

Herold's Oppositor

WEDNESDAY, MARCH 28, 1848.

American Art Union

New York Art Union.—This Institution was established for the purpose of extending a love of the Fine Arts throughout the U. States...

Philadelphia Art Union.—This association has the same object and the same general plan as the N. Y. Union, except that the successful member instead of drawing a specified picture...

Notice.—The approaching April Court will afford many of our friends who are indebted to us for subscription, advertising, and job work...

Those of our subscribers who intend to change their places of residence or to cut off their April, will please notify us where they wish their papers sent after that time...

Dr. Van Rensselaer's Exhibition.—The Entertainment announced for last night by the inimitable delineator of Yankee character, &c., Dr. Van Rensselaer, did not come off, on account of the bad weather...

By Last Night's Mail.—The ship Czar, arrived at Boston on the 26th, from California, with \$70,000 in gold.

A boiler exploded in a cotton factory at Allegheny, Pa., on the 25th, blowing the roof off and destroying five adjacent buildings...

A despatch from Cincinnati states that the Cholera has re-appeared on the Ohio and Mississippi steamboats. Thirty-two deaths on different boats, mostly emigrants, were reported.

Intelligence from Santa Fe, Feb. 20, states that Col. Fremont's party is supposed to have perished from cold in the Rocky Mountains. The Col. himself, half dead, had made his way back to Taos to report their condition...

Tom Hyer has been convicted at Chestertown, Md. and fined \$1000.

The Volunteer's abusive assault upon Mr. Ruple, the whig member from this county, is entirely without justification.

A despatch that charges a man of his upright character with "low trickery," injures itself rather than him. Mr. Ruple is a quiet but respectable and useful member of the House.

In supporting the bill to "consolidate the two wards of this borough," Messrs. Ruple, Bell and Sadler had all the right on their side as the Volunteer well knows, and as the result of our borough election conclusively proves...

Prosecution.—In answer to the outcry which some of the Locofoco organs have attempted to raise at the appointments under the new administration, and their ridiculous falsehoods about "martyrs" and "proscription," a writer in the Norfolk Herald publishes a list of 136 Whig officers in Washington city alone, who were removed during the first four months of Polk's reign of terror...

The Locofoco Senate has rejected the nomination of Edward W. McGowan, of Indiana, as Governor of the New Territory of Minnesota. This is the first rejection under the new administration, and seems to have been owing to personal grudge against him by the Indiana Senators.

Observance of the Sabbath.—A proposition is before our Legislature to abolish labor and the running of boats and cars on the Canals and Railroads of the State on the Sabbath. A law of this kind is in the highest degree desirable, and no one who feels an interest for the well being of society can fail to regard it with deep and earnest interest and approval.

The California boys from Carlisle are getting along on their journey finely, as we learn by letters from them.

The report of contemplated changes in Gen. Taylor's Cabinet are wholly without foundation.

James Miller, Esq. it is said, is about to resign one of the editors of the Harrisburg Freeman.

The Canal Commissioners (not Mr. Painter) made their report to the House on Monday. Mr. Painter dissented to it.

Argument on Romani.

The "Volunteer" calls upon us for "some kind of argument," to prove the humbuggery of "individual liability."

The Locofoco party has clamored and blustered for years about swindling Banks and Bank robbers, and yet the reforms and restrictions which it would apply are the very kind which must result in throwing all our Banks into the hands of dishonest men, or else banishing them from existence.

The Locofoco party has clamored and blustered for years about swindling Banks and Bank robbers, and yet the reforms and restrictions which it would apply are the very kind which must result in throwing all our Banks into the hands of dishonest men, or else banishing them from existence.

City Markets.

PHILADELPHIA, March 28, 1848. The unfavorable tone of the foreign news, as received by telegraph, had a tendency to depress the market, and limit the usual business operations very materially.
