REMARKABLE CURE OF SCROFULA.

REMARKABLE CURE OF SCROFULA.

Messts. Sands:—Gentlemen—Sympathy for the affiliced induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife: She was severely afflicted with the Scrofula on different parts of the body; the glands of the neck were greatly enlarged, and her limbs much swollen. After unfaring over a year, and finding no relief from the reindicis used, the disease attacked one leg, and below the knee suppurated. Her physician advised it should be laid open, which was done, but without any permanent benefit. In this situation we heard of, and were induced to use Sands' Sarsaparilla. The first bottle produced a decided and favorable effect, relieving her more than any prescription she had ever taken; and before she had used six bottles, to the astonishment and delight of her friends, she found her health quite restored. It is now over a year since the cure was effected, and her, health remains good, showing the disease was thoroughly eradicated from the system. Our neighbors are all knowing to these facts, and think-Sands' Sarsaparilla a great blessing to the age.

Extract from a letter received from Mr. N. W. Harris, a gentleman well known in Louisu county. Va.:—"I have cured a negro boy of mine with your Sarsaparilla, who was altacked with Serofula, and of a scrofulous family. Yours truly, "Fredericks Hall, Va., July 17, 1848."

The following testimony from Rev. John Grigg, late Rector of the Church of the rucifixion in this city, commends itself to the attention of the afflicted. Numerous ertificates of cures of various diseases effected by this medicine are almost daily scaled. recriments of cures of various diseases effected by this incutents are most daily received.

Messrs. Sands:—A member of my family has taken your valuable Sarsapartills for a sowere scrothious affection, &c. with the most beneficial effect resulting from its use. It gives me very great pleasure to record my testimony in behalf of its virtue and efficacy, hoping that others may be induced to make a trial of it.

Messrs. A. B. & D. Sayds:—

Messrs. A. B. & D. Sayds:—

Gentlemen-Feelings of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my-head, which at times would gather and discharge at my throat, nose, and ears, and at others would break out is different parts of my face and head. These continued until my throat, face, and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time. I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed, and I attribute the result entirely to the effects bryour valuable medicine.

Yours, with respect and gratitude,

Levery change that is taking place in the fact its manifest that it is brought about by something having a substantive existence. If we suppose the organs of our body originally perfect, they must continue perfect unless changed by the intervention of something that bears an unheal thy relation to it. In all cases of disease, there must be the interposition of some new ingascient which by playing its part as a cause served to modify the properties, before connected with the biddy. It is absurd to talk of spontaneous disease taking place in organs previously healthy, without the interposition of some morbific agent; as well might we expect a piece of chalk to transfer test spontaneously into Platefer of Parts, without the aid of Sulphuric Acid. VALUABLE LIMESTONE FARM. FOR SALE.

Extensive Furniture Rooms.

Mr. Geo. Spangler—I have had the Crowell Thermometer Churn you make for me in use at my place, and I do not hesitate to say that no Farner should be without it. Fifteen minutes is all the time required to make Butter, and the value of this stying of time and labor consists in this, that it requires no more time at any one season than another; and that the tempetature of the cream necessary to make butter, is produced with certainty, and without the admixture of warm or cold water with the cream itself.

Carlisle, Aug. 17, 1848.

For the benefit of the better part of man (woman) I give this certificate. After using the Thermometer Churn made by Mr. Spangler of this place, I would have none other in my family. We have been using the old barrel churn for thirty years past, and I must say it is not to be compared to Crowell's Thermometer Churn, either for speed of churning or convenience; in the old barrel churn it took generally from four to six hours to churn the churning, now in the Thermometer Churn we can churn butter in JACOB FETTER & SON,
