While Life remains we still have son hope.—Dr. Wisth's tidenm of Wid Cherry—Roughery—No. Deception. In setting forth all virtues of this truly great medicine, we have no spe to deceive those who are laboring under addictionally virtues of lingituly great medicine, we have no design to decive these who are his foring ender affection, for do we wish to eulogize it more than it justly deferees. Yet, when, we-look around not see the vast amount of suffering and distress occasioned by many of the disease in which this medicine has irowed so lightly successful, we feel that we cannot argu its claims too farfordly, or say foo much in its favor. Various remodels, it is true, have been offered and buffed into motice for the cure of diseases of the lungs, and some have been found no doubt very useful; but of all that, have yet been discovered, it is admitted by physicians, and all who have witnessed its effects, that notice have prived as successful as dimitted by physicians, and all who have witnessed its effects, that notice have prived as successful as this: For Asthma, Shortness of Breath and similar affections, it may be pronounced a positive cure. It has cured Asthma in many cases of ten and twenty years, stanting, after physicians had declared the case beyond the reach of Medicine.
