The love of justice and the love of country plead equally the cause of these people, and it is a mortal reproach to us that they should have pleaded it so long and in Tenia Carlines, (Scald-Heads.) and thus far with the happiest effect. From those of the former generation who were in the fulness of age when I came into in the fulness of age when I came into public life, which was while our controversy with England was on paper only. I saw that nothing was to be hoped.—
Nursed and educated in the daily habit of seeing the degraded condition, both bodily and mentally of those unfortunate beings, not reflecting that that degradabeings, not reflecting that that degradation was very much the work of themselves and their fathers, few minds had vet doubted but that they were as legitimate subjects of property as their horses or cattle.

the principles which they invoked for themselves. In the first or second session of the Legislature after I was a member, I drew to this subject the attention of Colonel Bland, one of the oldest, ablest, and most respected members, and he undertook to move for certain moderate extensions of the protection of the laws to these people. I seconded his motion, and, as a younger member was spared more in the debate; but he was denounced as an enemy to his country, and was treated with the greatest indecorum:

From an early stage of our Revolution other and more distant duties were assigned me, so that from that time till my return from Europe in 1789, and I themselves. In the first or second ses-

As to the method by which this difficult work as to be effected in permitted to be done by ourselves, I have seen no proposition so expedient on the whole, as that of emanopation of those born after a given day, and of their education and expatriation at a proper age. This would give time for a gradual extinction of that species of labor, and substitution of another, and lessen the everity of the shock, which an operation so fundamental dannot fail to produce. REMARKABLE CURE OF SCROFULA.

Messrs. Sams:—Gentlemen—Sympathy for the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the Scrothia on different parts of the body; the glands of the neck were greatly enlarged, and her limbs much swoller. After suffering over a year, and finding no relief from the remedies used, the classes attacked one-leg, and below the knee suppurated. Her physician advised it should be laid open, which was done, but without any permanent benefit. In this situation we heard of, and were induced to use Sampy Sarsaparilla. The first bottle produced a decided and favorable effect, relieving her more than any prescription she had over taken; and before she had used six bottles, to the astonishment and delight of her friends, she found her health quite restored. It is now over a year since the cure was effected and term health remains good, showing the disease was thoroughly cradicated from the cour meighbors are all knowing to these facts, and think Ganns' samplerilla a great blessing to the age.

Messis, A. B. & D. Sands:

General Research of the benefit have derived from the use of your Sarsaparilla. I have for several years been afflicted with scrofulous swellings in my head, which at times would gather and discharge at my throat, nose, and ears, and at others would break out in different parts of my face and head. These continued until my throat, face, and head were almost one complete sore, and for a long time I was so hoarse that it was with the utmost difficulty that I could speak above a whisper. During this time I had several attacks of pleurisy and other diseases. I consulted different physicians, and tried various remedies, but received no benefit until I commenced using your Sarsaparilla.
