has manifested itselt in the visitation of a on the exertions of the State Treasurer, it teatlul pestilence, which is spreading its rav-ages throughout the land, it is fitting that a people, whose reliance has even been on His PROTECTION, should humble themselves beore HIS THRONE; and, while acknowledging past transgressions, ask a continuance of Divisit MERCY. It is therefore, carnesily recommended

that the first Friday in August be observed throughout the United States as a day of Tasting, Humitation and Prayer. All ousi-ness will be suspanded in the various branchservice on that day; and it es of the public is recommended to persons of all religious denominations to abstain, as far as practicadenominations to abstant, as for as practica-ble, from secular occupations, and to assem-ble in their respective places of Public Wor-ship, to acknowledge the INFINITE GOOMESS which has so long, whiched over our exis-tence as a nation, and so long crowned us with manifold blessings; and to implore the ALMIGITY, in His own good time, to stay the destroying hand which is now lilted up against us. THE NATIONAL FAST .- Proclamations. cordially seconding the recommendation, by the Chief Magistrate, of the observance throughout the United States of a day of fasting, humiliation, and prayer, have already been issued by the Governors of N. York, New Jersey and Connecticut; the Rt. Rev. Bishops of Pennsylvania and Delaware; the Moderators of both branches of the Presbyterian church; the President of the Reformed Dutch Synod, and from a number of other

sources. The Knavish "Martyrs!" Since the exposure of the defalcation o Ely Moore, in New York, other similar cases of rascality by office-holders under the Polk administration are daily coming to light! The Washington Republic of Satur-

day gives the subjoined instances : "We understand that Patrick Collins, Surveyor of the Port of Cincinnali, recently-re-moved by President Taylor, proves to be a defaulter to a large amount. His defalcation s been exposed by the exercise of the removing and appointing power. It has been seasonably exposed. If he had been suffer-ed to remain in office a lew months longer, case would have been that of one President Taylor's officers. The adoption and continuance in office of an appointee of the late administration is equivalent to an original appointment—as far as Executive responsibility is concerned." Again:

"We published yesterday a statement of the defalcation of Patrick Collins, the late Surveyor of the Port of Cincinnati, removed by President Taylor. It is now our painful ity to record the defalcation of Nathaniel at Marseilles, in France. He is a defaulter to the tune of \$155,508 48, and suit has been commenced against him for the amount. Don't the people think it would be advisable for Gen. Taylor to go on with the "proscription" of such fellows?

POur transcendental neighbor of the 'Democrat' devotes a very heavy leader of over a column to prove that 'Whiggery has miştaken its mission.' Our neighbor may think so, but he will certainly admit

This is a proud triumph for the Whig Administration of Pennsylva-At a season, when the PROVIDENCE of Gop nia, and while it reflects the highest credit

will inspire the people of the State with re. newed confidence in the Executive manage ment of our public affairs. To show under what adverse circumstances this financial triumph has been accomplished, we quote the subjoined remarks of the N. American': THE STATE INTEREST. For the first time since the resumption of the payment of the interest upon her State Debt, Pennaylvania will, on the 1st of August, redeem her hon-

or without having recourse to, a temporary loan to make up deficiencies. This is most gratifying, and in all points of view does exceeding oredit to Mr. Ball. our worthy State Treasurer, who has relaxed no effort to bring about this state of things so honorable to the Commonwealth. It must be borne in mind that he has accomplished it in the face of heavy drafts upon him by the Canal Commissioners, amounting day alter day, for months logelher, to over \$4000 per day. During the period from the elev-enth April to July 3d, he met drafts for the *public works alone*, to the unsually large a-mount of \$300,101.92—dratts issued at a time when it was known he was straining every nerve to sustain the pledged faith of the State, and hurried in by a locoloco ma-jority of the Board of Canal Commissioners in a manner which permitted no other in-lerence than that of a deliberate attempt to

lerence than that of a deliberate attempt. to cripple him. What they had failed to attend to at the just lifte, when a Locoldco admin-istration was in power, they have burthened the present one with, and every citizen must be thankful that the bad design has been frustrated. The honor of the State will be sustained and its obligations redeemed, and in par funds, which has not been accomplish ed by any previous administration.

This payment of the interest may be well referred to by Whigs as a proud exhibition of the regard for the public interests which is ever manifested by Whig officers, and of the prosperous results which invariably attend a Whig administration of the government .---But it is not all of which the friends of Gov. Johnston may justly boast, as the happy fruits of his policy. In the following parallel drawn by the West Chester Register, we have

facts equally creditable and gratifying : "The difference in the effect of the policy of the two great parties, in the Union, is no where more observable than in the public credit. We can all remember that in Gov Ritner's time the State stocks were above par, and that as soon as he was turned out o office and locoloco succession established, the public credit got worse and worse, till in Porer's time the State credit sunk six per cent State stocks could be had in abundance a forty cents in the dollar and few were willing to tisk them at that. Then came locotoco je pudiation. No money was provided for the payment of the interest of our debt, and three or four payments of the interest were susper ded, to the great distress of thousands and the absolute rnin of many. A happier era has ar rived-a Whig Governor is elected, confidence is restored, and in the first year of his administration, we actually find him obtaining by, late temporary agent of the U. States a premium for a loan to the State, a thing that

had not been heard of during the last ten years of the administration of his locofoco predecessors, and will not be likely to be heard of soon again, should his opponents obtain the ascen-dancy at the expiration of his term. This shows the difference between Whig and Loco policy-the one is conservative, the other destructive ; the one cherishes public credit;

he effect of the other is to destoy it." After reading the above statements let the people contrast the operation of the Executive and Treasury departments of the governent, which are in whig hands,
