MRS. JOHN QUINCY ADAMS lies in a very critical state at Washington. She is suffer- much to be feared that if an election were ing under a paralytic stroke, with which she to be held to-morrow, a reverse might be was attacked a couple of weeks since. The experienced by the great party which so sigleft side is said to be chirely dead.

CITY HOTELS .- It will be seen by an ad- this alarming apathy the more because we vertisement that the Merchant's Hotel, on looked forward to a series of victories, all Fourth street near Arch, Philadelphia, has tending to establish the policy of the counbeen taken by the Messrs McKibben, of try on a basis the best adapted to secure a Pittsburg. The Merchant's is a hotel of the progressive national prosperity. That the first class, and we can confidently recommend it to our friends as a place for comfortable sojourn on their visits, to Philadelphia.

" Another very superior Hotel, which we Guy's Hotel, opposite the Washington rail road Depot in Baltimore. It is an admirable house in every respect, and its landlord one of the most attentive and affable of gentlemen.

Visit of Gen. Taylor.

Gen. Taylor announced some time since. in reply to an invitation extended by Gov. Johnston, his intention to visit the interior of Pennsylvania, as soon as his public duties would permit. In reply to an invitation of the City Councils of Boston, to visit that city, Gen. Taylor's character, distinguished servi--Gen. Taylor-says that he contemplates a visit to the North at his earliest convenience; -and we learn from other sources, that on the occasion of his visit to the State Agricultural Fair of New York, early in September, he will make the tour of most of the Eastern cities returning via Buffalo, Erie and Pittsburg.

OCT Died, at Smithville, N. C. on the 15th icst., Capi. LESLIE CHARE, Assistant Quatter their presses show that if they have the master U. S. A. Capt. Chase graduated at the Military Academy in June, 1838, and was assigned to the Second Regiment of Gen. Taylor. They are still smarting Artillery. He served with distinction in the under the sting of a National defeat-the early part of the War with Mexico, receiving a brevet of Captain for gallant conduct in the The biller acrimony with which they regard battles of the 8th and 9th of May. In 1847 the Whig party is proved by the alacrity he was placed on duty in the War Department, as acting Judge Advocate of the army, exercise over Whigs in office. Do they ever for which honorable position he was partic. ularly adapted, having applied his lessure hours to the study of law, and been admitted to the bar in his native State, N. York - or his having performed his duties laithfully. Soon after in 1847, he received the appointment of Assistant Quartermaster, and imme- howl of wolves receiving chastisement with diately proceeded to New Orleans, where he was employed in erecting a commodious victims. hospital for wounded and disabled soldiers of the Mexican war.

PHOTOGRAPHY .- Such im provements have recently been made in Photography in Europe, that it is expected that the natural colours of objects may yet be produced by the sun's rays upon paper. In Philadelphia, we have ample assurance The obligation also, Mr. Laugenheim has so improved upor. an English gentleman's plan, (Mr. Talbot) tain the administration, as upon the adminof taking daguerreotypes upon paper, that at istration to sustain its friends. Any other is now done with an accuracy that is surprising, in about a minute's time. Any subsequent number may be taken without any sitting at all, and may be colored like a wa- porary, and Whig principles are destined to ter color painting.

OTThe Southern and Western papers ther, which appears to have spread its cold sheet over the whole Union. Indeed, the North Carolina, South Carolina and Georgia papers speak of the cold as being more intense than it was in the North. The Raleigh Register says that snow fell to the depth of several inches in that town and vicinity. The Ohio papers lear that the fruit trees in that State will be injured. We doubt not, from the accounts received, that much damage has resulted from the frost ;

The Administration and its Party. A WORD IN SEASON ce with regret the apathy prevai Wen ing in the ranks of Gen. Taylors political friends, as indicated in recent elections. Rhode Island has been Barely, saved. Conecticul has been virtually lost, although t feel confident the reverse is but temporary In Virginia all the ground gained two year ago seems from present appearances to have been lost to us. And in our own State it i

nally triumphed in the election of Governo Johnston and President Taylor. We regre

locofoco party is the better disciplined of the two parties, is a fact which under existing circumstances can scarcely be denied. The readiness with which they rally after defeat

-the vigor with which they renew the conwould-warmly recommend to our friends is test are worthy of both admiration and imitation by the Whigs.

> But we are afraid that these circumstances indicate clearly that the political millenium hoped for by many sanguine patriots during the contest which elevated Gen. Taylor to the Presidency, is still far distant. Distant, not because Gen. Taylor has showed no

disposition to forget party quarrels and often down party acrimony, but more because his leniency seems rather to have encouraged his enemies to renewed exertion, while it has disheartened his friends, ces and moderate policy, have alike failed to conciliate the opposition. Their presses villify him, their orators denounce him, and their ranks resound with exultations over every petty defeat sustained by his political upporters, Recent indications show the possibility of an anti-administration majority

n the next Congress. Does any one expect a conciliatory course will be adopted should such be the case? The loud boastings of majority their object will not be to save the country, but to embarass the administration condemnation of the American people.with which they use every power they can spare an opponent? No, not even the poor clerk of a borough market! Nor do they regard his having a large dependent family, They howl over "proscription," "It is the fangs reeking with the blood of their

It behooves our friends, then, as our opponents are up and doing, to throw aside the apathy of which we have been com-

plaining. Our work is but hall done. The administration we have put in power must be sustained. That that administration is and will be Whig, and theroughly Whig, therefore equally lies upon the party to suscourse of conduct must be destruction to both That this will be done we are convinced. The apathy of our party is but temontinued ascendancy.

WEST POINT ACADEMY .- The following entlemen have been invited by the Se age done to the cotton and wheat crops and tary of War, to attend the examination of the fruit trees, by the late severe cold wea- the Military Adademy at West Point :-John S. Abbott, Esq. of Maine ; Hon Horace Mann, of Mass.; Capt. Daniel Tyler Horace Menn, of Mass.; Capt. Daniel Tvler, of Conn.; Jerome Fuller, Esq. of N. York ; John L. Gow, Esq. of Penn.; Capt. H. B. ### The Tragedy of Nations. There is War in almost every quarter of

Europe, says the N.Y. Tribune. In Italy the Austrians These destroyed Brescia, the blood of her inhabitants staining the runs of their churches and their homes. Genoa has been bombarded for 24 hours by the Piedmontese troops for revolt and republicanism In Spain the old quarrel has resulted in a battle, with its horrors of dead and wounded. sand no great principle to shed lustre, on the protection in Wallachia, and Bern is master of Transylvania. The King of Prussia reiuses the German Crown, and all there is un-

certainty. France still plays the part of a spectator. Thus in doubt, struggle, suffering unspeakable, dies the Old Order that the New may rise from its ashes. Terrible, incomprehensible is the process, but let us believe that the result will be worth the pain.

A Man of True Spirit. The editor of the 'Clinton county Demo crat,' (loco) can't stomach the piteous whinings which his locofoco contemporaries are making over a score or so of removals. He thus expresses his contempt for "the mar-

tyred Stubios." "One Edward Stubbs, recently removed from a clerkship in the State Department at Washington, is out in a long address to the people setting forth his grievances and piti-tully begging the sympathy of the public for having suffered martyrdom at the hands of the Zacharyites. He says he has held the office 20 years We doubt whether the reasons which effected his removal were such as should govern a "no-party" President, but Gen. Taylor will do the nation a service if he removes every man from office who has held his place for 20 years, or e-ven halt outhat time. It is certainly bad policy to create a nest of government pau-pers at Washington, and the sooner General

Taylor rids the public offices of the leeches who have been begging pap for 20 years the better will it be for the onle. 🗉 Reader, is there anything so sickening as the cant of a political martyr, who has lost a good office ? How utterly absurd for a man, a free born American ciuzen, who should

glory in being the son of liberty, dependent upon no other mortal - rather how contempt-ible is if for a creature who should be a man to complain to the public that he is not con office !! Such a man is worthy only of a political guillotine. There is truth and force in this extract .-

It speaks what must be the feeling of almost every man-an irrepressible feeling of contempt for men, who, deprived of office, seek

to make their imagined grievances a - public press is the advocate of any one thing it lays claim to be, it scorns, as does the Clinton Governor and Family immedia of these pensioners of these pensioners of 20 and 40 years upon the public. Their impudence is only equalled by their cowardice -

### EXCITING FROM CANADA !

THE REBELLION COMMENCED! The ill-feeling which has been for some weeks brewing among the Canadians, has at length riperred into open rebellion, as

will be seen by the tollowing particulars received in a telegraphic despatch : MONTREAL Thurs. April 26, 1849-6 P. M. Affairs have reached a crisis sooner than was anticipated, in this city. At a late hour yesterday alternoon, the Governor General gloom. Denmark is defeated by Germany, and defeated where she has hitherto been the victor—on the sea. In Hungary the Austrians are more decidedly lovers than ever. Thirteen hundred of their dead strew a single field; Puchner has field to Russian drove off.

An egg struck his Excellency in the lace In a low home the excitement in the city ecame uncontrollable, and by seven o'clock printed notices of a mass meeting to be immediately held in the Champ de Mars, were issued. Pérsons were commissioned

to alarm the people, by driving through the streets in calashes with large bills. The fire bells were also brought into requisition At eight o'clock, a crowd of 4000 person. or more assembled, and, alter strong reso utions had been passed, the cry was raised raged multitude immediately rushed at a run through the streets, and by nine o'clock

the first stone was thrown thrown through a window into the midst of the Legislative Assembly, at the time in full session A constant shower was kept. up into the

windows, till everything was smashed. In the meantime, the members assembled in the lobby. A band of twenty-five of the lea ders of the mob rushed into the chambers. and one having placed himsell in the Speak er's chair, announced, "Gentlemen, the French Parliament is dissolved."

They then holted with the mace, to preent it to Sir Allan McNab, at Donnegana's hotel. The cry of fire was now raised, and it was soon found that the Parliament Hou-ses were in flames in a hundred places. The fire spread with great rapidity, and in half an hour the buildings were one sheet of

flame. The mob had now augmented to 7000, and the burning buildings were suiveyed with the most stoical indifference on the part of the spectators. At first the firemen part of the speciators. At this the thremen refused to play, and only attempted to save the buildings close by. Everything has been tost—all the archives and records of of the colonies for several hundred years.—

Not \$100 worth of property has been saved The multiary were called out, and were received with loud cheers on the part of the mob. No fresh disturbances, up to the pres-ent time, have taken place. The population, of all classes and creeds, had determined to standeby the acts of the past hight. The windows of Mr. Hicks<sup>2</sup> house were broken by a small section of the rioters. Military guards were placed during the night over all the houses of the ministers. No lives

were lost. Sir Allan McNab, the Hon. W. Badgely, and G. B. Turner, Esq., one of the editors of the Montreal Courier, were cut out of the matter. One hundred and forty-eight warrants for arrests were issued, among whom it is mentioned are the names of Messre. Montgo ery, Mc. They dare not work, and they are afraid to Howard and F. Smith. The St. Andrew' society met this morning to expel Lord El-gin as Pation of the Society. No news yet from the upper Province.

Five leading conservatives were arrested on a charge of arson, and after undergoing a short examination before the police magis trates, were remanded to jail till to-morrow A multitude numbering about 3000 accon panied them to prison, amidst continued and

deatening cheers. They were escorted by a guard of 100 men of the 19th Regiment. The whole garrison are under arms.
