4) 33010 83 Espositor try. And these three are the States in which Mechanics Institutes and Mechanic FRUITS OF AMERICAN GENIUS.

U. S. Letters Patent.

In a recent lecture by Prof. W. R. JOHNSON, before a Mechanics Institute in Baltimore, after discussing the general whole. subject of the dignity and advantage of labor, Professor Johnson proceeds with an examination of the Patents granted during the existence of the establishment by law and the specific character of the inventions. The following analysis will be found useful for reference, and to contain valuable information on a subject, in which it may be said, all interests of the community are deeply concerned.

"The patent laws of the United States have now been in existence 59 years .-From their commencement down to the 1st of January, 1849, the number of patents issued have been 16,208, and this number would doubtless have been much greater had the laws continued, as they were before 1836, when the system of examinations prior to the grant of letters patent, was established. Under that system, a large proportion of all the applications is now rejected: some for want of essential novelty, and others, for want of suitable care and ability in preparing the specifications and other documents. Notwithstanding this, it may be mentioned as a fact indicative of the high degree to which inventive genius is excited among us, that in 1848—exclusive of a few granted to foreigners—the number was

To what subjects all this ingenuity has been devoted, and how it has been divided among the different branches of art, is an inquiry at once interesting and proceeds and I will endeavor concisely to state the result.

Of the whole 16,208 patents issued, 1966 or 12.03 per cent have had for their object Agriculture, its instruments and operations. This as might be anticinated from the vast interest and importance of of that department of industry, is the urgent class.

To the manufacture of fibrous and textile substances, including machines for preparing wool, cotton, silk, fur and paper, 1579 patented inventions or 9.74 per cent of the whole number, have been devoted. For calorific purposes, comprising lamps, fire places, stoves, grates, fur-naces for heating buildings, cooking apparatus and preparation of fuel, 1479, or 9. 12 per cent of the whole number of patents have been granted. For the manufacture of metals 1834 patents;chemical purposes, 1501; for Hydraulics, including water wheels, &c. 976 patents; machines for lumber working, 950 patents; Implements for household purposes, 1615; mill gearing, &c. 986; Instruments for navigation, 615; Steam and gas Engines, 654; Leather manufactures, 558; Vehicles, cars, &c. 558;-Fine Arts, 475; Mechanical powers, 402; Manufactures of stone, pottery, 338:-Wearing apparel, 286; Mathematical and Surgical Instruments, 511; Warlike Implements, 230. And finally a miscel-

the first four classes, viz: Agriculture which yields food to man and beast, the manufacture of textile fibres, which in the United States.

Another remark is, that though this to new aggregate of all the patents issued, Agriture and textile fibres occupy the two highest places, yet when we compare shorter and more recent periods, as the the Evening. March 21. last two years, for example, we find that metallurgy and calorific purposes have both had higher proportions of the entire number of patents issued during that period, than either Agriculture or the textile fibre class. The multitude of important discoveries of minerals and metals in our country within that time, has turned a vast amount of inventive power in that direction. One should not, therefore he conveniend to learn that there is at fore be surprised to learn that there is at this moment a perfet rush of gold wash. THE NIAGARA SHOWER-BATH. ing machines into the patent office, all An entirely new Article for Shower-Baultimately bound, (like the rest of the world,) to California. The great and constantly increasing comsumption of consumption of coal, may in like manner, account for the large increase in late years of the calorific class of inventions.

Another remark worthy of attentions. Another remark worthy of attention is the small number of inventions which have had in view the implements of warfare; a very significant fact, which may serve to indicate that ours is, after all, essentially a peace loving nation.

In respect to the distribution of the inventions now annually patented in the United States, a few facts may not be without interest. During the years 1847 and 1848, out of 1165 patents granted, the State of New York received 381, or almost exactly, or almost 33 per cent of the entire number; of these the city of New York alone obtained 147, or 45 per cent of those granted to the State, and 15 per cent of all which were obtained in the whole Union. New York city is, therefore, doubtless the focus, where inventive genius is concentrated and ucing with the greatest intensity?

In the same two years, Pennsylvania received 177 patents of 15 per cent of on onlice of the contension of the per cent of the same two years, Pennsylvania received 177 patents of a tention is the first the fact of the same two years, in the same two the same transmission is the same time the water immediately on the bo

of the whole State, Philadelphia received

65, or 81 per cent.

Ohio obtained 82; Connecticut 18; Maryland 33; of, which last number, Baltimore glone had 24, or 72 per cent, being a larger proportion of those of her State, than that of any other city in the Union.

From this it appears that the three States of New York Fennsylvania and Massachusetts, heve; within the last two years contributed exactly, 60 per cent, of all the patentable inventions of the count.

Dalley's Magical Pain Extractor. THE ORIGINAL AND ONLY GENUINE

A positive cure for Burns and Scalds, Erysipelas, Rheumatism, Salt Rhe Sprain, Scald Hoad, Sore and In-flamed Eyes, Fever Sores, Sore Nipples Broken Breast, Cuts and Wounds, Chapped. Lips and Hands, and all cases of Inflammation where the

where the
parts affected can be reached, by Burns
No mutter how severe, are perfect and
harmless, if the "Pain Extractor" is at
hand to be applied. But mark! it must be the genuine Dalley. TO MOTHERS OF FAMILIES

It may with truth be said, that there is scarcely a family of small children to be found, but where accidents sometimes do occur, such as Burns, Scales, Cuts, Wounds and Bruises. Children are subject moreover to Week and Inflamed Eyes, Rheumatism, Erugtions, Sores, Swellings, and Inflamma-

Dalley's Magical Pain Extractor. That is to say, the Genuine article, (not the misnamed, spurious and connecteit extrac tors, that appear under various forms, names and disguises,) and which may be had at the Proprietor's only Depot in New York, and o' his authorized agents, (whese mames are in the papers and on my Fumphlets,) never fails in any of the above cases, no matter how see years they may be not along to extract the vere they may be, not alone to extract tur-pain forthwith, and effect a speedy and cer-tain cure—and thus save a vast deal of suffering. But, what is of the least importance especially to Girls-and it is to this that the attention of Mothers is particularly requested Dalleys Genuine Extractor, in the worst case of Burns and Scalds, leaves no scar, or unsightly mark behind, to remain, in after years a monument of sorrow and regret to affectionate parents. It has, moreover, and not unfrequently, been the means, in extreme cases, of preserving life itself,

No Family ought therefore to be without the Extractor for a day. Printed Paraphlets containing certificates of cures, and for the truth of which I hold myself Responsible, may be obtained, at my

myself RESPONSIBER, may be obtained, at my Depot 415 Brordway, New York, and on application to my authorized agents.

The fillowing from George E Pomeroy, Eq. the well known proprietor of the Express speaks for itself of the importance of the Pain Extractor to every Parent.

Express Office, Albany, Sept. 1.
Mr. Dalley, Dear Sir—With feelings of no ordinary pleasure I address you in relation to the benefit I have received from your invuluing Extractor. Lately, my little daugh the benefit I have received from your invaluable Pain Extractor. Lately, my little daughter, 6. years old, had a pitcher of boiling water turned into her bosom, her screams were dreadful, so that a crowd instantly gathered before the house to learn the cause of the terrible screams. I tore her clothes asundon and soon spread on your salve, and she was carried and laid upon a bed. She was soon relieved from her pains, and said, "Ma, I fell as, if I could laugh," and was soon in sweet sleep. She was scalded to a blister from the top of her shoulder over more than half her chest, and round under her arms. On the shoulder and breast it was very deep, yot from the Grat hour, she complained only when it was dressed. The sore healed rapidly, and there is no contraction of the muscles.

With many wishes, my dear sir, for your success in the sale of this mighty article.

I am yours, with respect ... G E POMEROY.

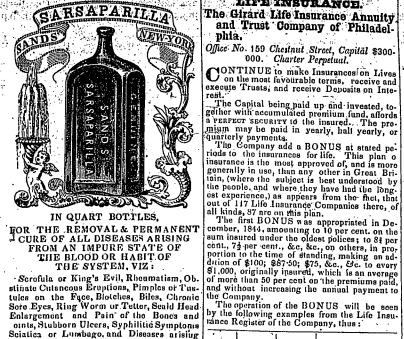

ESPECIAL NOTICE. Counterfeits! Beware of Counterfeits? Conterletts! Beware of Counterfeits?— They abound; and as I am cognizant of their positively dangerous and deleterwise effets, I herewish distinctly declare, that I will not hold myself Responsible for the effects of any Extractor, unless it it be procured at my own Depots—415 Broadway, New York, and 235 Chostautistreet, Philadelphia, or from my Au-thorized Agents.

MARK THE FOLLOWING! The Genuine Dalley Extractor, when applied, cools and affords almost instantaneous relief, whoreas the Counterfelt, and spurious Lolled, whereas the Counterfelt and apurious Extractors is risted and increase the pain.

Dr Dalley is the inventor of this truly wonderful remedy, and he never has nor never will communicate to any living man the secret of its preparation.

All Extractors, therefore, purporting to be Att. Extractors, there exore, purporting, to be the genuine Dalloy, that, are not made and nut up by him are base and vile counterfeits. H DALLEY 415 Broadway, New York, and 235 Chesnut atrect, Philadelphia. JAMES FLEMING Carlisle, Agent for

or Dropsy, Exposure or Imprudence in Life,
Also, Chronic Constitutional Disorgers.

Aug., Chronic Constitutional Disorgers.

In this preparation are strongly concentrated all the Medicinal properties of Sarsapanita.

La, combined with the most effectual aids, the most salutary productions, the most potent simples of the vegetable kingdom; and it has been so fully tested not only by patients themselves, but also by Physicians, that it has received their uncertified recommendations. received their unqualified recommendations and the approbation of the public; and has established on its own merits a reputation of the values of the values compounds bearing the name of Sarsaparilla. Diseases have been cured, such as are not furnished in the records of time as are not intrinsical in the records of time past; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleaness, and strengthens the founta n springs of lite, and infuses new vigor throughout the whole ani-

mal frame.
The diseases for which this article is recommended are those to which it is known from personal experience to be adopted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the sarsaparilla is adapted, but experiences proves its value; and every succeeding day is adding new trophics to its fame.

ANOTHER CULE OF SCROFULA.

The following striking and, as will be seen permanent cure of an invetegate case of Scrofula, commends itself to all similarly affected Southfoother, and its factors are investigated and six of the company, who are willing to wait upon them at any time.

Lewis Hven Secretary Michael Cocklin, Treasurer Agents—Rudolph Martin, New Cumberland mended are those to which it is known from

SOUTHFORT, Conn., Jan. 1, 1848.
Messrs, Sands: Gentlemen—Sympathy for
the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the scrotula on different parts of the body; the glands of the neck were greatly enlarged and her limbs much swollen. After suffering over a year and finding no relief from the remedies used, the disease attacked, and below the knee suppurated. Her physician advised it should be laid open, which was done, but without any permanent benefit. In this situation we heard of, and were induced to use SANDS Sarsadarilla. The first bott the produced a decided and fayourable effect. relieving her more than any prescription she had ever taken, and before she had used six pottles, to the astonishment and delight of her friends, she found her health quite restornd. It is now over a year-since the cure waeffected, and her health remains good, showing the disesse was thoroughly eradicated from the system. Our neighbors are all knowing to these facts, and think very, highly

from the system. Our neighbors are all knowing to these facts, and think very highly of Sands' Sarsaparilla.

Yours with respect,
JULIUS PIKE.

Extract from a letter from Mr. Ingraham, a gentleman well known in Delaware county.—
It commends itself to all similarly afflicted.
Gentlemen:—My wife has used several bottles of your Sarsaparilla, which: I. obtained of your agents in this place, from which such as received such pecial benefit, that I am induced to add mine to the abundant testimony now before the public in favor of its medicinal yirtues. Her father; mother, and manother relatives, have fallen victims to consumption.

Source to his tamily or heirs \$100 should he die in one year; or for \$2,90 he secures to them \$1000; orfor \$31 annually for seven years; or for \$20,40 paid annually during life, he, secures \$1000 to be paid when he dies. The insurer securing his own bonus, by the difference in amount of premiums from those charged by other offices. For \$49,50 the heirs would receive \$5000 should he die in one year.

Forms of application and all particulars may be had at the office of Free's Watts, Esq. Cartisle, Pa.

JULIUS PIKE. other relatives, have fullen victims to consump tion, and it was supposed that she too was in-clined the same way. She had several turns of raising blood, &c., and at length became so reduced that her life was despaired of from day to day. We were induced to try your sars-aparilla, as before mentioned, from the use of which her health has been restored; so that which her health has been restored; so that for the past year she has been able to attend OFFICE, No. 1633 Chesnut street, near Fift for the past year she has been able to attend to her domestic duties.

Respectfully yours

JOHN B. INGRAHAM

BRONCHITIS CURED. The following shows the virtue of the sars-aparilla in removing Bronchitis, a disease which, if not speedily arrested, leads to con-

NANTUCKET, Mass., Nov. 11th, 1848

Messa. Sanss—Gentlemen: I wish to make public, for the good of those afflicted with Bronchitts, the healing properties of your Sarsaparilla. My wife suffered for twenty months in such a manner as is not easily described; at times she was not able to speak above a whisper, and when exposed to the coldair, it occasioned something like spasma in the threat, the effect-of which was felt in the complaint was aitended with a dry could family and the complaint was aitended with a dry could family and the complaint was aitended with a dry could family and the constant is a specific of the constant in t compaint was altended with a dry cough, produced by the constant irritation and inflammation of the throat. By the use of your SARSAPARILLA she was perfectly cured, it being now more than three months since she felt any symptoms of the disease.

Yours, with respect.

Yours, with respect, GEORGE C. HOEG.

Gontlemen.—I have cured a negro boy of mine with your sursuparillo, who was attacked with Scrolula, and of a scrafulous family.

Gentlomen,—I have cured a negro, boy of mine with your sarsaparillo, who was attacked with Scrotula, and of a scrafulous family.

Yours truly

N. W. HARRIS.
Fredaticks Hall, Va., July 17, 1848.

SNDS SARSPERILLE.—It seems almost, unnece seary to kirect attention to an article so well known, and so deservedly popular, as this preparation, but patients often who wish to use the extract of sarsesparilla are induced to try worthless compounds bearing the mame but contaming little or noise of the virtue of this valuable tropt; and we think we cannot confer a greater benefit on our readors than in directing their attention to the nivertisement of Messrs. Sands in another column. The bottle has recently been centarged to hold a quart and those who wish a really good attention to the noty the content of the really good attention to the nivertise of those and known and at the present time more than any other, perhaps, is this medicine useful, in preparing the system for a change of conson.—House Journal of the present time more than any other, perhaps, is this medicine useful, in preparing the system for a change of conson.—House Journal of the present time more than any other, perhaps, is this medicine useful, in preparing the system for a change of conson.—House Journal of the prepared and sold, wholesale and retail, by A. B. & D. SANDS, Druggists and Chemists, 100 Fulton street, corner of William, New, York? Sold also by Druggists genorally throughout the Juggists and Chemists, 100 Fulton street, corner of William, New, York? Sold also by Battes and Canada Price 4, perhaps to make the prepared to for sold also by S. ELLIOTT, sols agent for Carlisle.
