and substance of what he boastingly proclaimed. The phrase "little Jimmy Polk" is his own. He has often used it on the stump in Tennessee.

Now, what has Mr. Polk done, in accordance with his boast of what he would do, and what he would not, permit any European power to do on this continent? That is the question-what has he done?

Why, the British lion ROARE done day, and the valiant Mr. Polk exclaimed, "Oh, don't-I'll yield-I'll take the back track I'll fulfill Mr. Adams' predictions— I'll back out—I'll ask the Senate to give up half of Oregon' and, if it consents, I'll gladly take the 49th line of parallel and be content! But I'll make Mexico suffer, that I will! I'll have indemnity " I'll bargain with and restore to power the

to Great-Britain in Oregon."
Such in substance, was Mr. Polk's language while taking the back track—on the Oregon question! 'And how has he guage while taking the back track—on the Oregon question! And how has he since carried out Mr. Monroe's doctrine! He sent Don Nicholas P. Trist to Mexico, to make a peace. There the British Agents, Diplomatists and Bankers took, not only the Mexican-Government, but Senor Don Nicholas into their keeping—fixed up a Treaty, which they got the Mexican Government to adopt, which would put money into the peckets of the aforesaid British capitalists and negotiators, to the tune of millions, at the expense of deluded and swindled Uncle Sam—and—then sent said Treaty to Mr. Polk, who embraces the British bantling and sends to to our Senate, with an ardent desire that it may be ratified! And, fearing the 'faithful' in that body may go against it, as being too favorable to the wants, wishes and holds his power, over the heads of the 'faithful' aforesaid to induce them to support the British bantling. They support it, and it is ratified! Is there no interference in the interference have been afflicted with Piles, general debility and inflammation, causing tumors and prolapsus of the bewinds and inflammation, causing tumors and prolapsus of the bewels, and when ha'r resisted all the medical treatment Dr. Chapman and others could-give. The last three years of that in fact for three days before I commenced using Dr. Upham's Electuary, I was entirely speechless and my burial clothes were made. But under Providence, and the use of Dr. Upham's Electuary, and to we commend it to my afflicted fellow-creatures. It leighed me beyond the expectations of all that knew my case, and I can only say to others that it is in my septiment a cure mevery case. Yours, with the utmost expression of transfullers. It is in my septiment a cure mevery case. Yours, with the utmost expression of transfullers. It is the meter of the fertiles of the bowels; and if they will use it according to the directions. I will myself warrant a cure mevery case. Yours, with the utmost expression of transfullers. port the British bantling. They support it, and it is ratified! Is there no interference here by a foreign power? John Bull gets all he asks in Oregon, and then out-manages Brother Jonathan, fools him-DIDDLES him in the settlement of the Mexican question-makes him pay the millions of claims due our citizens from the Mexican Government and fifteen millions more to Mexico for Alto California, which with the exception of the Bay of San Francisco, is not worth a bundle of shucks! What indemnity for the past is this? What security for the future? What proof is there that one of the powers of Europe is not only gaining such a foot hold as it likes in Oregon, on this continent, but is doing as it pleases with Mexican affairs, and also with the Presdent of the United States? I ask, what proof is there that Mr. Polk, like "Parley the Porter," is not doing the very thing he so vehemently and indignantly denounced, when he copied and endorsed the noted declaration, made by President Monroe in 1821?

The Whig members of the Maryland Legislature have called a state Convention, to meet in Baltimore on the 11th of May to appoint delegates to the Whig National Con. vention.

The Secretary of the Treasury, it is said, has made another blunder, by which the new loan is reduced about one-third in amount. Instead of having five millions at his his disposal, the Secretary finds that he had only \$3,200,000, and of course the lowest bids, to the extent of \$1,800,000, will · have to be rejected.

VALUABLE OFFICE, The editor of the Contreville, Mdi ...Times, says he has been shorn of his official dignity of magistrate, and the alluring perquisites of office transferred to other hands! when he had paid one dollar and twenty-five cents for his documents, and only realized one twelve and a half by the year/s operation.

Jimmy Polk's Valour!

"Terrible," said Mr. Polk, at the time he put on the Presidential robes, "terrible shall be my wrath, if any power of Europe undertakes a system of colonization upon this continent, while I am at the head of affairs in the United States. I renew the doctrine, laid down by Mr. Monroe, in 1824, and I down by Mr. Monroe, in 1824, and I down by Mr. Monroe in Isan for the whole of Oregon, up to the line of 54.40, from which I willnever recede!"

These are of course not the exact words of Mr. Polk, but they convey the spirit and substance of what he boastingly proclaimed. The phrase "little Jimmy Polk" and a sense of fulness and oppression in the region of the stomach. The circulation on the and a sense of fulness and oppression in the region of, the stomach. DR.LE ROY'S VEGETABLE UNIVERSAL PILLS.

VEGETABLE UNIVERSAL PILLS.

The only known medicine that at the same the ing purges, purifies, and strengthen the lystem. Dr. Le Roy's Pill are a new medicine hich has just appeared, and is fast taking the places of all others of the same class. These pills are composed of many ingredients; but the two principal ones are Sarsaparilla, and Wild Charry, so united that they act together; the one through its admixture with other, substances, purifying and purging, while the other is strengthening the system. Thus those pills are at the same time tonic and opening; a desideratum long and eagerly sought for by medical men, but never before discovered. In other words, they do the work of two medicines, and do it much better than any two we know of: for they remove nothing from the system but the impurities, so that while they purge they strengthen, and honce they cause no debilitation, and are followed by no reaction. Dr. Le Roy's Pills have a wonderful influence on the blood; they not only purify without weakoning it, but they remove all noxious particles from the chyle before it is convened into fluid, and thus make impure blood an unter impossibility. As there is no debilitation, so there is no nausea or sickness attending the operations of this mest excellent of medicines, which never strains or tortures the digastic functions, but causes them to work in a perfectly natural manner; and honce pursons taken them do not become pale and emaciated, but the contrary, for while it is the property of the Sarsaparilla, united as it is with other ingredients, to remove all that is foreign and impure, it is equally the property of the Wild Cherry to retain all that is natural and sound; and hence a robust state of health is the vertain result of their united operations.

## Brandreth's Pills.

NO CHANGES in the Weather will materially affect the body if the blood is pure.
Every individual, even the most diseased, has
within him a germer root of that original pure,
blood of our common mother Every which; germ of pure blood is the supporter of his life, and is in constant struggle to throw off the and is in constant struggle to throw off the heterogeneous, corrupt humors, which are the causes of disease in the individual. Let all who wish to be of a fine healthy habit; who wish to here a sound mind in a cound who wish to have a sound mind in a sound body; who desire to be able to stand without restore the human body to the state of health enjoyed before the introduction of mineral medicines.
