The Debate, in the U.S. Senate.

Correspondence of the N. American and U.S. Gazette. Washington, Jan. 11, 1848. The conclusion of Mr. Johnson's speech was as extraordinary as its beginningat satisfied nobody, and if it convinced himself, the effort was singularly successful: To me, and to all those who have &c. Owing to a severe cold, Mr. Clayton

was compelled to ask the courtesy of an adjournment till the morrow.

Correspondence of the Daily News.

Washington, Jan. 12. We had an able speech to-day, in the Senate, from John M. Clayton, of Del-

He had commenced his speech vesterday, but had not proceeded far, when the Senate adjourned. To-day he commenced by showing that what we were fighting for, as claimed by some-namely, to make Mexico pay indemnities to our citizens-amounted only to three millions when we commenced. That Mr. Trist was actually authorized to put that sumas sufficient to cover all the demands we had against her when the war broke out. And now what do we want all this increase in our army for? Before the administration consented to send out Scott, that-gallant General said, with five or six thousand American troops he could march to any part of Mexico, even if i rained Mexicans for a week. This he has accomplished. For in the various buttles around the city of Mexico, it really seemed as if it did rain Mexicans about a week. Now we hear the cry indem nity for the past and security for the future. He never could get any explanation of these terms.

He presumed, however, that they mean We have seen that the President in his instructions to Mr. Trist, made i the ultimatum that Mexico should give us, up about one-half of her territory. That he presumed was indemity for the past. "He presumed, also, that security for the future would take up the other half of Mexicol But who asks for this increase in our

warriors that ask for the increase, who
know nothing about it, and are sure to
keep away from the scene. This wholdproceeding is contrary to the genius of
our free institutions. He doubted whetheff ever the Constitution was intended for
such a state of things as we how have.

The preamble to the Constitution of the The preamble to the Constitution of the United States says that that instrument was established to secure the blessings of liberty to ourselves and our posterity.— It was not for the people of every nation with whom we might come in contact. These will clamor, pereafter, for annexation, and unless we stop this system now, the clamor will be too loud to be resisted. There are in Mexco eight millions of colored people-what shall we do with them, if we take Mexico? They will be the most dangerous element of disturbance we can bring in. Shall we not pause now, before the armed emigration going into Mexico grows so

powerful that we shall try in vain to resist the destiny they are making for He held that there were occasions when patriots might withhold from the Administration what it demands. the part, varying from a moderate degree of these
sonsations to the firest executating sufficing;—
these are caused by the great flow of blood in
the parts. Sometimes the inner coal of the blowel
produdes at every evacuation, forming what is
called Prolapsus, or folling of the bowels; this is
the effect of long continued irritation and weak
ness of that organ. In some instances the patient
experiences retrous pains, which are indescribable, and known only to the sufferer, which commence immediately after an evacuation, and continue from thirty minutes to several hours; these
sensations are very annoying and sometimes very
distressing. This disease, when of long continuance, is attended by pain and weakness in the
back, irritation of the kidneys and bladder, and
other organs in the vicinity, pain end numbness
in the legs and feet, a sense of straitness about
the clost, and unnatural fulness of the abdominal
viscora, accompanied with palpination of the libarand oppression. Individuals sometimes experi-

Individuals sometimes experi-ence, previous to an attact of the Piles, symp-toms denoting great descreeness in the ence, previous to an attact of the Piles, symptoms denoting great derangement in the circulation; there is a sense of weight and pressure in the abdomen, with a peculiar feeling of uneasiness in the bowels, constipation or perinteum, attended with pain in the block and loins, nausea, and slight pains in the stomach, pale countenance, confused senations in the head, weariness, and inimitable and discontented state of the mind, and a sense of fulness and oppression in the region of the stomach. The circulation on the surface is feeble; and the current of blood determined inward and downwards.

For all of the above diseases and complaints, Dr. Upilan's Vegetable Electrany cures effectually, and therefore prevents Piles.

Messra. Wyatt & Ketcham—Gentlemen, understanding that you are the general agents for the sale of Dr. Upham, s Vegetacle Electuary, for the cure of Piles, I have deened it my duty to volutieer a recommendation in behalf of that invaluable medicine. I have been afflicted for many years with Piles, and have tried various remedies, but with no beneficial effects—indeed. I began't o consider my case utterly hopeless. But about the first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took his advice and rejoice to say that I am not only relieved, but, as I believe, perfectly cured. I most entrestly recommend it to all who may have the misfortune to be affleted with that amoving and deagageous disease. with that amnowing and dangurous disease.

Very respectfully, your obedient servant,

ment determined to contest and maintain it as the boundary line. If, said he, the situation of affairs was the same as at the last session, he should not hesitate a moment in granting the supplies required by the President. Then conquest was disavowed—peace was proclaimed to be the only object of the war, with an adjustment of the claims of our citizens.—Mhat now was the case! He then read from the President's Message, showing that New Mexico, California and other provinces were in possession of the Usations, and when these terms were examined, and when these terms were examined, they turned out to be such as could not be granted by Mexico, without the, virtual extinction of her nationality.

We were no longer left in doubt as to the ojects of the President of the President of the very last number of the granted by Mexico, without the, virtual extinction of her nationality.

Dr. Keeler—Sometime last summer your agent left me some of your Infant cordial and Carminative, urging me to try it. It so happened that I had a case, a young child about six months old, whose stomech and bowels were his very disordered condition, caused by a deficiency of its mother's milk. The child was a mere skeleton, there was much tormina, tenesmus and constant evacuations. I administered every medicine I could think of, with but a slightalleviation of the complaint. I then thought of giving your medicine a trial commencing with small doses, soon however perceived the child could bear full dose as recommended in directions; before it had taken half a bottle, the stomach and bow els had recovered their natural tone, every othe bad symptom yielded, and the child rapidly recovered. VEGETABLE UNIVERSAL PILLS

VEGETABLE UNIVERSAL PILLS

THE only known medicine that at the same time purpes; purifies and sufference the time purpes; purifies and sufference the places of all others of the tand; sleet includes just applicated, and is last taking the places of all others of the tand; claim. These pills are composed, of many angredients, but the two principal, ones are Sawsapurillar and Wild Cherry, so united that they set together; the one through its admixture with other substances, purifying and purgiffs, while the other is atrengthening the system. Thus those pills are at the same time town of and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words they do the work of two medicines, and do a timush better than any two we know of: for they remove nothing from the system but the impurities, so that while they purge they cremented, and hence that while they purge they cremented, and hence influence on the blood; they not only purify without weakoning it, but they remove allowed by increasition. Dr. Le Roy's Pills have a wonderful influence on the blood; they not only purify without weakoning it, but they remove allowed by increasition. Dr. Le Roy's Pills have a wonderful influence on the blood; they not only purify without weakoning it, but they remove allowed by increasing the convened into fluid, and thus make impure, blood an utter impossibility. As there is no deplification, so there is no nausea or sickness attending the operations of this most excellent of medicines, which never strains or torture; the digastic functions, but causes them to work in a perfectly instruct and manner; and honce pursons taken them do not become pale and emaciated, but the Kontrary for while it is the property of the Sarsaparilar, united as its with other ingredients, to remove, all that is foreign and impure; it is expanly the natural and sound; and hence are robust state of health is the creatin result of their united operations.

IT has power to cause all external SORES; SCROFULOUS humors, SKIN DISEASES, POISONOUS WOUNDS, to discharge their put trid matters, and then heals them.

It is rightly termed All-healing, for there is scarcely a disease, external or internal, that i-will not benefit. I have used it for the last four-teen years for all diseases of the chest, ethisumption and liver, involving the utmost danger and responsibility, and I declare before heaven and man, that not one single case has it failed to benefit when the patient was within the reach of mortal means.

I have had physicians learned in the profession. I have had physicians learned in the profession it in every variety of way and there has been but one voice—one universal voice—saying, "Mc-Allister, your Ointment is GOOD."

CONSUMPTION.—It can hardly be credited that a salve can have any effect upon the lings sented as they are within the system. But, it placed upon the chest, it penetrates to the lungs subparates the poisonous particles that are consuming them, and expels them from the system.—It is carriag persons of Consumption continually.

CERTIFICATES OF CURES.

From Warwaring, N. Y.

Dear Sin,—I, have been afflicted for several years with inward weakness and general debility, accompanied at times with pain in the side and other distressing complaints. After having tried various medicines without effect, I was persuaded by a friend to make crist of Dr. Wright's Indian Vegetable Pills, which I am happy to sake have relieved me informs wonderful manner. I have asked the medicine as yet but a short time, and have no doubt, by a perseverences in the use of the medicine according to directions, that I shall a short time be perfectly repaired.

I nost willingly recommend said Pills to all fersons similarly afflicted and in the full belief that the same typicalish results will follow their disc.

that the same by acficial results will follow their use.
