BRANDRETH'S PILLS, A Vegetable and Universal Medi-

These Pills cure all diseases by purifying the blood. They give to all the organs of the body the proper amount of life necessary to the r purification. They are a rountain of HEALTH TO ALL MANKING, and may be justly said to give the beauty and vigor of youth to the weakuess, and decreptude of age. Can it be believed that after being before the public for ninety one years, their sales should only now be a little rising a million of boxes per year? But so it is, and it is only to be attributed to faial predjudice, or their sale would be at least twenty millions of boxes per year? But so it is, and it is only to be attributed to faial predjudice, or their sale would be at least twenty millions of boxes per year instead of only one million. Let all the sick use them—they will soon be among the healthy; let all who would secure themselves from aickness have them by them, in case of a sudden attack; for a few doses taken when the body commences to get out of order, and the benefit is sequently at the subject—sons and daughters attend to this subject —tet all men and yomen ask themselves the question whether what has stood the test of time so long does not deserve some attention.

And who is to be benefitted! Those who use question whether what has stood the test of time so long does not deserve some attention.
And who is to be benefitted! Those who use the Brondreth Pills. They are the quest that receive the Interest of a thousand per cent—How? In the present payment of health, of vivacity for dullness, of brighings and eleurness of percention, in place of cloudiness and contusion of mind. Brandreth's Pill'a are a life preserver. Those who know their qualities feel secure in their health and faculties being preserved to them to an indefinite period. They are equally good in all kinds of disease, no matter how salted, because they cannot be used without taking out impurities from the blood, and perseverance will cause its perfect purification, and no disease can be present when the blood is pure.
