## Our Country

ELOQUENCE AND PATRIOTISM.

The young men of our day should cut out and preserve with no little care, the addresses that have just been delivered at Washington, particularly the inaugural of Gen Taylor, the Valedictory of Speaker Winthrop, and the remarks of Vice-President Fillmore on taking his seat as presiding officer of the U. States Senate. They are models, each in its way, and almost perfect specimens of that particular kind of composition. We have given the Inaugural of Prasident

have given the Inaugural of President Taylor, and we now subjoin the brief. but truly expressive and admirable speeches of Messrs. Fillmore and Winthrop: MR. FILLMOPE'S ADDRESS.

SENATORS—Never having been honored with a seat of this floor, and never
having acted as the presiding officer of
any legislative body, you will not doubt
my sincerity when I assure you that I
assume the responsible duties of this
chair with a conscious want of experi-

sincerity when I assure you must be responsible duties of this air with a conscious want of experience, and a just apprehension that I shall feen need your friendly suggestions, and nore often your indulgent forbearances. I should indeed feel oppressed and disheartened did I not recollect that the Sentate is composed of eminent statesment equally distinguished for their high intelligence of manners—whose persuasive eloquences is so happily tempered with habitual so happily tempered with habitual and the name and residence of the person ordering put on if requested.

Silvet 1810, Table \$15, other is 55, Desert \$10, Table \$15, other is 56, Desert \$10, Table \$15, Other is the discharge of his duty, and render his

Thus encouraged and sustained, I enter hould do injustice to the fellings of my own heart, if I did not on this occasion express my warmest thanks for the disinguished honor that has been conferred upon me, in being called by the voice of the Nation to preside over your deliber-

It will not, I trust, be deemed inappropriate to congratulate you upon the scene now passing before us. I allude to it in no partisan aspect, but as an everrecurring event contemplated by the Constitution. Compare the peaceful langes of Chief Magistrate of this Re--public with the recent sanguinary revolutions in Europe. There, the voice of the people has only been heard amid the din of arms and the horrors of domestic conflicts; but here, in our own favored land, under the guidance of our Constitution the resistless will of the Nation has, from time to time, been peacefully expressed by the free suffrages of the People, and all have bowed in obedient submission to their decree. The Administration which but yesterday wielded the destinics of this great nation, to-day quietly yields up its power, and without murmur retires from the Capitol.

I congratulate you Senators, and I congratulate my country, upon these ofter recurring and cheering evidences of our crpacity for self-government. Let us hope that the sublime spectacle which crpacity for self-government. Let us hope that the sublime ap-sciacle which we now witness may be repeated as often its the people shall desire a change of rulers, and that this venerated Constitution and this glorious Union may endure forever!

Valentorory.—The following is the close of Speaker Winthrop's beautiful A decent grace: without it; youth and charms Are loathsome.

vuledictory address at the close of the Are louths session of Congress:

"We have been associated, gentlemen.

will of a free and intelligent people.

THE NIAGARA SHOWER-BATH. An entirely new Article for Shower-Bathing, with warm or cold Water.

THIS Bath took the promium at the Fair of the Franklin Institute, Philadelphia. October 1848, the only Bath that ever took a premium at that institute and also took the first premium at the Fair of the Maryland Institute, November 1848.

A great and important improvement is made in this Shower-bath over all others, by throwing the water immediately on the body, without wetting the head, unless at the will or plassure of the bather; but a greater point is gained by being, enabled to bathe with warm water, which no other Shower Bath is adapted to—and most of all the Bath can be medicated without injury to the hair.

of all the Bath can be medicated without injury to the hair,
Many persons cannot take a cold bath—their case is met in this as they can regulate the temperature of the water to suit their wish, and commence bathing at any season of the year without any unpleasant result. Ladies can have the advantage of bathing without wetting the head or covering the same.

The arrangements are simple and complete, and not liable to get out of order. The Bath can be adjusted to suit any height, from a small child to the tallest person. When the door is closed, the fixures are hid and the outside appearance is that of a neat pleed of furniture.

They have received the approbation of several medical gentlemen—others are requested to call and examine them. Manufactured by the Patentee. EPHRAIM LARRABEE,

24 South Calvert street, Baltimore.

BATHING.—Read what Armstrong says:

January 3, 1849.-1v.

## REMOYAL.

"We have been associated, gentlemen, during a most eventful period in the history of our country and of the world. It would be difficult to designate another era in the modern annals of mankind, which has been signalized by so rapid a succession of startling political changes. Let us rejoice that while the powers of the earth have almost everywhere else been shaken, that while more than one of the mightiest monarchies and stateliest empires of Europe have tottered or have fallen, our own American Republic has stood firm.

Let us rejoice at the evidence which has thus been furnished to the friends of liberty throughout the world, of the inherent stability of institutions which are founded on the rock of a written constitution, and which are sustained by the will of a free and intelligent people.

And let us hope and trust—as I for

And let us hope and trust—as 1 for one; most fervently and confidently dothat, by the blessing of God, upon prudert, conciliatory, and patriotic counsels, every cause of domestic dissension and fraternal discord may be, speedily done away, and that the states and the people, whose Representatives we are, may be bound-together forever in a firm, cordial and indissoluble union.

Offering once more to you all my most grateful acknowledgments of your kicdness, and my best wishes for your individual health and happiness, I proceed to the performance of the only duty which remains to me, by annonicing, as I now do, That the House of Representatives of the United States stands'adjourned, sixe are in the performance of Representatives of the United States stands'adjourned, sixe are in the Mercher known acquired a reputation that daily experience continues to strengthen. Thousands have been cured by its use, and as it leaves to me, it is boldly presented as the best remedy for such diseases yet offered. It is used by physician and pronounced superior to any known remedy. Full directions accompany each bottle. For sale at N. W. corner 3d and South streets, Philadelphia, and by S. ELLIOT, Carlisle: Dr. McPherson and T. Wyeth, Harrisburg Pa. It Never Falls.

The subscriberg having purchased the right.

To Cumberland county for making Crow cil's Patent Thermometer Churn, they would respectfully inform the Farmers and public in general, that they will make and ofter for sale their Churns at the Cabinet Ware-toom of Geo Spangler, in N. Hanover street, mext door to the office of D. Smith, Esq.

The principal advantage this Churn has over all others is, that it is so constructed that the top! can be taken off so as to give free access to the aside of the churn, which makes it convonient to put in the cream and get out the butter. A Thermometer, is attached to githe end of the Churn so as to show the exact temperature of the cream, which experience shows should be degrees to make good Butter. A chamber or page is arranged around the bottom of the hurn, for the purpose of admitting cold or warm warter, so as to bring the cream to the desired iemperature without mixing the water with the ream. The secret in churning butter is, to ave your cream at the proper temperature rivill produce more and better butter, and take cost time in churning; it churns equally well, in old or warm weather—no such thing as having calded butter. All that is necessary to make cost time in churning; it churns equally well, in old or warm weather—no such thing as having calded butter. All that is necessary to make oot butter all seasons of the year, is to get one of Cowell's Patent Thermometer Churns.

We would most respectfully invite the public to all and examine for themselves.

I GEO. SPANGLER, SAM'L. MYERS.

We would most respectfully invite the public to all and examine for themselves.

I GEO. SPANGLER, SAM'L. MYERS.

\* THE CUMBERLAND VALLEY Mutual Protection Comp'y

Mr. Gso. Spangler—Sir: We have been using the Thermometer Churn I got of you for some ime, and find it far superior to the old barrel hurn for several reasons; first, great saving of the control of the THE CUMBERLAND VARLEYMUTUAL PROTECTION CGMPANY, will be under the direction of the following board of Managres for the ensuing year, viz:—Thos. C. Miller, President; Samuel Galbraith, Vice President; David W. McCullough, Treasurer; A. G. Miller Secretary, James Weakley, John T. Green, John Zug, Abraham King, Richard Woods, Samuel Huston, William Peat, Sectively, Alexander Davidson. There are also a number of Agents appointed in the adjacent counttes, who will receive applications for insurance and torward them immediately for after proval to the office of the Company, when the policy will be issued without delay. For further information see the by-laws of the Company.

THOS. C. MILLER Prest.

A. G. MILLER, Sec'y.

The following gentlemen have been appointed A GENTS:

L. H. Williams, Esq., Westpennsboro, General Agent: hurn for several reasons; hrst, great saving of time in getting butter, the average time of churning about fifteen minutes, (all weathers); sectually, the butter when ebtained is much firmer han when using any other churn; heally, my like sny they would not exchange it for any ther clutn and twice the original cost of the hermometer Churn.

Sep. 28, 1848.]

G. W. SHEAFFER. Mr. Geo. Spangler—I have had the Crowell Nhermometer Churn you made for me in use it my place, and I do not hesitate to say that no armer should be without it. Fifteen minutes all the time required to make Butter, and the salue of this saving of time and labor consists in its, that it requires no more time at any one tenson than another; and that the temperature of the cream necessary to make butter, is professory. eason than another; and that the temperature I the cream necessary to make butter, is prouced with certainty, and without the admixture I warm or cold water with the cream itself.

FRED'K WATTS.

Scintea or Limbego, and Diseases arising from an injudicious use of Morcury, Ascites of Dropsy, Exposure or Imprudence in Life, Also, Chronic Constitutional Disorders.

In this preparation are strongly concentrated alkthe Medicinal properties of SarsapartiLa, combined with the most effectual aids, the most salvage and properties of the most property and the most propert

the various compounds bearing the name of Saraaparilla, Diseases have been cured, such as are not furnished in the records of time past; and what it has already done for the thousands, who have used it, it is canable of the doing for the millions still suffering and struggling/with disease. It purifies, cleanses, and strengthens the founta n springs of life, and infuses new vigor throughout the whole ani-

mal frame.

The diseases for which this article is recom nended are those to which it is known from personal experience to be adopted; and those apparently removed beyond the sphere of its details have yielded to its influence. The cat-

ANOTHER CULE OF SCROFULA.

The following striking and, as will be seen the seen the seen that the se fula, commends itself to all similarly affected

remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the scrofula on different parts of afflicted with the scrofula on different parts of the body; the glands of the nock were greatly enlarged and her limbs much swollen. After suffering over a year and finding no relief from the remedies used, the disease attacked, and below the kues suppurated. Her physician advised it should be laid open, which was done, but without any permanent benefit. In this situation we heard of, and were induced to use SANDS Sarsadarilla. The first bottle produced a decided and favourable effect, relieving her more than any prescription she had ever taken, and before she had used six bottles, to the astonishment and delight of her fireds, she found her health quite restoned. It is now over a year since the cure was
