#### THE DYING CHILD.

"Riere is a world above,

A long eternity of love, Formed for the good alone!" With grief oppress'd, a mother stands beside. sufferer's bed; Her pale and sunken theeks forstell that hope had nearly fled : Yet do no not call her wretched—for in accents low

and clear, words as these fall gently of ner cars...

"Pil not be with you long, mother-I soon mest say good-bye; But, mother, we shall meet again In God's bright home on high. Oh, mother, don't you know you said

Sweet hrother's living there—
And that heds an angel now,
So be author and fair!

"He will know me, when I come, mother, He will take me by the hand ; And we'll always be together there, In yonder peaceful land; And, mother, I shall wear bright wings—

I'll be an angel too t And then before God's golden thro I'll kneel and pray for you.

"I like to feel your hand, mother, So soft upon my brow; Lalways loved its gentle touch . Tis dearer to me now Oh. mother, do not weep for me-

Your lip is trembling, and I see

I'm not afraid to die;

The tears are in your eye. "Lean closer down-your ear, mo My voice is growing weak;

You are weeping yet—I felt a tear Just fall upon'my cheeks My eyes grow dim—and, oh! I hear Sweet music from the sky; It is for me—I'm going now—:
Mother—good-bye—good-bye!"

And like the last soft beam of light, that fades a close of day, That gentle spirit took its flight, and passed from earth away; But now in shining vesture clad, with radiant face

he stands, Diending his songs of love and praise with brightrobed angel bands,

PARTICULAR PROVIDENCES .- The doc trine of particular Providence, is a doctrine fraught with the greatest consolation of mankind, who are born to sorrow.-Not only is it, that nothing can happen but what God enjoins. The notion of God should not be, that he has lit up the sun, and given the winds power to roam through the world, but rather that his glance is in every beam, and his breath in every broeze. The idea should not be entertained, that after having given life to men, God concerns himself no more with his creatures; but rather that through his special interference is it that breath follows breath; pulse succeeds pulse; so that in every trouble and in every joy-in every hope which rises to cheer, and in every doubt which darkens, the hand of God may be discerned producing out of a thousand seeming ills, and thou sand apparent discrepancies, not only but an individual good.... genera

And how much of consolation is there to a heart, when deeply stricken with sorrow, to be able to feel that all afflictions are sent for a wise purpose, and that there is a bright kingdom hereafter, where pain shall have no entrance!

DEATH.—Death is a mystery. We know that we shall ere long close our eyes on all sublunary objects, but the time and manner of our death cannot foresee. Here one falls in his full strength, while another has been languishing for years. The aged are passed by, and the turf is upheaved for the young and the beautiful. Our neighbor falleth by our side, just as we learned to apreciate his worth. A friend sinks in our arms, as we take him to our bosom. Yet these instances of mortality fail to leave suitable impressions on our mind. time and manner of our death canno

Dr. Keeler's Panacea

OR the removal and permanent cure of all diseases arising from an mapure state of the Blood and habit of the body, vix. Chronic diseases of the Chrost, Pleurisy, Bronchitts, Oatarth, etc. Scroula in all, its forms, Tetter, Scaldhead, Cutaneous affections of the face and extremities, chronic Rheumatism, and Hepatetis, chronic Enlargements of the Joints, White Swellings, Syphilitic, Affections, Constitutional disorders, arising from debility, Mercurisl and Hereditary predispositions, &c. 20-In every change that is taking place in the body, it is manifest, that it is brought about by something having a substantive existence. If we suppose the organs of our body originally perfect, they must continue perfect unless changed by the interpention of some how ingredient which by playing its part as a cause, served to modily the properties before connected with the body. It is about to talk of spontaneous disease taking place in organs previously healthy, without the interposition of some morbific agent; as well might we expect a piece of chelk to transfer itself spontaneously into Plaster of Paris, without the aid of Sulphuric Acid. In all disease there is a prior cause which must be removed, thro' the agency of the Blood. For this purpose there is no remedy superior to the Panacoa. In evidence the following is submitted to the public:

Philadelphia, June V, 1847.

the following is submitted to the public:

Philadelphia, June V. 1847.

Having been apprised of the nature of the Panacea, it affords me much pleasure to be able to recommend it as a valuable remody for all those chronic, constitutional and glandular discases, to which it is especially adapted. To those who are afflicted, and require medicine as an alterative, they cannot obtain it in a more agreable, active and uniform state than is to be found in the Panacea. I have used it in soveral instances with decided and signal success. Yours, &c.

#### Brandreth's Pills.

NO CHANGES in the Weather will mate rially affect the body if the blood is pure.—
Every individual, even the most diseased, has within him a germ or root of that original pure blood of our common mother Eve; which germ of pure blood is the supporter of his life, germ of pure blood is the supporter of his life, and is in constant struggle to throw off the hyterogeneous, corrupt humors, which are the causes of disease in the individual. By purging the body of this diseased individual of its had humors, you allow the germ of pure blood to gain ground and to make blood of a better quality, and so on progressively till the whole-mass is regenerated; for the good principle, or good pure blood, is always striving to be predominant over the bad or diseased humors. Let all who wish to be of a fine healthy habit; who wish to have a sound mind in a sound who wish to have a sound mind in a sound who wish to have a sound mind in a sound body; who desire to be able to stand without injury the continual changes of this climate; who desire to have healthy children, use tha Brandreth Pills, which will effectually cleanse the blood of all bad or corrupt humors, and restore the human body to the state of health enjoyed before the introduction of mineral medicines. Remember Brandreth's Pills place within the reach of all health and long life.

TRUST TO BRANDRETH'S PILLS, take them so as to produce a brisk effect, and your cickness will be the afinir of a day or two, while these who are too wise to follow this common sense advice, will be sick for months. Let the sick enquire of the agents for Brandreth's Pills whether these things are so or not. Let them enquire among their friends and ask the same question. Verily if EVIDENCE is wanted it shall be procured. To the sick let me say, use the BRANDREH PILLS. Man will be born to days of bliss, compared to what has hitherto been his lot,

weighed down as he has been by discase, in-firmities and suffering, which re earthly pow-er knew how to allowate, until this discovery was presented to the world. The weak, the feable, the infirm, the nervous, the delicate, are in a few days strengthened by their operations. ration, and the worst complaints are removed by perseverance without the expense of a physician. Adapted to all circumstances and situations, they are the best medicines aver invented for families, or to take to sea, preventing secury and costiveness, requiring no chang diet, particular regimen, or care against taking cold.

Messrs. Wyatt & Ketcham—Gentlemen, understanding that you are the general agents for the sale of Dr. Upham,s Vegetacle Electuary, for the cure of Piles, I have deemed it my duty to volunteer a recommendation in behalf of that invaluable medicine. I have been efflicted for many years with Piles, and have tried various remedies, but with no beneficial effects—indeed. I began to consider my case utterly hopeless. But about this first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took his advice and rejoice to say that I am not only relieved, but, as I believe, perfectly cured. I most earnestly recommend it to all who may have the misfortune to be affleted with that annoying and dangerous disease.

Very respectfully, your obedient servant,

ELY MOORE.
