AMERICAN SUPERIORITY

The public journals have at different periods announced, as a remarkable proof of the skill and proficiency of American Artists, that Daguerco-types are now made in this city superior in every respect to those made in any of the Europesh cities. The success of American artists was manner, by Mr. Barnum'r publicity stating at the close of his Tem Thumb exhibition in this city with a first manner, by Mr. Barnum'r publicity stating at the close of his Tem Thumb exhibition in this city, that Mr. Root had made fifty-one good pietwise with only a single influre. In addition to which Mr. R. has been furnished with the followsing sonekusive certificate, signed it will be periodically by the parents of Tom Thumb, by Mr. Barnum, his teachers and secretary, all of whom were with him in Europe:

"The Dauguercotype of Tom Thumb and this family, including his several teachers, footmand driver, equipage &c. and his various costumer and characters, made by Mr. A. Root, EMENSAL ONE in all) present a degree of security and delicacy of finish and uniform. Drilliance that we, have never seen equalled. They are decidedly superior to any thing of the kind witnessed by us either in this country or in London, Paris or any of the cities of Europe which we have visited. We take pleasure up bearing testimony to the courtesy, and skill so uniformly manifested by Mr. Root, the eminently successful Daguerreotypist.
