three-races: 1. The Magyars, or Hungarians, par excellence. 2. The Sclavonians, of Scalves, comprising various tribes, as the Schwarz, Croates, Sorbs, &c. 3. Germans. The Schwarz, Legal and the mining districts. The Slavons, 482,903; Bilgarians, 12,000; French 6, 150; Grosks, 5,680; Armenians, 3,798; Montengrins, 2,830; Clementins, 1,600; Jews, 244,035;—12,880,406. The chief settlement of the Magyars are the plains west and east of the Danube. The Germans are for the most part of Saxon and Laubian descent, and dwell on the Austrian frogeries and the mining districts. The Slavons, who are supposed to be the oldest settlers, and white the Ruitzes, who proposed to be compared to the Carpathians. The Schocks inhabit Sclavonia; and with the Ruitzes, who proposed to be compared to the Carpathians. The Schocks inhabit Sclavonia; and with the Ruitzes, who proposed to Sclaves. Many of this race took shell. province as well as the district called Beathnat, lying between the rivers Danube, Thiess,
and Arad and Transylvania, are of the Serbian
stock of Sclaves. Many of this race took shelter in Hungary from the persecution of the
Turks, and settled in the country. The Croats
inhabit the district of Broatia. The Wends,
are of the Styrian tribe of Sclaves. The Walaquas or Wallaks are supposed to be of SclavaRoman origin, the descendants of the Roman
colonists who peopled Dacia in the time of
Traion.

colonists who propose Trajon.

The statistics of the religious faith of these populations, according to the tables of 1642, for the whole kingdom, including Transylvania-ore these: Roman Catholics, 6,444,418; (non, united,) 2,603,050;—3,982,777. Protestants, Lutheran.) 1,014,518; (Calvenists,) 1,949,606 2,964,124; Unitarians, 45,769; Jenny 258 882.—[Weiminster Review.

Artificial Gems.—False Pearls are made by dissolving the scales of small river fish in water of ammonia, which solution is dropped into the inside of hollow glass beads, and then allowed to dry. These are called paste beads, but the French have a way of counterfeiting the real pearl, so skillfully as almost to deceive a connoiseur. The basis of all artificial gems is a fusible glass called Strass paste. It is made of rock crystal six ounces, red lead nine ounces, pearl ash three ounces, boracle acid half an other, and arsenic five grains. This is mixed, being first ground, then fused in a Hesstan crucible and kepitjused for twenty-four hours, and defended to be what the arms and residence of the person orders and kepitjused for twenty-four hours, and the name and residence of the person ordering the red watch, for which orders will be taken, and the name and residence of the person ordering put on if requested. a fusible glass called Strass paste. It is made of rock crystal six ounces, red lead nine ounces, pearl ash three ounces, boracio acid half an ounce, and arsenic five grains. This is mixed, being first ground, then fused in a Hessian crucible and kept fused for twenty-four hours, and then left to cool gradually. The following artificial genes are made of this Strass paste combined with different substances for the various

Colors.
FOR AMETHYST.—Strass pasts one poun

ntimony two itundred and ten grains, and oxbe of antimony two grains. By adding two
rains of cassius purple a more beautiful garnet
below Race, Philadelphia. ap=8'49",
s produced.
Orax.—Strass paste ten pounds, burnt bones
along, you will then be sure to get into the right

Runy.—Strass paste sixteen ounces, cassius purple one hundred and sixty-eight grains, the same amount each of peroxide of iron, and of golden sulphuret of antimony, and of manganese burned with nitre, along with two ounces of rock crystal. A small amount of manganese with five ounces of firass paste, makes a givery of the burney of the same of the

with five ounces of Strass paste, makes a very fine ruby.

SATPHIRE.—Strass paste one ounce, cobalt sixty-eight grains. Fuse for thirty hours. By adding a few grains of manganese a different shide is produced. This mixture must be carefully mixed before fusion, and left thirty hours in the fire.

All these artificial gems are fused in, luted Hessian crucibles and kept in the fire for twenty-five to thirty hours. They are then suffered to cool gradually.—Scientific Incrion.

no other Shower-Bath is adapted to—and most of all the Bath can be medicated without injury to the land of lan

ate contiguous, and are in the immediate vicinity of tide water; consequently, the from made from them can be laid down at as low a cost for transportation as the iron from most of our furnaces. We enjoy, therefore, no protection by virtue of our position, and all that we have in by virtue of our position, and all that we have in by virtue of the duty of 30 per cent. at valories, which is by no means equal to the deviabilities enjoyed by the English manufacturer; in the law rate that his money and this labor, dots blim, compared with the American major feetures; for it must be borne in mind that the

mensured by what is necessary to feed and clothe him. Americans, at present, will not work at these wages; they will turn their hand to something else, for his idle, rather. The result is, that our iron manufacturers must quit their business; or fall. Only these two alternatives are presented to them, and we regret to say, that one of the two is being followed with great; rapidity:

measured by what is necessary to feed and dolthe him. Againcians, ist. present, will not vork at these wages; they will turn their band to semesting else, or, lie idle, rather. THE NIAGARA SHOWER-BATH. An entirely new Article for Shower-Bathing, with warm or cold Water.

30-THIS Bath took the premium at the Fair of the Franklin Institute, Philadelphia. October 1848, the only Bath that over took a premium at that institute and also took the first premium at the Fair of the Maryland Institute, Novem-ber 1848. ber 1848.

A great and important improvement is made in this Shower-bath over all others, by throwing the witer immediately on the body, without wetting the head, unless at the will or pleasure of the bather; but a greater point is gained by being enabled to bathe with warm water, which no other Shower-Bath is adapted to—and most of all the Bath can be medicated without injury to the bair.

IN QUART BOTTLES,

FOR THE REMOVAL & PERMANENT
CURE OF ALL DISEASES ARISING
FROM AN IMPURE STATE OF
THE BLOOD OR HABIT OF

THE SISTEM, VIZ:

Scrofula or King's Evil, Rheamatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Blies, Chronic Sore Eyes, Ring Worm or Tetter, Seald Hoad Enlargement and Pain of the Bones and joints, Stubborn Ulcers, Syphilitic Symptoms, Aciatica or Lumbago, and diseases arrising, from an injudicious-use of Mercury, Ascites or Dropsy, Exposure of Imprudence in Lifer Also, Chronic Constitutional isorders.

In this preparation are strongly concentrated all the Medicinal properties of Sansaparalla.

LA, combined with the most effectual aids, the most salutary productions, the most potent impressed in the service of the vegetable kingdom; and it has been so fully tesfed not only by patients themselves, but also by Physicians, that it has received their unqualified recommendations and the approbation of the public; and has established on its own merits a reputation for VALUE and EFFICACY far superior to the various compounds bearing the name of Sarsaparills. Issues have head stilled and the Sarsaparills. THE SYSTEM, VIZ: the various compounds bearing the name of Sarsaparilly, iscases have been curred, such as are not surnished in the reports of time past; and what it has already done, for the trousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanes, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame.

mal frame.
The diseases for which this article is recommended are those to which it is known from personal experience to be adopted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the surseparilla is adapted, but experiences proves its value, and every but experiences proves its value, and every succeeding day is adding new trophics to its

ANOTHER CULE OF SCROFULA. The following striking and, as will be seen permanent cure of an inveterate case of Scrofula, commends itself to all similarly affected

SOUTHFORT, Conn., Jan. 1, 1848.
Measrs, Sands: Gentlemen—Symputhy for
the afflicted induces me-to inform you of the the afflicted induces me to inform you of the remarkable cure effected by your Sarsaparilla in the case of my wife. She was severely afflicted with the serofula on different parts of the body; the glands of the neck were greatly enlarged and her limbs much swellen. After suffering over a year and finding no relief from the remedies used, the disease attacked, and below the knee suppursted. Her physician advised it should he laid open, which was done, but without any permanent benefit. In this situation we heard of, and were induced to use SANDS Sarsadarilla. The first bottle produced a decided and favourable effect, relieving her more than any prescription should ever taken, and before she had used six bottles, to the astonishment and delight of bottles, to the astomshmont and delight of her friends, she found her health quite restors ed. It is now over a year since the cure was effected, and, her health remains good, showing the disease was theroughly cradicated from the system. Our neighbors are all knowing to these facts, and think very highly

of Sands' Sarsaparilla.
Yours with respect JULIUS PIKE. Extract from a letter from Mr. Ingraham, a gentleman well known in Deliware county. It commends itself to all similarly afflicted. Gentlemen :- My wife has used several botties of your Sarsaparilla, which I obtained of your agents in this place, from which su-has received such pocial benefit, that I am inluced to add mine to the abundant testimeny now before the public in favor of its medicinal virtues. Her father, mether, and many other relatives, have fallen victims to consump-

tion, and it was supposed that she too was inclined the same way. She had several turns of raising blood, &co, and at length because so reduced that her life was despaired of the find day to day! We wore induced to try your Sarsaparilla, as before injutioned, from the use of which her health has been restored; so that for the past year she has been restored; so that for the past year she has been able to attend to her domestic duties.

Respectfully yours

JOHN B, INGRAHAM

BRONCHITIS CUED.

The following shows the virtue of the sarsaparilla in removing Bronchitis, a disease which, if not speedily arrested, leads to consumption. It allays spasmodic action, changes the secretone; and by its tonic and alternity proporties, removes the unhealthy action, and ion, and it was supposed that she too was in-

the secretions; and by its tonic and alterative proporties, removes the unhealthy action, and the patient is restored to health.

Nantoury Mass, Nov. 11th, 1848.
Clessrs. Sanss.—Goutlemell I wish to make public, for the good of those afflicted with Bronchitis, the healing properties of your Sarsaparilla. My wife suffered for twenty months in such a manner as is not easily described; at times she was good, able to speak above a whisper, and when exposed to the celd air, it occasioned something like spasms in the throat, the effect of which was felt in the erre and over country tests to flow. That the throat, the effect of which was felt in the cars and cyes, causing tears to low. The complaint was altended with a dry cough, produced by the constant irritation and inglammation of the throat. By the use of your SARSAPARILLA she was perfectly cured, it being now more than three months since she felt any symptoms of the disease.

Yours, with respect, GEORGE C. HOEG.

Extract from a letter received from Mr. N. W. Harris, a well known in Lights county, Gentlemen,—I have cured a negro hoy of mino with your sarsaparillo, who was attacked with Scrotula, and of a scrafulous family.

Yours truly N. W. HARRIS.

Yours truly for N. W. HARRIS.

Fredelicks Hall, Va., July 17, 1848.

Snps' Sarspurille.—It seems almost unnesseary to kirect attention to an article so well known, and so descredly popular, as this preparation, but patients often who wish to use the extract of sarsaparilla are, finduced to try worthese compounds bearing the name but containing little or none of the virtue of this valiable root, and we think we cannot confer a greater, benefit or aim readers than in directing their attention to the advertisement of Messrs, Sands, in another column. The bottle has recently been enlarged to hold a quart and those who wish a really good article will find concentrated in this all the medicalinal value of the root. The experience of thousands has proved its efficacy in curing the various diseases for which it is recommended and at the present time more than any other, perhaps, is this medicine useful; to preparing the system for a change of season.—Hour Journal, Sept. 1848.

Prepared and sold, wholesale and retail, by A. B. & D. SANDS, Druggists

repared and sold, wholesale, and retail, by A. B. & D. SANDS, Druggists and Chemists, 100 Fulton street, corner of William, New York, Sold also by Druggists generally throughout the United Bulles for \$5. Sold by SELLIOTT, sole agent for
