and cures, that stand as landmarks and bencons for the invalid, pointing the way to the baven of health.

The following is from Col. S. G. Taylor, a gentleman of high standing and extensive acquaintance in the Southern states, and lately appointed Consul to New Granads:

Messrs. A. B. & D. Sands:—

New York, January 7, 1848.

Gentleman, Having used, and witnessed the effects of your excellent preparation of Sarsaparilla on different persons in various parts of the Southern country, viz., Virginia, Louisiana, Texas, and Mexico, I feel much pleasure in stating the high opinion entertained of its great medicinal value. In my own case it anded almost like a charm, removing speedily the enervated state of the system, and exotting, in the most agreeable manner, a tonic and invigorating influence.

Your Sarsaparilla is highly approved and extensively used by the U. States army in Mexico, and my cousin, GEN. ZACHIARY TAYLOR, has for the past six eyenrs been in the habit of using it, and recommends the same; he and myself adopted the article at-the same time, and it is now considered an almost indispensable requisite in the army. In conclusion I would say, that the better it is known the more algeby—it will be prized, and I trust that its health-restoring virtues will make it generally known throughout the length and breadth of our widely-extended country.

Yours very respectfully,

S. G. TAYLOR,

Yours Consulton I would say, that the better its known the more algeby—

REMARKABLE CURE OF SCROFULA.

Extract from a letter received from Mr. N. W. Harris, a gendeman well known in Louisa county. At :—"I have cured a negro boy of mine with your Sarsaparilla, who was attacked with Scrofula, and of a scrofulous family. Yours truly, "Fredericks Hall, Vo., July 17, 1818."

N. W. HARRIS." The following testimony from Rev. John Grigg, late Rector of the Church of the Crucifixion in this city, commends itself to the attention of the afflicted. Numerous sertificates of cures of various diseases effected by this medicine are almost daily

received :— A member of my family has taken your valuable Sarsaparilla for Messrs. Saws:—A member of my family has taken your valuable Sarsaparilla for Messrs. Saves:—A member of my family has taken your valuable Sarsaparilla form its use. It gives me very great pleasure to record my testimony in behalf of its virius and efficacy, hoping that others may be induced to make a trial of it.

New York, May 10, 1848.

Mossis. A. B. E. D. Sans Norwick, N. Y., Oct. 6, 1847.
Generican Research Peelings of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sareaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and cars, and at others would break out in different parts of my face and head. These continued until my throat, face, and head wore almost one complete sore, and for a long time I was so hoarse that it was with the turnost difficulty that I could speak above a whisper. During this time I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various renedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all floaled, and I sturbute the result entirely to the effects of your valuable medicine.

Yours, with respect and gratitude,

Being personally accounted with the person above named. I believe her statement

Being personally acquainted with the person above named, I believe her statemen obe correct.

Sep. 28, 1848.] G. W. SHEATPER.

Mr. Geo. Spangler—I have had the Crowell Thermometer Churn you made for me in use at my place, and I do not hesitate to say that no Farmer should be without it. Fitteen minutes its all the time required to make Butter, and the value of this saving of time and labor consists in this, that it requires no hince time at any one season than another; and that the temperature of the cream necessary to make butter, is produced with certainty, and without the admixture of warm or cold water with the cream itself.

Carlisle, Aug. 47, 1848. For the barieft of the better part of man (woman) I give at is certificate: After using the Thermometer Churn made by Mr. Spangler of this place, I would have none other in my family. We have been using the old barrel churn for thirty years past, and I must say it is not to be compared to Growell's Thermometer Churn cither for spoed of, charning or convenience; in the old barrel churn's took generally from four to six hours, to churning, now in the Thermometer Churn we can churn butter in from fifteen to twenty minutes, by brining the cream to the propier demperature. I was recommend it to the public as no chear.
