Diskinson Townshir, Nov. 20, 1847.

About six yeers since, in consequence of the sedentury nature of my business, I was attacked with severe gains in the breast, palpitation of the heart and shortness of breath which were soon followed by a feiture of appetitive xtreme wakefulness at night, and patial yearing sis of my limbs—these symptoms of a deranged system being frequently extended with spitting of Blood. Fer about two years I was also occasionally threwn into convulsions which left me in a miserable state of feeblemess and began to affect my mind. From him to the head, side, back, side, back, side, back, side, back, that for a whole, your I was rimable to attend to any besiness. Is buring this time I consulted some able physicians and at length they regarded iny recovery as cultively hopeless. In this confliction I was informed of the salutary effects of Phomeon's compound Syrap of Tur and Wood Naphtha, in a tase somewhat similar to mine, and though I had given up all expectations of a recovery of my former health by human means, yet hoing strongly advised to try the medicine, I was allength prevailed upon to do so, and I have now mented, that for a whole year I was unable to attend to attend to any besiness. A Puring this time I consulted some able physicians and attended to their prescriptions; but all their shill was seavailing to procure me relief, and at length they regarded my recovery as entire the hopeless. In this conflittion I was informed of the salutary effects of Thomson a Compound Syrap of Tur and Wood Naphtha, in a case somewhat similar to mire, and though I had former health by human means, yet being strongly advised to try the medicine, I was at ength prevailed upon to do so, and I have no o say, that by the use of six bottles my heal has been restored, and I am now able to ht-tend to business with as much facility as usual.
