## Important From Vera Cruzza

We have, by the Southern Mail The and important inteligence. Steamable Massa-vhusetts has arrived at New Orleans, from Vera Cruz April 14. An explose ball come-in from Gen. Twiggs, coefficiently the report that Santa Anna had entrenched himself, at Verro Gordo, seven mile beyond Jalapa-and La the way are come Cerro Gordo.

and had 15,000 troops. (Cerro Gordo, is about twenty miles this side of Jslapa, and nearly mid way between that place and the National Bridge.) Lieutenant Col Johnson was severely wounded in reconnoitering the eremy; and it was said a skirmish had taken tween the Blexicans and the advance guard of Taviggs. Several of our stragglers had been killed. The brigades of Generals Worth, Ratterson, Shields, Fillow, and Quit-man, wore on the road, advancing to the scene of conflict.

General. Twiggs had about 2700 men and Santa Anna, who was supposed to have 60 pieces of antilery, would hold bin in check till Gen. Scott came up. He was making ra-pid-matches, and, as before suggested, the battle probably took place on the 14th. . Mr. Kendall, of the Pickayune, however writes that intelligent Mexicans were of opinior that Santa Anna would not fight; he had fou members of the national council-with himwhat for, exceptito fregotiate? Gen. Patterson had entirely recovered his

-illness, and the only disease at Vera Cruz: was the diarrhosa, with which many were At Tuspan, there had been a fight between officers and citizeus, and a detachment from the blockading squaddron had left for that

place, under the Commodore. Gen. Sconthe Mexicans to remain at home and promising them protection.

The New Orleans mail of the 23d ult, confirms all the accounts we have previouly received, of the advance of our army and -the probable resistance of Santa Anna. Wo give the following to make complete the hisfory of the campaign.

From the New Orleans Picay une. CAME AT SAN JUAN, April 14, 1847.

I arrived at this camp at '11 o'clock last night, the road from Vera Cruz running for. the most part through heavy sander-The division of Gen. Worth, from the excessive heat wearisome road, suffered incredibly. The news in camp is stirring. An express has come down from Gen. Twiggs to the effect that Santa Anna was before him, at Cer-

ro Gordo, with 15,000 men, as near as could be judged from reconnoissances made by Uaptain Bardie and other officers of the dra-Lieut. Col. J.E. Johnson has been severe-

ly but not mortally wounded while examin-ing Santa Anna's works, which appear to be a succession of breastworks on the erninen ces in the vicinity of Cerro Gordo. Everything would now go to show that Santa An na is determined to make a bold stand. A dragoon who had been sent down exess by General Twiggs, was yesterday indishot, by the road side just beyond this. His papers hall not been touched. The Mexicaus are playing a bloody, and at the same time bolder game than is usual for them, as it is thought they have killed no less than usual for them, as

fitty of our men-within the last three days on the road. Gen. Scott stopped last night nine miles

from this-to-night he will leach General Twiggs' position. If Santa Menais asstrong as he is representell, he probably will not be attacked for two or three days, G. W. K.

VERA CRUZ, April 14, 1847. There has been a skirmish at Püenta Naciona, and we hourly look for the intelli-gence of the capture of Cerro Gordo a strong mountain fort twe:ty-two miles from Jalapa. A decisive balle is expected at this point, for it is the best vantage ground this side of Pe-rote. General Santa Anna was at or near lahapa at the last accounts, but by this time there is searcely a doubt that Cerro Gordo is quarters at the healthy and the army at snug quarters at the healthy and delightful city of Jafapa. Vera Cruz is as quiet and well gor-erned as any city in the United States. It ministration. would improve the health some to throw down the walls and let in the fresh zir, as

The Volunteer cannot understand why we Commerce, a docofoco paper, will explain voted against this Proviso as well as the Northern locolocos. For the same reason, we answer, that we do not denounce the Southern locolocos.
