Saros' Sareaparilla,—The blood contains the elements of the whole animal structure: flesh and fibre, glands, muscles, lendons, the nails, the hair, and even the bones themselves, are all sustained by the blood. Well may it be called the stream of life. In proportion to the purity, will be that of the substance into which it is continually changing. Corrupt blood instead of producing health, is likely enough to develope sores and ulcers. When these appear, whether in the specific forms of scrofula, abscesses &c., or of the ordinary types, there is no detergont, it is believed, that will so rapidly neutralize the virus in the blood from whence they sprung as this preparation. Natural action of the excretory organs, renewed appetite, recruited attength, and a clear renewed appetite, recruited strength, and a clear akin, are the results secured to the afflicted from the use of this medicine; as the uniform testimony of a multitude of attented cures abundantly prove. of a multitude of attention cures noundarily prove.

"CONSUMPTION.—There is perhaps no disease with which our country, is affected, that sweeps off singually so many victime, as that fell destroyer of the fuman race—Consumption. Day afterday, year after year, the instaltate monster burries to the portals of the cold and silent tomb, fresh added victims to its conquest. No walk of life is accred, from its blighting influence. No age is exempt from its dath-dealing shafts. The old, the middle aged and the young; all alike are food for this common enemy of mankird.—The white haired patriarch, whose life oftemperance has rendered his system impervious to the attacks of other lile, and whose good deeds prepared him for the anjoyment of life's calm—evening.—finds-Consumption from a world ever bright to minds which look complacently on days well spent. Is there no help for the afflicted? No preventive of the dangers which hoese us in our changeable and fickle clime? We think there is. And if the allegations of those who are at least optitled to veracity, may be believed, there is a preventive and a remedy.

Wistan's Balean of Will Chessey is offered to a suffering world as such. Inseeds not the "adventitious aid" of a long string of hetiflous certificates to give it notoriety. Its true value and intrinsic excellence are sufficient to entitle it to the confidence of the public, and to "wast on to fame," the name of its inventor, as a benefactor of his species,

30 Great Excitement in Pitterre !- Our agent of this place writes of a mysterfous incident which occurred in that place, in relation to an excellent young lady, but who unfortunately poscepted with pimples, blothes, pustules,—her skin dark and yellow, cracked and chapped—her lips in cold weather would become sore and bleed. She hall, however, several good traits, one of which was to read, the newspapers. One morning as she was looking over the columns of the Dispatch, she saw in large letters the words Ranway's Chinese Medicates Soar! As a sure exterminator of all skin blemishes, with a direction for all ladies to read, the papers! Now mark the advantage. On Sunday morning she took her place, as usual, among the choristers, and to the utter surprise of her fellow, songsters, presented a complexion as fair as a lily, and beautiful as the most admired belle of the town.—Strange, wöndering and much excitement was exhibited by the busy crowd, and nothing short of an explanation of how this sudden transformation from ugliness to beauty was attained, would answer. The lady, like all her sex, full of gentleness and kindness, explained the cause, and to the great, grand and beneficial effects of Radway's Medicated Chinese Soap, which she had been using for two weeks, was awarded the full approbation of the people, as the "restorer of lost heauty." Our, agent concludes thus—"Sincothe above has become known. I have had a perfect rish for Radway's Soap."

Ladies and gentlemen, if you wish to ge. Radway's Soap in all its purity, call on fob 23
