#### From the Evening Journal. TAYLOR OR CASS?

The Polk Administration is "drawing its slow length" to a close. And an effort is making on the part of the few who have profitted, at the expense of the many, by that Administration, to perpetuate ple of his life, and also that which will ultidescent. Cass as the successor of Polk, would keep things virtually as they are. The former has abetted the latter in all that is pernicious in the ruling Dynasty. Cass, who, like a desperate gambler, plays for the Presidency upon the coffin of the Republic, went for the annexation of Texas because Mr. Van Buren went ngainst it. We took Texas with her Debt, her Slavery and her War. Texas gave a preponderence in favor of Slavery nch of the Government. Cass, to obtain his nomination, pledged himself to Veto any and all measures designed to limit the further extension of Slavery. He stands committed, also, to other schemes of Annexation which are to involve us in other Wars.

It was alleged as a pretext for the War with Mexico, that she owed us money. The emptiness of this pretext is shown by the fact, that in the negotiations for Peace, that question was wholly lost sight of. It became, what in truth it was from the beginning, the merest bagatelle. The interests of Slavery, as Tyler, Upham and Calhoun avowed, demanded the Annexation of Texas. The War was a foreseen and predicted consequence. We know, in part, what the War has cost, in blood and treasure. And we shall know, in time, what i costs in the debasement of the public sentiment, the corruption of public men and the weakening and undermining o the Government and its Institutions. Enough at all events, is known, if the People will profit by dearly bought know ledge, to show us that four years of misgovernment have brought gray hairs upon the head, if not paralysis into the heart, of this young Republic. Enough is known to show that the election of Cass, and another War, would work out most disastrously, the experiment of Fre-Government upon this Continent. Slavery, to be sure, in the annexation of Cuba and Yucatan, might achieve fresh conquests, but it would be at the expense of our Republican form of Govern-

Let us then before plunging into fresh troubles, give the Republic time to breathe. The Nation is impoverished and exhausted. Tyler's reign of venality succeeded by Polk's reign of War, renders a return to good and wholsome Government indispensible to the common

welfare. Gov. Cass, in his speech at land, said,-"Our triumph will be an approval of the course of the present Administration, and will give direction to the one which shall succeed." Is this what the American People desire? Do have been given up by physicians as hope-fley "approve" of the Polk Administration? Was the Mexican War necessary? Was it wise to "pass" Santa Anna into Mexico? Is it just or wise to pay Fifteen Millions for Mexican Territory which had been conquered at an expense of an Hundred Millions? And while thus wasting millions in War, is it right to Veto Appropriations for the Improve ment of River Navigation and the construction of Lake Harbors? If the People really "approve" of all these things let them say so, by electing Cass, who pledges himself "to follow in the footsteps

On the other hand, if the People are weary of misrule; if they have had enough of Amnexation and War; if they want the Resources and Commerce of the West developed and protected, they will elect ZACHARY TAYLOR, whose life of honesty and patriotism go bail for the justice and fidelity of his Administration.

We challenge the world to produce a medition better daspted to the expulsion of worms from the Cleaveland Herald a manly letter from the Hon. William L. Permins, the delegate from the Cuyahogo, Geanga, Ashtabula, and Lake district, in the late National Convention which nontimated General Taylor. The cogent arguments and sound policy which characterizes it, give us assurance that the Western Reserve will, as heretofore, be true

We challenge the world to produce a medition better daspted to the expulsion of worms from the chuman body than Shepherd's Virmifuges, as ithere as the second by thousanks with entire satisfaction. It has the advantage of most other Virmifuges, as ithere site of such that had been given up-by physician, parents and friends. It should always be used as a purgative of children, as itstrengthens them, and at the same time carries off the coarser particles of food, and worms, if they are troubled with them.

The following certificate has been handed to us by Ju 1ge Koons, of Luzerne county, Pality by Juge Koons, of Luzerne cou to the Whig banner, although it is not car-

ried by their favorite standard bearer.—

Mr. Perrins concludes his letter thus:
Gentlemen, I will relieve you by closing with two reasons why General Taylor with the secause we can elect him, and by that secause we can elect him, and by that secause we can elect him, and because with a hearty support of Gentlement with a hearty support of Gentlement and hearty support of Gentlement will be structive evils which must inevitably follow the elevation of General Cass; and because with a hearty support of Gentlement will be structive evils which must inevitably follow the elevation of General Cass; and because with a hearty support of Gentlement will be structive evils which must inevitably follow the elevation of General Cass; and therefore order as above. This is decided only the best article for destroying worms that hearty support of Gentlement will be standard to the country. I have tried Orrick's, Reaker's, Merrick's and Miller's, but without any good effect.

2. Because with General Taylor we can elect a free soil House of Representation of Cumbealand county, Pa, and by Dr. within the government will be administered with courage, patrotism and purity. It will be what the constitution intended it to be—a government will be repople, and the one man power which has solong tyrannized over the people, like a frightened ghost before the coming morning, will steal away from the White House at the approach of the of the people, and the one man power the which has so long tyrannized over the people like a frightened ghost before the coming norming, will steal away from the White House at the approach of the the White House at the approach of the Lange, coughs, colds, &c., received and for hero of Buena Vista.

Have a principle in them similar, or which accords with, and truly streagthens the purifying principle of the blood. Read and understand.

THE principle of Life, that subtle and invisible principle which animates the human frame and whose seat is in the blood, is one of the most impenetrable secrets of the Creator. We cannot comprohen his principle, but we know that it is in the blood, for if wo decrease the principle of life; and that, it we draw all the blood from the body, that life ceases. So we must believe what the Scriptures say on this subject, no one can doubt it. The life of the flesh is emphatically in the blood. There can be no mistake on the subject; so we must then be also convinced that any thing which impedes the circulation of the blood must depress or bear down the principle of Life, and make the body subject to receive injury from the principle of corruptibility also implanted in the human frame. We cannot create the principle of corruptibility also implanted in the human frame. receive injury from the principle of corruptibi-lity also implanted in the human frame. We cannot deny it. There is in every created being a principle of corruptibility as well as a principle of animation. It is when this cor-ruptibility becomes too pewerful for the Life Principle or blood, that disease commences,—

It is not because it does exist, but because it becomes active; in some it has taken a hundred years to develope itself; in some it has become paramount before birth, and the child is still, born. The constitution of the child depends misrule through a kindred, if not a lineal mately destroy him, and when of age he transmits them to his children.

The principle of corruption is subject to the

Now, to accomplish this, we must prevent an accumu-lation of those humors which beardown the accomplish this, we must prevent an accumulation of those humors which beardown the principle, of life. Do not wait for an attack of cickness, but on the first appearance of the commy assist nature in her operations to expel him from the body. This is the object always attained by those who use Brandreth's Pills. Thousands who liave, kept their beds for years have been restored by the use of this medicine. They are as harmless as a piece of bread, yet all powerful for the removal of disease whether chronic or recent infections, or otherwiss. By the use of Brandreth's Pills, the blood is gradually purified, and becsmes too strong for all impediments to its free course, and thus the blood is restored to perfect health and usefulness. The idea of two spirits, the one good and the other evil, having power over, man, is thus given a corporeal application, and, what is better, we know how to assist the good principle, the blood, to conquet the bad humors, and thus produce health and accuments and expels them from the system. Rahways Medicated Soap.

Rahways Medicated Soap.

C Great Excitement in Pittseure!—Our agent of this place writes of a mysterious incident which occurred in that place, in relation to an excellent young lady, but who unfortunately fossessed a very repulsive complexion. Her face was covered with pimples, blotches, pustules,—her skin dark and yellow, cracked and chapped—her lips in cold weather would become sore and bleed. She had, however, several good traits, one of which was to read the newspapers. One morning as she was looking over the columns of the Dispatch, she saw in large letters the words Ranway's Chinese Medicated Soar! As a sure exterminator of all skin blemishes, with a direction for all ladies to read the papers! Now mark the advantage. On Sanday morning—she took-her place, as usual, among the choristers, and to the utter surprise of her fellow-songsters, presented a complexion as fair as a lily, and beautiful as the most admired belie of the town.—Strange wondering and much excitement was exhibited by the busy crowd, and nothing short of an explanation of how this sudden transformation from ugliness to beauty was attained, would answer. The lady, like all her eex, full of genteness and kindness, explained the cause, and to the great, grand and beneficial effects of Radway's Medicated Chinese Soap, which she had been using for two weeks, was awarded the full approbation of the people, as the "restorer of lost beauty." Our agent concludes thus—"Since the above has become known, I have had perfect rush for Rahway's Soap."

3can every change that is taking place in the body, it is manifest that it is brought about by something having a substantive existence. If we suppose the organs of our body originally perfect, they must continue perfect unless changed by the intervention of something that bears an unhealthy relation to it. In all cases of disease, there must be the interposition of some new ingredient which by playing its part as a cause, served to modify the properties before connected with the body. It is absurd to talk of spontaneous disease taking place in organs previously healthy, without the interposition of some morbific agent; as well might we expect a piece of chalk to transferitself spontaneously into Plaster of Paris, without the aid of Sulphuric Acid. In all disease there is a prior cause which must be removed, throthe agency of the Blood. For this purpose there is no remedy superior to the Panacea. In evidence the following is submitted to the public:

used with wonderful success in the cure of some of the most troublesome diseases with which the horse is affected, (without destroying which the horse is affected, (without destroying the hair) such as old strains, swellings, stiffness of joints, galls produced by the collar and saddle, strains of the shoulders, stifle, hoof, pastern and coffin joints, strains of the whirlbone, knee, and—fotlock, poll evil, fistules, curbs, splints, spayin, windgalls, poffs, &c. It very soon cures old or fresh wounds, cuts, bruises, fistules, poll evil, curbs, etc., and gives instant relief in the scratches, grease, etc., and the diseases incident to horses having white feet and noses produced by St. John' which so often destroys the hoofs and bones of the feet, and resists the action of sulphur and vitriol cintments, and other remedies equally

powerful.

No application has heretofore proved so useful in relaving stiffness of the tendons and joints, and producing such immediate and heneficial effects in cracked heels, brought on by high feeding, splints and sprains.

This Embrocriton is highly recommended to farriers, keepers of livery stables, wagoners, stage proprietors, and private gentlemen owning horses; as an invaluable remedy, and should be constantly kept in their stables.

Also farmers, whose horses are so liable to kicks, cuts and wounds, will find it equally powerful.

SYMPTOMS OF THE DISEASE.—A common consequence of this affection is a kind of tenesmus or bearing down sensation, as it is familiarly called; there is also a beat, tension and throbbing in the part, varying from a moderate degree of these sensations to the most excrutinting suffering;—these are caused by the great flow of blood to the parts. Sometimes the inner coat of the bowel products at every expension, forming what is these are caused by the great flow of blood to the parts. Sometimes the inner coat of the bowel protudes at every evacuation, forming what is called Prolapsus, or falling of the bowels; this is the effect of long continued irritation and weakness of that organ. In some instances the patient experiences nervous pains, which are indescribable, and known only to the sufferer, which commence immediately after an evacuation, and continue from thirty minutes to several hours; these sensations are very annoying and sometimes very distressing. This disease, when of long continuance, is attended by pain and weakness in the back, irritation of the kidneys and bladder, and other organs in the vicinity, pain and nimbness in the legs and feet, a sense of straitness about the chest, and unnatural fulness of the abdominal viscera, accompanied with palpitation of the heart and oppression. Individuals sometimes experience, previous to an attact of the Piles, symptoms denoting great derangement in the circulation; there is a sense of weight and pressure in the abdomen, with a peculiar feeling of uneasiness in the bowels, constipation or perinaum, attended with pair in the back and loins, nausen, and slight pains in the stomach; pale countenance, confused senations in the head, weariness, and inimitable and discontented state of the mind, and a sense of fulness and oppression in the region of the stomach. The circulation on the surface is feeble, and the current of blood determined inward and downwards.

Messrs. Wyatt & Ketcham—Genjlemen, understanding that you are the general agents for the sale of Dr. Upham,s Vegetacle Electuary, for the ure of Piles, I have deemed it my duty to volunteer a recommendation in behalf of that invaluable medicine. I have been afflicted for many years with Piles, and have tried various remedies, but with no beneficial effects—indeed, I began to consider my case utterly hopeless. But about the first of September last, I was prevailed upon by a friend to make a trial of the above named medicine. I took his advice and rejoice to say that-I am not only relieved, but, as I believe, perfectly cured. I most earnestly recommend it to all who may have the misfortune to be affleted with that annoying and dangerous disease. with that annoying and dangerous disease.

REMARKABLE CURE OF PILES!—THIRTY YEARS

November 29, 1847.

Mount Washington, Berkshire co, Mass. 
November 29, 1847.

Mosses. Wyatt & Ketcham—Gents: For thirty years I have been afflicted with Piles, general debility and inflammation, causing tumors and prolapsus of the bowels, and which had resisted all the medical treatment Dr. Chapman and others could give. The last three years of that time my sufferings dely description. I was contined to bed, unable to help inyself, and at last given up by my physician and friends in despair of ever gaining health: in fact for three days before I commenced using Dr. Upham's Electuary, I was entirely speechless and my burial clothes were made. But under Providence, and the use of Dr. Upham's Electuary, though an old man, I have the pleasure of stating the fact to the public that my health is now good, and hope to live many years, if it is God's will, to make known the virtues of Dr. Upham's Electuary, and to recommend it to my afflicted fellow-creatures. It helped me beyond the expectations of all that knew my case, and I can only say to others that it is, in mys opinion, the best medicine in the world for Piles, or any other disease of the bowels; and if they will use it according to the directions, I will myself warrant a cure in every case. Yours, with the utmost expression of trankfulness,

IUNT'S LINIMENT is sustaining a notoriety unequalled by any similar remedy. It requires no puffing to give it a reputation, it has been for some time silently and surely securing it, and now, when its beneficial effects have been experienced by so many, the expressions of gratitude are continually appearing, and those who have been made whole by its means are desirous that the afflicted should no longer remain ignorant of its invaluable and infallible efficacy.
Mr. Geo. E. Stanton, the Proprietor, is constantly receiving testimonials of benefits received from its use, and many of the cures it has effected almost exceed belief. In one case a child had been a cripple for eight years, having wrenched the spine, when at the age of two years, by a fall from a chair. Medical treatmen failed, but four bottles of the Liniment restored him to strength, and he now joins with his playmates in their youthful gambols, as robust as the healthiest of them, and only a small hump on his back to remit did him of his early sufferings.
