now we have always believed in giving honor, willingly and heartily, to who honor us. We have always believed in giving honor, not matter of what kind, or in whom found, meet with its just desert.

The Harmonic Association produces a charming and indelible effect. There is something about it which is so subtle for the power of words. It may be felt and thought, but it can scarcely be spoken.

It is a pleasure to see such a voice as we are now hearing, and to see such a voice as we are now hearing, and to see such a voice as we are now hearing.

Congressional.

Washington, June 16, 1846. Message from the President. Reduction of the Tariff upon raw materials--High Duties to be imposed on the Poor Man's Tea and Coffee.

The President recommends the reduction of the Tariff, and the imposition of duties on raw materials, among which are Tea, and Coffee. Deprecates any resort to direct taxation, and asks authority to issue Treasury Notes, or to negotiate a loan, to meet any probable contingency.

It will be perceived from the report of the Secretary of the Treasury, that a considerable portion of the additional amount may be raised by a modification of the rate of duty imposed by the existing tariff laws.

The entire receipts with this modification are estimated at 30,000,000 dollars, but leaving still the deficiency mentioned of 15,000,000 dollars. The adoption of the Warehouse system proposed, it is estimated, will further reduce this amount to about 13,000,000 dollars.

The Tariff Ratified. It is with unaligned pleasure, says the National Intelligencer, of Friday, that we announce to the public the ratification, by the Senate, of the Treaty for the settlement of the Oregon controversy.

Mr. Hungerford submitted a substitute of the Tariff bill, which was ordered to be printed, together with the usual number of bills reported from the Committee, of "Ways and Means."

Edwards Webster, son of Hon. Daniel Webster, has filled up the ranks of the Boston volunteers, 77 in all, and reported the fact in the Advertiser.
