BURRALL'S CORN SHELLER.

THE subscriber respectfully informs the farming community that he has purchased the right to BURRALLS CEILERATED CORN SHELLER, for the counties of Cumberland, and Franklin. Farmers who have used this Corn Sheller, pronounce it- most invalidable invention. It is simple in its construction and not liable to get out of order. It seperates the corn from the cob, without breaking either, and delivers the corn clean and fit for market. It shells from ten to twenty bushels per hour. Eight hundred of them anverbeed sold the past season by the inventor, all of which were highly approved.

Persons wishing to see the above Corn Sheller, can do so by calling at the shop of the subscriber, corner of North Hanover and Louther streets, Carlisle, where he will keep constantly on hand a large number for sale. Every farmer and miller should have the above cheap but valuable Corn Sheller.
