### Later from Tampico.

Victoria Occupied by the American Troops, un-der Gen. Quitman-March of, Gen. Shields from Tampico-Engagement Anticipated with Mexican Troops-Mexican Force Estimated at Fifty Thousand-Thirty-Thousand at San

Washington, Jan. 31-8 o'clock, P. M. The brig Georgiana, from Tartipico, has arrived at New Orleans, bringing dates to the 14th instant. Col. Kearney arrived at Tampico on the 12th, direct from Victoria, with despatches from Gen. Taylor to Gen. Shields to suspend operations for the present. Gen. Taylor had entered Victoria with Genera Aguitman on the 9th. Oen. Quitman had. driven the Mexicans before him for thirty or forty miles before entering. Victoria. The Mexican force was very reluctant to give ap place, and only retired at one side --Gen. Quitman was entering on the other. Having no cavalry, he could not pursue the

retreating enemy. Col. Kearney parted with Gen. Taylor at Monte Morals and pushed on towards Victoria with Gen. Quitman, thence proceeding alone to Tampico. There was no reason to suppose that General Butler and Worth had moved from Saltillo, though it was so reported. The Mexican army is believed to be not far off, though the Mexican soldiers seer in the neighborhood of Saltillo are now supposed to have been the advanced party. of some 15 or 2000 men kept in position on this side of the desert, between Saltillo and San Luis, to destroy the water tanks in case the American army should move in force in the direction of San Luis.

From the contents of private letters receiv , however, there is little doubt that a large Mexican force, consisting mostly of cavalry, were at the Tula, at the latest dates, under Gen. Valenlia. Gens. Urrea, Romero and Fernandez,-were also reported to be in the vicinity on the 1st of January. Gen. Taylor had sent forward Col. May to examine a mountain pass between Monte Morales and Fabradores, and in his return he took anothe pass, leading to Linares, where he was at-tacked by a large body of the enemy, and his rear guard cut off by rolling stones down his rear guard cut off by rolling siones down into the pass. It was a dangerous spot, the pass being scarcely wide enough for the horsemen to go through in single file. Col. May, however, managed to get away with his main body, and reached a spot where he was enabled to dismount and return on foot to succor the rear guard, but he was too late, as the enemy had retreated with their prize At one time the dragoons were alm inet a the mercy of the Mexicans, had the latter Jischarged their pieces with accuracy, as they occupied a position directly over the heads of our troops. Col. May's loss had not been accertained, or whether any of his men were killed. There can be no doubt that Generals Taylor, Twiggs, Patterson and Pil low were at Victoria with a large force .---Gen. Shields, with 650 men, marched from Tampico on the 10th, toward Altumira, it was supposed, for the purpose of opening a communication with Gen. Taylor at Victoria From two to three thousand Mexican troops were between Tampico and Victoria, with which it is supposed Gen. Shields might have an engagement. The force remaining at o was 950. This market was amply supplied with American merchaudize.

This fact precludes the idea of any serious attack upon General Worth or. Wooldspring meditated, the object of the Mexicans being only to keep a watch upon the American lorces, and retreat before any advance to cut off the supplies of water.

Col. Kenney brought a rumor to Tampico that 15,000 Mexicans were to attack Saltillo on the 28th ult and verbal news was brought to New Orleans by the Georgiana to the effect that Santa Anna had placed himself between Generals Taylor and Worth with 35,000 men, and that a general action was immedi-ately expected. This probably was merely on of the rumors before received by a repetition of the run way of Matamoras.

Col. Kenney states that the Mexican force at San Luis was 30,000 strong, and the whole force in the field was estimated at 50,000. The capture of Tampico, he stated had created the greatest excitement through Generals Butler, Worth and out the country. Wool had 8000 men at Saltillo, considered to be the flower of the army. Col. Kenny speaks confidently of their success in case of

## The Army Bills

The bill for raising ten regiments blirdops serve in the war with Mexico has at length passed the United States Senate, but will have to go back to the House for concurrence in amendments. . It will doubtless he a law to-day or to-morrow. But three Senators voed against the bill. The law provides that the troops shall be "tegulars," and one of its provisions secures to the soldier after the war 160 acres of land or an equivalent in money. For this provision the troops will gy of the contractors and workmen. be indebted to the untiring efforts of Senator Cameron and Corwin. It is understood the President will grant a commission as Captain to any one who presents a complete muster-roll of a company ready for immédiate service.

Active efforts are being made by the friends of Temperance to secure the passage of a law allowing the peopl + of the various wards and townships to decide by vote whether they will have spiritous liquors sold among them or not. It is hard to tell why so republican a proposition should not be promptly passed, in a country where the najority governs:-

In the Schale, on the 28th plt. Mr. Benton, on leave, made a speech in vindication of the President, for having proposed the creation of the office of Lieutenant General. The plan he said was his, not the

President's. In September last the Presi-dent had offered him the mission to France, which he had positively declined. During the month of November he had sent for him that the government is at this moment on the very verge of pecuniary destitution. The discrepancy between this state of things that the flourisking statements of the Secretary of the Treasury in December last, has called however, that his plan required one, head for however, that his plan required one, head for the whole army, the prosecution of the war with vigor, living on the enemy, and levying contributions from them: General Jackson, he said had offered him a command in the

army, in 1836, in case of war with Mexico. In 1812, he (Mr. Benton) was rullitary su-perior to every General now in the services and had only mentioned, these things to vindicate the President. The Treasury Note Bill was then taken up.

The Resolutions of Mr. Cilley, requesting the President to withdraw our forces to the Rio Grande, were taken up on Wednesday. Mr. Cilley explained that his object was to withdraw our army to some place in the United States, there to perfect its discipline increase its force, and then make a powerful descent upon Mexico.
