

Return of Gen. Scott.

The New Orleans papers of the last dates state that Gen. Scott was to leave Mexico as soon as the Court of Inquiry had closed its sittings, which it was expected would be in a few days.

Another Battle in New Mexico—Our Troops Victorious—Yesterday's North American says, by telegraph from St. Louis to the Pittsburg papers, we have confirmatory accounts of the battle fought at Rosalia, sixty miles from Chihuahua.

A great demonstration of sympathy for France and the spread of republicanism through Europe, was made by a public meeting in Philadelphia, on Monday last, in the State House yard.

Mr. Walker, the Secretary of the Treasury, although but about five feet high and four feet wide in his physical dimensions, is, according to the Ledger's Washington correspondent, a wonderful man, mentally and morally considered.

Militia Trainings.—A letter from the Brigade Inspector of the 1st Brigade, 1st Division, states that he is informed by Auditor General Parvance that the bill abolishing militia trainings, after passing the Senate, was lost in the House.

The Loofofos papers, particularly those in this town, have a great deal to say, in their daily vindictive and bitter spirit, about Mr. Clay's recent letter, but they don't hear anything in these same papers about the very big hero who is coming out of the very smallest end of the very smallest kind of a horn, down in Mexico—Gen. Gideon J. Pillow!

The N. Y. Courier and Enquirer publishes a letter from Cassius M. Clay to the Hon. Henry Clay, called out by the communication of the latter on the subject of the Presidency.

The Loofofos of Baltimore have appointed John Kettlevell one of their delegates to the Baltimore Convention. He is said to be favorable to the renomination of Polk. Resolutions declaring a preference for Gen. Cass were voted down by the meeting.

Mr. Wm. Knight died in Philadelphia on Friday night last of hydrophobia, having been bitten some time before by a rabid dog. His death is represented as having been most heart-rending, the patient having displayed every symptom of madness.

The Reading Journal states that by a provision in the appropriation bill, passed on the last day of the Session, the Common School Law has been made general, and the directors in the non-complying districts will be required to open schools as soon as possible.

A Great Scott Meeting was held in Huntington, Pa., a few days ago. Scott's stock is looking up fast. The meeting was a resolution declaring Taylor fit to be chosen rather than Clay.

A change in Mexico are unfavorable to the re-nomination of the treaty.

Clay and Scott.

When we last week approved the suggestion made by Hon. John M. Boies, to nominate General Scott for Vice President, with Mr. Clay as President, it was in the view that the friends of Mr. Clay would have the predominance in the National Convention.

From Washington.—The Senate has been occupied during the past week principally in the discussion of the Bill authorizing a special sitting of the Supreme Court of the U. States, and which had been defeated in the Senate.

The House of Representatives, in the case of the Contested Election from the 6th Congressional District of New York, have declared the seat vacant and referred the matter back to the people of the district.

In the House of Representatives, on Monday, Mr. Clingman, of North Carolina, offered a resolution calling for all the correspondence between Gen. Scott and the War Department, which was adopted.

In the House, on the same day, Mr. Boies moved to suspend the Rules to enable him to offer a Resolution inquiring of the President upon what grounds Gen. Scott had been suspended from the command of the army in Mexico, and why the President had refused Gen. Scott's demand for a court martial to try certain charges against Gen. Scott.

Slavery Excitement in Washington.—A great excitement has existed in the city of Washington during the last week, occasioned by the attempted kidnapping of about fifty slaves belonging to citizens of Washington and Georgetown.

THEY UNDER ARREST.—We learn from the N. O. Picayune that Mr. Freaner, the bearer of the treaty, took out orders to Gen. Butler, which have led to the arrest of Mr. Triest.

POLK'S NEAR NEIGHBOR.—The question so often asked during the campaign of 1844, "Who is Polk's near neighbor?" is at length satisfactorily answered.

POLK AND PILLOW VERSUS SCOTT.—A correspondent of the N. O. Bulletin in a letter dated Mexico, March 23d, says:—The Court Martial at present pending here, adds nothing to the renown of our arms in this country.

FORGOTTEN.—The Washington correspondent of the Baltimore Patriot writes as follows, under date of 15th inst.

NEW CANDIDATES.—Some are for running Citizens and About Lawrence, while others are for running Scott and Mangum. Some hold on for Clay, and others for Taylor.

The Court of Inquiry.

The New Orleans papers still continue to bring detailed reports of the testimony before the Court of Inquiry, in Mexico, but they are so voluminous for our limits, in our last we gave a brief sketch of Messrs. Freaner and Triest's overwhelming testimony, proving clearly Gen. Pillow's knowledge and connection with the Leonidas letter, and including his base intrigues against General Scott.

Since then we have the evidence of Major Burns, who acknowledged himself the author of the letter, and who states that he wrote it from a rough report which he found lying on the table in Pillow's private office. On the eighth day Gen. Scott, the prosecutor, cross-examined Major Burns at length, with the view to impugn and impeach the testimony of that witness.

REPORT OF COMMITTEE.—We find in the last Shippensburg News, the following resolutions, as having been passed by the Presbytery of Carlisle, (Old School) at their sessions held in Petersburg, Adams county, on the 12th inst.

Resolved, 1st, That the only ground of total abstinence from intoxicating drinks as a beverage, which the word of God requires, is that of Christian expediency, which consists in Christians denying themselves lawful indulgences, for the spiritual well being of men.

Resolved, 2d, That to place our opposition to intemperance on the ground that it is itself immoral to drink anything that can intoxicate, is by implication to assail the character of God our Saviour, who made wine as a part of the sacrament of the Eucharist, and who made it a part of the supper as a memorial of his blood.

Resolved, 3d, That to place our opposition to intemperance on the ground that it is itself immoral to drink anything that can intoxicate, is by implication to assail the character of God our Saviour, who made wine as a part of the sacrament of the Eucharist, and who made it a part of the supper as a memorial of his blood.

Matters About Home.

FRUIT AND FRUIT.—The season opened with a most cheering promise of fruit, but we fear the disastrous effects of the snow and succeeding frosts of last week, will disappoint us to a very great extent, the expectations founded on the blossoming of Spring. It is to be hoped the injury done will not prove so great as is now anticipated.

Too Bad!—The good people of N. Hanover street, were drawn to their doors on Saturday night last, at quite an early hour, by such a hideous noise in the street, as if the floods from Heaven had fell.

RESOLUTIONS OF PRESBYTERY.—We find in the last Shippensburg News, the following resolutions, as having been passed by the Presbytery of Carlisle, (Old School) at their sessions held in Petersburg, Adams county, on the 12th inst.

Foreign News.

IMPORTANT FROM EUROPE!—REPUBLICANISM SPREADING!—The packet ship Duchess D'Orians arrived at New York on Thursday, bringing three days later intelligence from Europe, and of a highly interesting character.

The French Republic was progressing finely. There were no disturbances, and the people were looking forward to the elections of members of the National Assembly, with confidence. A Republic has been declared in Prussia. The King and his Ministers are in Prison, and the Revolution in Lombardy has been entirely successful.

LATER AND MORE IMPORTANT.—The steamer Sarah Sands, bringing eight days later intelligence from Europe, arrived at New York on Friday last.

The Washington Union puts the French Revolution on the back, and even approves its leaders, with a proviso which is not exactly the Wilnot. Hear!

The one movement is the liberation of the slaves in the French Colonies. Alas for European prejudices!

EARLY CORN PLANTING.—Some of the farmers in the lower part of Chester county, planted their corn in the early part of last week. This is something sooner than usual in this neighborhood.
