Submission to God .- The conversion of the soul is the first submission. Before this it rebels, secretly and openly against God's law. It turns always from tion to him. When we are told of this in theological language, we doubt or disbelieve it. We cannot think, we say, that there is any property between the country and are considered preferable to any other Cutter now in use.

NEW YORK VARIABLE COUNTRY COU that there is any knmry between us and our Heavenly Father; and we invest the language of scriptures which so plainly assert this, with some vague and metaphorical meaning. And yet, after all, though we deny it in words, there is something in our secret consciousness which tells us it is true. In our sad and sorrowful hours when we want some refuge to go to, we cannot find such a refuge to go to, we cannot find such a refuge in God The soul, desolate and wretched, finding a blank in every earther direction in which it looks, asses something worse than a blank in the direction of Heaven. It instinctively paints to itself the face of God darkened by a frown. While everything looks comfortless below, it finds only a dark and gloomy dread of retribution when it attempts to look above. In a word, the unchanged soul of man has a law in investing hard. that there is any ENMITY between us and when it attempts to look above. In a word, the unchanged soul of man has always a feeling which no reasoning can remove, that there is a wast and eternal in conclusion they beg leave to say, that they are determined to sell at very small profits for cash, and invite all wishing bargains to give them a call. Orders from country merchants supplied upon the most reasonable terms.

Carlisle, may 4 whose mighty hand it has never yet been humbled. There are times in the experience of every reflecting mind, when the world seems to shrifth into insignificant dimensions, and withdraws from the view. Its colors fade, its promises of happiness disappear; its sorrows and woes darken the whole hotizon; its brief period of duration seems just at an end, and the heart longs to fly away in search of semething to rest upon, but is repulsed by the still gloomier aspect of everything beyond the grave, where reigns supreme a power to which it has never yet been willing to bow.—

Weary at length of this wretched isolation, and touched by a sense of the Divine kindness and compassion which seek to draw us from it, we come and submit. We humble ourselves under the mighty hand which we feel it vain and wicked to resist any longer.

National Happiness.—Neither industry, and the legislator substitution in their way, and the legislator substitution in their way, and the legislator substitution in the read of the churn. It is so constructed that the top can be taken off so as to give free access to the inside of the churn, which makes it convenient to, put in the cream and get out the butter. A chamber or space is arranged around the bottom of the churn so as to show the exact temperature of the cream, which experience shows should be 60 degrees to make good Butter. A chamber or space is arranged around the bottom of the churn, for the purpose of admitting cold or warm wanter, so as to bring the cream to the desired temperature without mixing the water with the reams. The secret in churning butter is, to have your cream at the proper temperature; it will produce more and better butter, and take less time in churning; it churns equally well in cold or warm weather—no such thing as having accided butter. All that is necessary to make good butter all soasons of the year, is to get one of Crowell's Patent Thermometer Churns.—We would most respectfully invite the public to the desired the public to the desired the public to the desi power ruling sublimely above it, under whose mighty hand it has never yet

All these things are useful in their way, and the legislator ought to propagate and multiply them; but if contented with having developed the intellectual and terrestrial part of man, he neglects to educate the soul, that divine essence of humanity, instead of a happy people, he will see around him only an uneasy multitude, unbridled in its passions and harrassed with the double want of rising and knowing of which the sublime instinct constitutes its punishment. You have directed it towards the earth and it remains there | Fari which consume it. Why do you not open for it the gates of heaven? Mr. Geo. Spangler—Sir: We have been using the Thermometer Churn I got of you for some time, and find it far superior to the old barrel churn for several reasons; first, great saving of time in getting butter, the average time of churning about fitteen minutes, (all weathers); secondly, the butter when obtained is much firmer than when using any other churn; mally, my folks say they would not exchange it for any other churn and twice the original cost of the Thermometer Churn.

Carlisle, Aug. 17, 1848.

For the benefit of the better part of man (woman) I give this certificate. After using the Thermometer Churn made by Mr. Spangler of this place, I would have none other in my family. We have been using the old barrel churn for thirty years past, and I must say it is not to be compared to Crowell's Thermometer Churn, either for speed of chuming or convenience; in the old barrel churn it took generally from four to six hours to churn the churning, now in the Thermometer Churn we can churn butter in from fifteen to twenty minutes, by brining the cream to the proper temporature. I can recommend it to the public as no cheat. I JOSEPH SHROM.

Messys. A. B. & D. Sands:—

Gentlemen,—Having used, and witnessed the effected your excellent preparation of Sarsaparilla on different persons in various parts of the Southern country, viz., Virginia, Louisiana, Texaa, and Mexico, I'feel much pleasure in stating the high opinion entertained of its great medicinal value. In my own case it acted almost like a charm removing specifity the enervated state of the system, and excling, in the most agreeable manner, a tonic and invigorating influence.

Your Sarsaparilla is highly approved end extensively used by the U. States army in Mexico, and my cousin, GEN. ZACHARY TAYLOR, has for the past Arcycers been in the habit of using it, and recommends the same; he and myself adopted the article at the same time, and it is now considered an almost indispensable requisite in the army. In conclusion I would say, that the better it is known the more highly it will be prized, and I trust that its health-restoring virtues will make it generally known throughout the length and breadth of our widely-extended country.

Vours very respectfully,

REMARKABLE CURE OF SCROFULA.

Southport, Conn., January 1, 1848.

Messis. Sands:—Gentlemen.—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the Scrofula on different parts of the body: the glands of the neck were greatly enlarged, and her limbs much swellen. After suffering over a year, and finding no relief from the remedies used, the disease attacked one leg, and below the kince suppurated. Her physician advised it should be laid been, which was done, but without any permanent benefit. In this situation we heard of, and were induced to use Sands' Sarsaparilla. The first bottle produced a decided and tavorable effect, relieving her more than any prescription she had ever riaken; and before she had used six bottles, to the astonishment and delight of her friends, she found her health neutre restored. It is show over a year since the cure was reflected, and her health remains good, showing the disease was thoroughly gradicated from the system. Our neighbors are all knowing to these facts, and think Sands' Sarsaparilla a great blessing to the age.

Mossts, A. B. & D. Sands:

Gentlement—Residuage of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicled with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears, and at others would break out in different parts of my face and head. These continued until my throat, face, and head were almost one complete sore, and for a long time I was so inderse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed, and I attribute the result entirely to the effects of your valuable medicine.

Yours, with respect and gratitude, PHEBE CAHOON.

# REMOVAL.

We challenge the world to produce a medicine better adapted to the expulsion of worms from the human body than Shepherd's Virmifuge. It has been used by thous take with entire satisfaction. It has the advantage of most other Virmifuges, as itnever sickens that person using M. It has cured children that have been subject to fits for years, and that had been given up by physician, parents and friends. It should always be used as a purgative for children, as its trengthens them, and at the same time carries off the coarser particles of food, and worms, if they are troubled with them.

The following certificate has been handed to us by Juige Koons, of Luzerne county, Pa. It speaks for itself.

I have tried all kinds of medicine, had the best advice the physicians of Bos on and this place could give, spent much money and twice submitted to a surgical operation. I had become perfectly tired of life, and at the suggestion of my surgical operation. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found relieved me slightly, still I persevered and purchased a second, and assure you when I got half through I found myself getting well; I still kept on, and now I am a new man. Mersss. Ketchem & Henchaw—This certifies that I have been severely afflicted for many years with the Piles, but more particularly within the last nine months. Having used all the remedies prescribed by my physician, also having tried other means to little or no advantage, I become very much discouraged and felt as though I must suffer as long as I lived. But providentially I was informed by Mr. Mott, instructor of the public school at Staten Island, that I could be cared by your valuable Pile Electury. Having confidence is his statement, I unmediately precured some of the medicine and am very happy to inform you that I am now perfectly cared by the user of only one bex.
