from a respectable member of the Society of Friends.

VALUABLE TESTIMONY.

Ponghkeepsie, March 15, 1847.

This may certify that in the Spring of 1844, (three iyears since) my health was very feeble. I was afficted with a pain in my left side, with other unpleasant symptoms, and suffered much from general debility. At that time I purchased of Mosea Dame two bottles of Thomson's Compound Syup of Tar and Wood Naphtha, from which I experienced great benefit, my health being now very good, and I cheerfully recommend the article to all persons who may be suffering from teneral debility. With symptoms of a derecommend the arrow debility, with symptoms of a defining from general debility, with symptoms of a debility. ABRAHAM WILTSIE. Prepared and sold by ANGNEY & DICKSON, a corner of Fifth and Spruce streets, Philadelphia Sold by J. & W. B FLEMING, Carlisle. Price 5

SAM'L. MYERS. Mr. Geo. Spangler—Sir: We have been using the Thermanieter Churn Lgot of you for some time, and find it far superior to the old barre churn for several reasons; first, great saving of the old barre to the old b time in getting butter, the average time of churning about fifteen minutes, (all weathers); secondly, the butter when obtained is much firmer than when using any other churn: mally, my ondly, the butter when obtained is much firmer than when using any other churn; finally, my folks say they would not exchange it for any other churn and twice the original cost of the Thermometer Churn.

Sep. 28, 1818.]

G. W. SHEAFFER.

Mr. Geo. Spangler-I have had the Crowe Mr. Geo. Spangler—I have had the Crowell Thermometer Churn you made for me in use at my place, and I do not hesitate to say that no Farmer sheuld be without it. Fifteen minutes is all the time required to make Butter, and the value of this saving of Ime and labor consists in this, that it requires no more time at any one senson than another; and that the temperature of the cream necessary to make butter, is produced with certainty, and without the admixture of warm or cold water with the cream itself.

Carlisle, Aug. 17, 1848.

Carlisle, Aug. 17, 1848. To the benefit of the better part of man (woman) I give it is certificate. After using the Thormometer Churn made by Mr. Spangler of this place, I would have none other in my family. We have been using the old barrel churn for thirty years past, and I must say it is not to be compared to Crowell's Thermometer Churn, either for speed of churning or convenience; in the old barrel churn it took generally from four to six hours to churn the churning, now in the Thermometer Churn we can churn hutter in from fifteen to twenty ninnies, by brining the cream to the proper temperature. I can recommend it to the public as no chent.

JOSEPH SHROM.

Carlisle, Sep. 4, 1848.
