What thoughts these proceedings suggest to the patriot and the man of justice!

The mousing military owls at home chafed with disappointment at the public enthusiasm clustering round the name of Zachary Taylor, and having their weak and jealous eyes blinded with the glory of that gallant old General's conduct, set about annoying him. They tried to censure him for his humanity at Monterey, they resorted to every despicable means to degrade him in the eyes of his admiring countrymen. Gen. Taylor wrote a letter to his triend General Gaines, defending himself, which letter was published. This was an unpardonable offence! That the gallant old Gencral should dare to be indignant at the course pursued towards him, was looked upon as a contempt to the miserable creatures around the White House, who wished, without deserving any credit, to monopolize all military glory for them-

Accordingly, an old and almost obsolete regulation of the Army was exhumed m long disquietude, and reanimated with all the invigorating power which the President and the Head of the Department could give it. That this was meant only to annoy General Taylor, was but too painfully evident at the time. This very revived order had scarcely been published, till the organ of the Administration was publishing, with the approving silence of the Cabinet, letters from officers, puffing the creatures of Executive patronage, and even puffing

This general order that no officer should publish in newspapers, unauthorized letters or reports, was of course sent to Gen. Scott. He was bound to see it obeyed. He had evidence before hun, that Gen Pillow and Col. Duncan had both violated'the order and he arrested them, and asked the President to order a Court Martial. Instead of this, however, though the prisoners had both acknowledged that they had violated the order, the President appointed only a Court of Inquiry -proving his indifference on the subject. It was only intended to shut the mouths of Gen. Scott and Gen. Taylor, and other gallant Whig officers. The creatures that were bred in the corruption of executive patronage, and that had been attached to the army, like moral sores upon the body, were not only encouraged, but approved in violating this order. And even now, at this day, wherever an officer, seeking, in the crawling spirit of debased humanity, to ingratiate himself in executive favor by infamous charges against the Whig party, dips his pen in the blackest of falsehoods, the effusions of that pen is eagerly spread out before he public in the columns of the Adminstration organ, with the silent approba-ion of the cabinet. Thus do they viote their own orders day by day, and glory in the violation if it inure to their

base party benefit.

Gen. Scott in the fulfilment of his duty is arrested merely because he tried to enforce the orders emanating from the Department. So enger were they to get Gen. Scott into difficulty, that they ordered a Court of Inquiry to examine the charges made against him by Gen. Worth. when in fact Gen. Worth made no charges at all. Gen. Worth makes no charges, and adds no specifications; all he does is to make an appeal from Gen. Scott's decision, to the President. This the Administration TORTURE into charges, and order the Court to inquire into them when there was absolutely no charges at all.

The whole conduct of this Administration toward Gen. Scott will, I trust, yet be exposed. It will then appear that

They knew that Gen. Scott could save a large outlay of money and loss of American blood is promptly sent to conduct operations to a glorious close, but this was of no consequence compared to the low intrigues for the success of party. And Locofocoism

the waving signal of victory wherever it of our history, for the joy and pride of all health is the certain result of their united porafluttered, is now caged and picked at by future generations. I speak not as a partizan, but us an American. Though Gen. Scott should never be a candidate s tion and profligacy! It will then appear that from the first movement, when the country was unnecessarily and unconstitutionally plunged into a war with Mexico, the infamous designers of this work of unnecessary butchery basely trafficked with the blood of both nations, and played with heaps of slaughtered American citizens as the means of party profit. No sconer, had this war booke out than Gen. Scott was ordered to hold himself in readiness to take the field.

SCOTT and the COURT of INQUIRY.

Washington, April 9, 1848.

You have doubtless, ere this, read the proceedings of the Court of Inquiry, held in the acity of Mexico, as far as heard from. There is not an American heart that does not burn with indignation at the mean and cowardly course pursued by the administration towards Gen. Scott.

And Locofoccism with its infamous attempts to disgrace and superseed Scott and Taylor, and with its more infamous act of sending Santa Anna to lead our enemy against us, has wantonly, wickedly and unnecessarily she debod enough to madden into criminal treason the black and base designs which instigated the persecution of the gallant Whigs who have fought this war to a successful close.

But there is a better day coming—The American people are just, and they will sustain Gen. Scott in the despicable by the administration towards Gen. Scott.

The every change that is taking place in the body, it is manifest that it is brought about by something having a substantive-existence. If we suppose the organs of our body originally perfect, they must continue perfect unless changed by the intervention of something that bears an unbealthy relation to it. In all cases of disease, there must be the interposition of some new ingredient which by playing its part as a cause, served to modify the properties before connected with the body. It is abourd to talk of spontaneous disease taking place in organs previously healthy, without the interposition of some morbific agent; as well might we expect a piece of chalk to transferited! spontaneously into Plaster of Paris, without the aid of Sulphuric Acid. In all disease there is a prior cause which must be romoved, thro' the agency of the Blood. For this purpose there is no remedy superior to the Panacca. In evidence the following is submitted to the public:

Messrs. Wyntt & Ketcham—Gentlemen, understanding that you are the general agents for the sale of Dr. Upham, s Vegetacle Electuary, for the cure of Piles, I have decuned it my duly to volunteer a recommendation in behalf of that invaluable medicine. I have been afflicted for many years with Piles, and have tried various remedies, but with no beneficial effects—indeed. I began to consider my case unterly hopeless. But about the first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took his advice and rejoice to say that I am not only relieved, but, as I believe, perfectly cured. I most earnostly recommend it to all who may have the misfortune to be affleted with that annoying and daugerous disease.

Very respectfully, your obedient servant.

Messrs. Wyatt & Ketcham—Gents: For thirty years I have been afflicted with Piles, general debility and inflammation, causing tumors and prolapsus of the bowels, and which had resisted all the medical treatment Dr. Chapman and others could give. The last three years of that time my sufferings dely description. I was confined to bed, mable to help myself, and at last given up by my physician and friends in despair of ever gaining health: in fact for three days before I commenced—using -Dr. "Upham's Electuary," was entirely speechless and my burial clothes were inade. But under Providence, and the use of Dr. Upham's Electuary, though an old Max, I have flee pleasure of stating the fact to the public that my health is now good, and hope to live many years, if it is God's will, to make known the virtues of Dr. Upham's Electuary, and to recommend—it to my afflicted fellow creatures. It helped me beyond the expectations of all that knew my case, and I can only say to others that it is, in my repinion, the best medicine in the world for Files, or any other disease of the bowels; and if they will use it according to the directions, I will myself warrant a cure in every case. Yours, with the utmost expression of thankfulness,

CORNELIUS SPUR.
