# Ratification Meeting at Philadelphia

THE RESOLUTIONS.

Hon. Wn. F. Jonnson of Pan presided over the great meeting in Independence square on Friday night, to respond to and ratify the nomination of the Whig National Convention. Gov. Morehead of N. C., Gen. Leslie Combs of Ky., Gen. Barrow of Tenn., Gen., Irsin of Pa., John H. Fowler and Mr. Van Wagher of N. Y., and a great many others made ratifying speeches. The following Resolutions, reported by W. S. Price, Esq., of Pa., were unananously adopted:

The BRANDETTIS PRESENTED the absolute prochased. ed from a consistent and truth speaking man-that his heart was with us at the crisis of our politicial destiny, when HENRY CLYY was our candidate, and when not only Whig principles were well defined and clearly asserted, but Whig measures depended on success .-The heart that was with us then is with us now, and we have a soldier's word of honor, and a life of public and private virtue, as the security.

4. Resolved, That we look to General Taylor's administration of the Government as one condificive of Peace, Prosperity and Union. Of Peace-because no one better knews, or has greater reason to deplore, what he has seen sadly on the field of victory, the horrors of war, and especially of a foreign and aggressive war. Or Prosperity-now more than ever needed to relieve the nation from a burden of debt, and restore industryagricultural, manufacturing and commercial-to its accustomed and peaceful functions and influences. Or Unton-because we have a candidate whose very position as a South-Western man, rehred n the banks of that great stream whose ributaries, natural and artificial, embrace he whole Union, renders the protection if the interests of the whole country his irst trust, and whose varied duties in nst life have been rendered, not on the oil, or under the flag of any State or section, but over the wide frontier, and under the banner of the Nation.

Resolved, That as Whigs and Americans, we are proud to acknowledge our gratifude for the great military servi-

they must continue perfect unless changed by the

intervention of sortiething that bears an unheal thy relation to it. In all cases of disease, there must be the interposition of some new ingredient which by playing its part as a cause served to modify the properties before connected with the body. It is absurd to talk of spontaneous disease taking place in organs previously healthy, without the interposition of some morbific agent; as well might we expect a piece of chalk to transfer, itself spontaneously mito Plaster of Paris, without the sid of Sulphuric Acid. In all disease there is a prior cause which must be removed, thro' the agency of the Blood. For this purpose, there is no remody superior to the Panacea. In evidence the following is submitted to the public:

Philadelphia, June 7, 1847.

Having been apprised of the nature of the Panacea, it affords me much pleasure to be able to recommend it as a valuable remedy for all those chromic, constitutional and glandular diseases, to which it is especially adapted. To those who are afflicted, and require medicine as an alterative, they cannot obtain it in a more agreable, active and uniform state than is to be found in the Panacea. I have used it in several histances with decided and signal success. Yours, &c.

SAMPTOMS OF THE LIGHAGE.—A common consequence of this affection is a kind of tenesimus, or bearing down sensation, as it is familiarly called; there is also a hoat; tension and throbbing in the part, varying from a moderate degree of these sensations to the most excrutiating suffering;

ed; there is also a hoat; tension and throbbing in the part, varying from a moderate degree of these sensations to the most excrutating suffering;—these sensations to the most excrutating suffering;—these hard caused by the great flow of blood to the parts. Sometimes the inner coat of the bowel protudes at every exacuation, forming what is called Prolapsus, or falling of the bowels; this is the effect of long continued irritation—and weakness of that organ. In some instances the patient experiences nervous pains, which are indescribable, and known only to the sufferer; which commence immediately after an evacuation, and continue from thirty minutes to saveral hours; these sensations are very annoying and sometimes very distgessing. This disease, when of long continuance, is attended by pain and weakness in the back, irritation of the kidneys and bladder, and other organs in the vicinity, pain rend numbness in the legs and feet, a sense of strattness about the chest, and unnatural fulness of the abdominal viscera, accompanied with palpitation of the heart and oppression. Individuals sometimes experience, previous to an antact of the Piles, symptoms denoting great derangement in the circulation; there is a sense of weight and pressure in the abdomen, with a peculiar feeling of uneasiness in the bowels, constipation or permeum, attended with pain in the back and loins, nauseu, and slight pains in the stomach, pale counternance, confused scuntions in the head, weariness, and intimitable and discontented state of the mind, and a sense of fulness and oppression in the region of the stomach. The circulation on the surface is feelile, and the current of blood determined inward and downwards.

For all of the above disenses and complaints, Dr. Urhan's Vegetable Electivary cures effectually, and therefore pravents Piles.

Messrs. Wyatt & Ketcham—Gentlemen, understanding that, you are the general agents for the sale of Dr. Upham, s. Vegetacle Electuary, for the cure of Piles, I have decemed it my duty to volunteer a recommendation in behalf of that invaluable medicine. I have been afflicted for many years with Piles, and have tried various remedies, but with no beneficial effects—indeed, I began to consider my case utterly hopeless. But about the first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took his advice and tejuicato say that I am not colly followed, but, as I believe, betterly cured. I most earnestly recommend at to all who may have the misloriume to be affected with that annaying and dangerous disease.

Very respectfully, your obedient servant.
