It is by stopping the pores that overwhelm mankind with coughs, colds and consumptions.—

Nine-tenths of the world die from diseases induced by a stoppage of the Insensible Perspiration.

Let me ask, now, every candid mind, what course seems the most reasonable to pursue to mastop the pores after they are closed? Would you give physic to unritop the pores? It is preserved with multions of openings to relieve the intestines. Stop up-these pores and IPATH kinocks at your door. It is rightly termed All-healing, for there is scarcely a discusse, external or internal, that it will not benefit I have used it for the last fourteen venerior all diseases of the chest, consumption, liver, involving the atmost danger and responsibility, and I declare before Heaven and man, that not in one single case has it failed to benefit when the patient was within the reached more the profession.
