

From Washington.

entondeaccof the N. American and U.S. Gazett The Outrage upon Gen. Scott! WASHINGTON, Jan. 25.

There is no longer any ground for spec ulation as to the truth of my despatch of the 18th inst. communicating the fact that a Court of Inquiry had been ordered upon Gen. Scorr, Gen. Pillow and Col, Duncan, at Perote,-that Gen. Butler would succeed to the command of the army,-and that Gen. Worth had been

rélieved from arrest, by the dismissal of the charges preferred by Gen. Scott.--Those who challenged the correctness of that statement, are now convicted by Gen. Cass, who upon behalf of the Administration made the official announcement this day upon the floor of the Senate, in

reply to Mr. Crittenden. This proceeding is one of the most ex-

marily suspended from his command, and ordered to trial in the heart of that enemy's country, before a tribunal which is

an anomaly in the history of all military courts. He is not only disgraced, so far as the act of the Government can disgrace

him, by depriving him of his command but insult is added to injury by dragging him before a body of men, without refer-

ence to the commonest decencies of the military service, and with an utter disregard of his rank and rights. I say the outrage is without parallel, and nothing but the madness and depravity of those

who have perpetrated it, could convince wind us that we realize the facts as they have been disclosed.

The indignation of the country and the just retribution of universal execration, must be the doom of this new and wanton prostitution of power, to the base purpos of political and personal vengeance. What is it but a repetition of the attempt to destroy TAYLOR and his gallant band at Buena Vista? What is it but a con-

tinuation of that system of oppression -which has been practised toward EVERY

Wing officer who has distinguished him self in this war ?'

self in this war? This court, I repeat, is an anomaly such as never before has been witnessed. Gen, Towson, it is said by military men, helds no lineal rank in the army, although F have since been informed that he is still in the line of the army, and has been bre-vetted as Brigadier General, since he has discharged the functions of Paymaster General, which is a recognition of his rank. Col. Bulken, as a member of the court. And then, Gen. Cushing, the sub-servient tool of any party that will pay best--the political Scapin, who turned his back upon himself--the apostate, who a-bandoned the party upon whose shoul-ders he first clambered into notice. for a ders he first clambered into notice, for a convenient price, and the pliant instrument of the present Executive, is also one of this trio. Such is the tribunal before which the scar-covered hero of Lundy's Lane, and the laurel-crowned

under which he had been placed by Gen. Medicines. Scott, says: HEMORRHOIDS or PILES "A giorious feward (is not this?) for NTERNAL of External, permanently cared by Dr. UPHAM'S VEGE TABLE ELEC-TUARY, an INTERNAL RAKEDY, which, if used according to directions, a COREFOR, Life is guar-anteed. the successful enterprises the skillful strat-cgy, and bloody victories of the brave and veteran General-in-Chief, of the Army, whose achievements, unsurpassed in the according to directions, a. SYNTERONS OF TITE DISEASE.—A common con-sequence of this effection is a kind of tonesmus, or bearing down sensation, as it is familiarly call-ied; there is also a heat, tonsion and throbbing in the part, varying from a moderate degree of theso sensations to the most excrutiating soffering;— these are caused by the great flow of blood ho the parts. Is there an American whose blood does not boil at this violent indignity? Is there one that does not feel that he ought to strike down the petty tyrant who has stretched forth the herculean hand of power, to crush one who has given a long life of honor and usefulness to the service of his country?

Gen. Scott presuming the operations of the campaign to be closed, applied in November for leave to return to the United States. The result of the Court of Inquiry will not affect this application, and he may be expected home as soon as its proceedings have closed, if he determines to attend it, which is questioned ; or sooner unless the President deems it politic to change his views.

It can do no harm to repeat that Gen. Scott arrested Gen. Worth because he refused to communicate with the Department of War through the Commanding General, according to the recognized u-sage of the service. This arrest grew out of a correspondence between the two officers, in reference to an order of Gen. Scott concerning letter-writing from the camp, which the Secretary of War caused to be revived with immediate application to Gen. Taylor for his letter to Gen. Gaines.

Gen. Worth has won no enviable distinction throughout these difficulties, however valuable may have been his services as an officer. There are facts of a grave character, which if brought to light, may give a different shape to public opinion in respect to Gen. Worth and others, who have not been DEPRECIATED in the public correspondence from the seat of war; in the contrast with others, whose gallantry. and achievements might have claime some respect with these very IMPARTIAL historians, as they profess to be. I honor Gen. Worth for all that he has done. but I cannot honor him at the expense o brave soldiers, who deserve as much of public gratitude and consideration. Political aspirations, encouraged and originated by selfish partizans at home, have nated by selfish partizans at home, have greatly altered the relations of many dis-unguished officers, whom the couptry de-lighted to admire and appreciate for their and the self of th
