So I beg you will send me a bottle,
Of HOARHOUND, extracted by HANCE.

Mrs. Johnsen, I dare say you knew her, And the story will sound like romance, Has been cured of her cough of long stand By boying some Syrup of Hance.

There's the doctor, too, bless the old fellow,
For his health, went a travelling to France,
And came home to be cared of consumption, And lays it to Hourhound and Hance; Mrs. Martin, your father's first cousin, Lay to o or three days in a trance; And the first thing she said upon waking, Was " send for some Howrhound to Hance."

I vesterday sent for the doctor, Who said, "I can see at a glance, There's but one thing can cure your disorder And that is some Hoarhound from Hance,"

So you see, dearest Form, my condition,
It you would my enjoyments enhance,
Do not fail to forward to morrow,
A bottle of Syrup from Hance. Do not trust it by William, nor Peter,

"For Jear of some ugly mischance,
For what shall I do, dearest Thomas,

" If I get not the Hoarhound from Hance,

One bottle for me, and another Pon't forget to direct to your aunts; They sell it at Sands', I recken, But be sure 'tis the genuine Hance.

Mrs. Brown was bent double with choughing, But now she's as straight as a lance;
And the change has been wrought, she assure By taking the Hourhoand from Hances

Mr. Butterman eved me askance, And whispering said, "Mrs. Davis, You must send for some Hombound to Hance Mrs. Pitts, who subscribes to the Mirror, In that Journal encountered by chance, l'ery lucky, the first advertisement, Had been seen in our village from Hance.

Messrs. # Patent Medicines M'CALISTER'S AL-HEALING D'INTMENT:

THE preceding figure is given to represents Insersing Pensilation. It is the grave VACUATION for the impurities of the body will be noticed that a thick cloudy mist, issued rom all points of the surface, which indicates the perspiration-flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means of nearly all the impurities within us. The language of Scripture is "in the III.OOD is the life." Jif it ever becomes impure it may be traced directly to the stoppage of the INSENSIBLE PERSPIRATION. Thus we see all that is necessary when the blood is the INSENSIBLE PERFIRATION. Thus we see all that is necessary when the blood is stagmant or infected, is to open the porce, and it relieves itself from all impurity, instantly. Its own heat and vitality are sufficient, without one particle of medicine, except to open the porce upon the surface. Thus we see the folly of taking so much internal remedies. All practicement, however, direct their efforts to restore the insensible neit spiration. The Thompsoniar former however, direct their effects to restore the insensible perspiration. The Thompsonian, for instance, streams; the Hydropathist shrouds us is wet blankets; the Homepathist deals out infiniteissmals; the Aliopathist bleeds, and doses us with mercury; and the blustering Quack gorge us with Pills, Pills, Pills.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock ascertained that five-cights of all we receive into the stomech passed off by this means. In other words, if we get and drink eight

all we receive into the stomech passed off by this means. In other words, if we cat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration.
This is none other than the used up particles of the blood, and other juices giving place to the new and fresh ones. To check this, therefore, is to retain in the system five-cights of all the virelent matter that nature demands should leave the body. Ry a sudden transition from heat to cold, the

lent matter that nature demands should leave the body.

By a sudden transition from heat to cold, the pares are stopped, tho perspiration ceases, and disease begins at obec to develope itself. Hence, a stoppage of this flow of the juices originates.

It is by stopping the pores that overwhelm mankind with coughs, colds and consumptions.—

Nine-tenths of the world die from disease induced by a stoppage of the Insensible Perspiration.

Let me ask, now, every caudid mind, what course seems the most reasonable to pursue to unstop the pores after they are closed? Would you give physic to un-top the pores? Or would you give physic to un-top the pores? Or would you give physic to un-top the pores? Or would you of no physician who makes any externs application to effect it. Under these circumstances, I present to physician who makes any externs application to effect it. Under these circumstances, I present to physician shot all others, Me-Alister's All-HEALING OINTMENT, or the WORLD'S SALVE. It has power to restore perspiration on the feet, on the head, around old saves, upon the cheat, in short, upon-any-part of the body, whether diseased slightly or severely. It has power to cause all external sores, sero-fulous humors, skin disrases, poisonous wounds, to discharge their putrid matters, and then heals them. It is a remedy that forbids the necessity of so many and deleterious drugs taken into the stomach. It is a remedy that forbids the necessity of so many and deleterious drugs taken into the stomach. It is a remedy that forbids the necessity of so many and deleterious drugs taken into the stomach. It is a remedy that forbids the necessity of so many and deleterious drugs taken into the stomach. It is a remedy that forbids the necessity of so many and deleterious drugs taken into the stomach. It is a remedy that forbids the necessity of so many and deleterious drugs to the intestines.

It preserves and defends the surface from all derangement of ats functions. The surface is the outlet of five-ciphts of the bile and

CONSUMPTION.

It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them, and expels them from the system.

I feed not say that it is curing persons of Consumition continually, although we are told it foolishness. I care not what is said, so long recan cure several thousand persons yearly.

WORMS.

If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially "mercurial lozenges," called "medicated lozenges," werminges," pills, &c. The truth is, no one can tell, invariariably when worms are present. Now, let me say to parents, that this Salve will always tell if a child has worms. It will drive every essige o them away. (Rend the directions around the box.) There is probably no medicine in the face of the earth at once so sure and so safe in the grapulation of worms.

In all cases of fever, the difficulty lies in the pores being locked up, so that the heat and perspiration cannot pass off. The All-Healing Ointment will in all cases of fever; almost instantly unlock the skin and bring forth the perspiration.
