DECLARATION OF INDEPENDENCE. IN CONGRESS, JULY 4TH, 1776.

sume among the powers of the earth, the seperate and equal station to which the tions. laws of nature and of nature's Gon entitles them, a descent respect to the opinions of mankind requires that they should declare the causes which impel them to

that they are endowed by their CREATOR ruler of a free people. with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness. That to secure lature, to extend an unwarrantable jurisdu these rights, governments are instituted among men, deriving their just powers the circumstances of our emigration and from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish would inevitably interrupt our connections. it, and to institute new government, laying its foundation on such principles, and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate, that governments long established, should not be changed for light and transient causes; and, accordingly, all experience has shown that mankind are more disposed to suffer, intentions do, in the mane and by the authorisms. for light and transient causes; and, acwhile evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, a long train of abuses and usurpations, a long train of abuses and usurpations, solved from all allegiance to the British pursuing invariably the same object, evinces a design to reduce them under tween them and the state of Great Britain absolute design to reduce them and the state of Great Diagna, it is their right, it is and ought to be, totally dissolved;—
and to provide new guards for their future security. Such has been the patient sufferance of these colonies; and tient sufferance of these colonies; and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britatn, is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a candid world.

He has refused his assent to laws, the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation until his assent should be obtained; and when so suspended he has utterly ne-

glected to attend to them. He has refused to pass other laws, for the accommodation of large districts of people, unless these people would relinquish the right of representation in the gislature—a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies, at places unusual, uncomfortable, and distant from the depository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

A great and important improvement is made in this Shower-bath over all others, by throwing the water immediately on the body, without wetting the head, unless at the will or pleasure of the bather; but a greater point is gained by being enabled to bathe with warm water, which no other Shower-Bath is adapted to—and most of all the Bath can be medicated without injury to the hair.

Many persons cannot take a cold bath—their case, is met in this as they can regulate the temperature of the water to suit their wish, and commence bathing at any season of the year without any unpleasant result. Messrs. A. B. & D. Sands:—

Gentlemen.— New York, January 7, 1846.

It is a charm, removing speedily the enervated state of the system; and exciting, in the most agreeable manner, a tonic and invigorating influence.

Your Sarsaparilla is highly approved and extossively used by the U. States army in Mexico, and my cousin, GEN. ZACHARY TAYLOR, has for the past ave years been in the habit of using it, and recommended the same: he and myself adopted the article at the same time, and it is now considered an almost indispensable requisite in the army. In conclusion I would say, that the better it is known the more highly it will be prized, and it trust that its health-restoring virtues will make it generally known throughout the length and breadth of our widely-extended country.

Yours very respectfully,

S. G. TAXLOR,

U. S. Consul to New Granada.

\*\*REMARKABLE CURE OF SCROFULA.

Southport, Conn., January 1, 1848.

Messrs, Sands:—Genflemen.—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the Scrotula on different parts of the body; the glands of the neck were greatly enlarged, and her limbs much swollen. After suffering over a year, and finding no relief from the remedles used, the disease attacked one leg, and below the knee suppuraced. Her physician advised it should be laid open, which we done, but without any permanent benefit. In this situation we heard of, and were induced to use Sands Sarsaparilla. The first bottle produced a decided and favorable effect, relieving her more than any prescription she had ever taken; and before she had used six bottles, to the astonishment and delight of her friends, she found her health romains good, showing the disease was thoroughly cradicated from the system health romains good, showing the disease was thoroughly cradicated from the system blessing to the age.

Yours with respect;

JULIUS PIKE.

Extract from a letter received from Mr. N. W. Harris, a gentleman well known in Louisa county, Va.:—"I have cured a negro boy of mine with your Sarsaparilla, who was attacked with Scrofula, and of a scrofulous family. Yours truly, "Fredericks Hall, Va., July 17, 1848."

The following testimony from Rev. John Grigg, late-Rector of the Chirch of the Crucifixion in this city, commends itself to the attention of the afflicted. Numerous ortificates of cures of various diseases effected by this medicine are almost daily received:—

JOHN GRIGG. and efficacy, hoping that others may be induced to make a trial of it.

New York, May 10, 1848.

Messis, A. B. & D. Sands:—

Gentlement—Feelings of gratitude induce me to make a public acknowledgment of the benefit I have derived from the use of your Sarsaparilla. I have for several years been afficied with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears, and at others would break out in different parts of my face and head. These continued until my throat, face, and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several attacks of plouriey and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla. I am now well the seres are all healed, and I attribute the result entirely to the effects of your valuable medicine.

Yours, with respect and gratitude, PHEDE CAHOON.

Being personally acquainted with the person above named, I believe her statement to be correct.
