SHEPHERD'S SARSAPARILLA, For the Permanent Cure of all Diseases arising the following grave declarations: In one of the accompanying papers (let-ter to the "Representatives of the American People," under date "Mexico, February 12, 1848,") my belief is expressed that Con-gress and the country had been deceived by the individual holding the trust of President of the United States," and that the object for which that deception had been practiced was the indefinite protraction of the war—this protrac-tion laving for its end the conquest of Mexico and her absorption into our Union.
