A FREE TRADE NUT. Massachusetts has nearly 800,000 in nabitants is rich in labor wealth and cousin lim, there aim nothing popured prosperity—her people are all producers with titin about in our settlement in a long on manufacturers. They live in peace and plenty and command the attention not only of the people of neighbouring States, but of foreign countries also. Of them her beople buy the raw material and manufacture all they consume, prohabitants; is rich in labor, wealth and fit by their own industry, reap the earn, les—such another tease as the gale got inter, ings of those who bow to their skill and war delightful to contemplate if the boy hanterprise, pocket the interest upon all kept a askin, one another what in the interest upon all capital, draw within her borders the cream of enterprise, talent and learning, and reward all according to their dues, wing the world around them nothing, and see with a clear and unclouded vision, nought but success and prosperity

Why is this? Thus:

Now take a Western state; Illinois, for instance. She is rich in labor, natuperity. Her people are all producers from the soil, but nothing from manufactures. They live in fear only of crowded corn markets, and accept of the purchase of her commodity by people from sister States as a boon or gratuity. Of others she buys all her manufactured goods, expends the profit of her own la-

She sells wheat at 60 cents a bushel, and takes her pay in 6 yards of sheeting at 10 cents per yard. She shells corn for 20 cents a bushel, and takes her pay her pay in Lyard of broadcloth.

agriculturist in Massachusetts receives yards of sheeting for a bushel of wheat, while the Illinoian receives but 6; the difference is, say 3 or 400 per cent. The first receives 1 yard of good sattinett for a bushel of corn; the latter only one-seventh of a yard; or a difference of 600 to 700 per cent. The first extra occasions, 'ef that little Mrs. Allen aint receives 6 yards of broadcloth for a barekill to the mother of the Grasht!' rel of beef, while the latter gets only one yard; or a difference of 600 per cent.

But, says a knowing one, the Massachusetts man cannot raise the bushel of wheat, corn, &c., to buy the 400, 500 or 500 per cent. more in difference ! For the sake of argument, grant it, if you please, that he cannot equal you. Yet his own family, his son and daughter, receive more profit for their labor in manplacturing the 25 yards that BOUGHT one bushel of wheat FROM YOU, than you did in growing I bushel for the 6 yards you RECEIVED, by two hundred per cent.;while the difference between the intrin-

freight or transit men. In other woods, bring machinery, and consumers to tend them to your own town, manufacture your own goods, and you, too, will receive 25 yards of sheet-ing for a bushel of wheat; for the wheat will have advanced in price, having plenty of consumers near by, while the cum up missin.'-Well I'm of the opinion i heeting, having no freight and speculator's fees to pay, can be sold for five ekill to the President's election. Every cents.

A great and important improvement is made it this Shower-bath over all others, by throwing the water immediately on the body, without vetting the head, unless at the will or pleasure of the bather; but a greater point is gained by theing enabled to bathe with warm water, which is other Shower-Bath is adapted to—and most of all the Bath can be medicated without injury to the hair,

Many persons cannot take a cold bath—their case is met in this as they can regulate the temperature of the water to suit their wish; and commence bathing at any season of the year vithout any unpleasant result. Ladies can have the advantage of bathing without wetting the head or covering the same.

The arrangements are simple and complete, and not liable to get out of order. The Bath child to the tallest person. When the door, is closed, the fixtures are hid and the outside appearance is that of a neat piece of furnitures. They have received the approbation of sevell medical gentlemen—others are requested to all and examine them. Manufactured by the latentee. EPHRAIM LARRABEE,

THE Proprietors have spent much time
in bringing this preparation of Sarsacantlla
to its present state of perfection; and the experience
of fourteen years has furnished them the most ample opportunity te study, in their various forms, the diseases for which k is recommended, and to adapt it exactly to their relief and cure. Pa-tients who wish a realized good Medicine are invited to give it a trial, and satisfy tionts who wish a grally good Medicine are invited to give it at rini, and satisfy themselves of its superiority, and the invaluable property it possessed arresting and cuiring disease. The bottle has been enlarged to hold ONE QUART, and in its present improved form may safely claim to be the EFF and character Medicine of the ago. Its progress to the fame it has attained may be traced by a long line of facts and cuires, that stand as landmarks and beacons for the invalid, pointing the way to the haven of health.

The following is from Col. S. G. Taylor, a gentleman of high standing and extensive acquaintance in the Southern states, and lately appointed Consult to New Granada:

acquaintance in the Southern states, and lately appointed Consul to New Granada acquaintance in the Southern states, and intely appointed Consul to New Granada:

Messys, A. B. & D. Sands:—

Gentlemen,—Having used, and witnessed the effects of your excellent preparation of Sarsaparilla on different persons in various parts of the Southern country, viz., Virginia, Louisiana, Tokas, and Mexico, I feel much pleasure in stating the high opinion entertained of its great medicinal value. In my own case it acted almost like a clarm, removing speedily the enervated state of the system, and exoiting, in the most agreeable manner, a tonic and invigorating influence.

Your Sarsaparilla is highly approved and extensively used by the U. States army in Mexico, and my cousin, GEN. ZACHARY TAYLOR, has for the past ave years been in the habit of using it, and recommends the same; ine and myself adopted the article at the same time, and if is now considered an almost indispensable requisite in the army. In conclusion I would say, that the better it is known the more highly it will be prized, and I trust that its health-restoring virtues will make it generally known throughout the length and breadth of our widely-extended country.

Yours very respectfully,

S. G. TAYLOR,

Vours very respectfully,

U. S. Consul to New Granada.

REMARKABLE CURE OF SCROFULA.

REMARKABLE CURE OF \*\*SCROFULA\*.

\*\*Southport\*, Conn., January 1, 1848.

\*\*Messrs. Sands:—Gentlemen—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sabraparilla in the case of my wife. The was severely afflicted with the Scroula on different parts of the body: the glands of the neck were greatly enlarged, and her limbs much swollen. After suffering over a year, and finding no relief from the remedies used, the disease attacked one leg, and below the knee suppurated. Her physician advised it should be laid open, which was done, but without any permanent beneft. In this situation, we heard of, and were induced to use Sands, Sarsaparilla. The first bottle produced a decided and favorable effect, relieving her more than any prescription she had ever taken; and before she had used six bottles, to the astonishment and delight of her friends, she found her health quite restored. It is how over a year since the our was effected, and how health remains good, showing the disease was thoroughly cradicated from the system. Our neighbors are all knowing to these facts, and think Sands Sarsaparilla a great blessing to the age.

\*\*Yours with respect.\*\*\*

New York, May 10, 1849.

Messes. A. B. & D. Sands:—

General Research Services of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears, and at others would break out is different-parts-of-my-face and head. These continued until my throat, face, and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this lime I had several attacks of pleurisy and other diseases. I consulted difforth physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well; the sores are all healed; and I attribute the result entirely to the effects of your valuable medicine.

Yours, with respect and gratitude.
