American Art Unions. New York Art Union .--- This Institutio New York Art Union.-This Institution was ortablished for the purpose of extending a love of the Fine Artsthröugfout the U, States, and to ancourage Arnetican Artists. Its plan is that over individu if abscribing S5 becomes a mem., hist for one years. The fund this obtained is ap-plied, first, to the procuring of a large and coally. "engraving: from an original American picture, of which every imember receives a construc-Statuary, or other works of Art, which are ex-bibited in a free galliery and afterward distribut-ed by iot among the members. Thus, for \$5 evbioited in a free galacy and atterward distributed ed by iot gamong the members! Thus for \$5 ev-ery member is sure of a fine engraving, (worth, that money) and fias the chance of obtaining a fine original Painting. The annual distribution takes place in December. Philadelphia Art Union — This association

"has the same object and the same general plan as the N.Y. Union, except that the successful as the N. Y. Union, except that the successful member instead of drawing a particular picture driws a certificate for a specified sum, with which he may purchase apainting of his own se-lection. The first Monday in May, annuelly, is "the time fixed for the distribution of the prizes" so, that all subscriptions should be thinde before the last Monday in April. Subscribers for the picture of Ruth and Boaz, executed by Sartain, twenty one inches by fifteen. We are authorized to receive subscriptions to the obtained by on-both of these institutions. More detailed infor-metion concerning them can be obtained by on-ling at our office.

JUDGE WATTS

The appointment of Mr. Watts as President Judge of the district of Cumberland, Perry and Juniata, is received with warm. expressions of satisfaction in the different sections of the district, and abroad. The Sentinel, published at Mifflintown 5878 : "When we say that the appointment of Mr. Watts-will give universal satisfaction, we are sustained by the andivided voice of the people of the district as expressed prior to the nomination. Mr. Watts is generally acknowledged to possess the necessary qualities to make a most able, efficient and im-partial ludge. He comes to the bench with high reputation as a jurist, and endorsed by every one who can claim his acquaintance as a man of undeviating integrity, honesty of purpose, and one who will perform the responsible deties of his station without 'fear, favor or affection.' Mr. Watts has ever been a consistent Whig-was the Whig candidate for Congress in 1838, in the district composed of Juniata, Perry and Cumdistrict composed of Jinhad, Ferry and Con-berland, against Mr. Ramsey—but is one of -odf-most generous and liberal politicians, and as such is respected by men-of-all-polit-ical persuasions. He is somewhat past the meridian of life, and leaver a practice worth treble the salary of a President Judge." The Perry Freeman says: "Governor Johnston sent in to the Senate on the 6th inst. his first nomination to a Pres-icent Judgeship—that of Frederick Watts, Esq. of Carlisle, to fill the vacancy occurring in this Judicial District by the expiration of the term of the Hon. Samuel Hepburn-The people of this district desired with great unanimity this nomination, as Mr. W. has long been known as one of the ablest jurists in the Common wealth."

From the Harrisburg Telegraph: "The appointment of Frederick Watts, aq., as President Judge of the 9th Judicial Esq., as President Judge of the 9th Judicial District, seems to have given universal sat-isfaction to the people of that district. As far as we have seen the appointment re-ceives the cordial and undivided approbation of all parties. He is known to 058688 all the necessary qualities to make a most a ble and worthy Judge. He takes his seat upon the bench with a high reputation as a

BOROUGH EEECTION. The Whig Supremary still Unbroken! We give below the returns of the election borough officers, and officers of the State locitoria de la contra la contra la contra cana election held on Ericlay lastin II: will be seen thaisin the role to ludge of the General E-lection, which was the great political test. the aggregate of each party shows a clear Whig majority of eleven votes. In the vote for Burgess, the majority for Major Blair, an old and true Whig, is seventy five. These facts are worthy of attention, as the loss of several of our candidates (liom personal causes, probably,) is seized upon by our

opponents as the ground of claiming a yicory, and no doubt will be triumphantly heralded as such by the 'Volunteer' and 'Denocrat." The trick of dividing the borough, with the absurd plan of electing five councilmen in one ward and four in the other has also for once served their purpose and given the Locos a controlling majority in that august body. The justite of the law may be seen in the fact that the minority

party has thus been able to acquire a majority in the Council-board. Next year, by the fighting order, will easily triumph.

If it be trueto lend themselves to a scheme so vile-we trust that Gov. Johnston will not call them back to fe-occupy seats which they disgrace. They should be allowed to return at once to their homes to rettle their accounts with an outraged and betrayed constituency. A failure to pass the appropriation bill would of course subject every department of the 20vernment to great embarrassment: but Gov. Johnston should bear with all these evils rather than have the odium of an extra session fixed upon his administration. If the legislature neglects to make the proper provision for the payment of the obligations of the State, it will be no fault of the Governor, and the people will not be slow to fix recreant to the trust confided to them.
