#### MOVEMENTS OF GEN. SCOTT.

The N. Y. Courier and Inquirer gives the following interesting summary of the outgush of feeling in favor of Gen. Scott

Gen. Scorr's reception on Monday at Elizabethtown, was worthy of his friends, neighbors, and countrymen, who had as sembled to do him honor. Thousands poured in from the surrounding country in every direction. A stage was erected in front of the Court-house, decorated with flags, &c. and at 8 o'clock the pro cession was formed

After defiling through a portion of the town, the procession passed in front of the General's residence, where were already met a deputation from N. York. Ald. Crolius made a brief and happy address to the General, setting forth the earnest desire of the people of New York that he should visit that city to receive their thanks for his brilliant services .-General Sandford followed in behalf of the military.

Gen. Scott replied with much feeling, He was deeply touched, he said, at such manifestations of kindness, and however strong his predetermination, however settled his own wishes, he felt constrained to yield to his countrymen, and to put himself, as he did frankly, in the hands of his fellow-citizens of New York.

His remarks were received with very loud and hearty cheers. The procession then proceeded to the

platform, where General Scott was addressed by Major Chetwood, in some brief, animated and happy remarks. Gen. Scott replied with much emotion. He said it was more than thirty

years since he first took up his residence in this borough—that he never left it without regret, nor returned to it without pleasure. It was his home, and when abroad, on public duty, it was the home of his better half, his wife and children Returning now from a scene of distant

service, after enduring sufferings by sea-and land, he was deeply touched with the hearty welcome here given to him. It was the more touching in coming from neighbors, friends and countrymen. He was poor in all but themselves. He

SCROFULOUS flumors, SKIN DISEASES, POISONOUS WOUNDS, to discharge their put trid matters, and then heals them.

It is rightly termed All-healing, for there is scarcely a disease, external or internal, that i-will not benefit. I have used it for the last tour-teen years for all diseases of the chest, consumption and liver, involving-the-utmost danger and man, that not one single case has it alled to benefit when the patient was within the reach of mortal-menus.

I have had physicians learned in the profession. I have had ministers of the Gospel, Judgés of the bench, Aldermen, Lawyers, gentlemen of the highest crudition, and multitudes of the poor use it in every variety of way and there has been but one voice—one universal voice—asjing, "Morallister, your Ointment is GOOD." He credited that a salve can have any effect upon the lungs scated as they are within the system. If we suppose the organs of our body originally perfect, they must continue perfect unless changed by the intervention of something that bears an unhealthy relation to it. In all cases of disease, there must be the interposition of some new ingredient which by playing its part as a cause, served to modify the properties before connected with the body. It is about to talk of spontaneous disease taking place in organs previously healthy, without the interposition of some morbific agent; as well might we expect a piece of chalk to transfer itself spontaneously into Plaster of Paris, without the aid of Sulphuria Acid. In all disease there is a prior cause, which must be removed, thro' the agency of the Blood: For this purpose there is no romedy superior to the Panacea. In evidence the following is submitted to the public:

Having been apprised of the nature of the Panacea, it affords me much pleasure, to be able to recommend it as a valuable remedy for all those chronic, constitutional and glandalar diseases, to which it is especially adapted. To those who are affilicted, and require medicine as an alterative, they cannot obtain it in a more agreable, active and uniform state than is to be found in the Panacea. I have used it in several instances with decided and signal success. Yours, &c.

Mosars. Wyatt & Ketcham—Gentlemen, understanding that you are the general agents for the sale of Dr. Upham,s Vegetacle Electuary, for the cure of Piles, I have deemed it my duty to volunteer a recommendation in behalf of that invaluable medicine. I have been afflicted for many years with Piles, and have tried various remedies, but with no beneficial effects—indeed. I began to consider my case utterly hopeless. But about the first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took bis advice and rejoice to say that I am not only relieved, but, as I believe, perfectly cured. I most earnestly recommend it to all who may have the misfortune to be afflicted with that annoying and dangerous disease.

Very respectially, your obedient servant, ELY MOORE.

Messrs. Wyatt & Ketcham—Gents: For thirty years I have been afflicted with Piles, general debility and inflammation, causing tumors and brolapsus of the bowels, and which had resisted all the inedical treatment Dr. Chopman and others could give. The last three years of that time my sufferings defy description. I was confined to bed, unable to help myself, and at last given up by my physician and triends in despair of ever gaining health: in fact for three days before I commenced using Dr. Upham's Electuary, I was entirely speechless and my burial clothes were made. But under Providence, and the use of Dr. Upham's Electuary, though an Old MAN, I have the pleasure of stating the fact to the public that my health is now good, and hope to live many years, if it is God's will, to make known the virtues of Dr. Upham's Electuary, and to recommend it to my afflicted fellow-creatures. It helped me beyond the expectations of all that knew my case, and I can only say to others that it is Jim mytopinion, the best medicines in the world-for Piles, or any other disease of the bowels; and if they will use it according to the directions, I will myself warrant a cure in every case. Yours, with the utmost expression of mankfulness, CORNELIUS SPUR.

The above certificate tells a simple and truthful story of suffering and relic, of which, as physician and witness in the case, I cheerfully endorse.

Nervous Dieeases.

I UNT'S LINIMENT is sustaining a notoricy unequalled by any similar remedy. It requires no puffing to give it a reputation, it has been for some time silently and surely securing it, and now, when its beenficial effects have been experienced by so many, the expressions of gratifude are continually appearing, and those who have been made whole by its means are desirous that the afflicted should no longer, remain ignorant of its invaluable and infallible efficacy.

Mr. Geo. E. Stanton, the Proprietor, is constantly receiving testimonials of benefits received from its use, and many of the cures it has effected almost exceed belief. In one case a child had been a cripple for eight years, having wrenched the spine, when at the age of two years, by a fall from a chair. Medical treatment shied, but four bottles of the Liniment restored him to strength, and he now joins with his playmates in their youthful gambols, as robust as the healthiest of litem, and only a small hump on his back to remaind him of his early sufferings. Price 25 cents per bottle.
