

PLOUGH

The Society met on the 2nd of October, at the residence of the President, Mr. W. M. Morrison, at the following persons were elected, viz: President—FREDK. WATTS, Vice Presidents—Andrew Frazer, Daniel C. Moore, Thomas Bradley, Skiles Woodburn, George H. Baker, Wm. M. Henderson, Managers—Christian Tittel, David Scoby, Wm. L. Line, Jr., Wm. Schiffer, Saml. Myers, Geo. Brindle (of Monroe), Jos. Culver, Robert Bryson, Robert G. Young, Sec. Sec'y—Richard Parker, Cor. Sec'y—John H. Weaver, Treasurer—John B. Parker.

The Ploughing Match.

The Society met at the ground selected for the ploughing match. There were but five ploughmen entered, viz: Mr. J. Plank, with a centre-draught plough, constructed by George Brindle, of Monroe township, Mr. George Brindle, of N. Middleton, with a plough, Mr. Abraham Bradley, with a plough, Mr. John Graham, with a centre-draught plough, patented by Moore & Sinclair, Mr. George Brindle, of Monroe, with a plough.

The first premium was awarded to Mr. Plank, the second to Mr. George Brindle, of North Middleton, and the third to Mr. Abraham Bradley.

Agricultural Implements.

The committee on Agricultural Implements respectfully report—That their attention was particularly drawn to Pearson's Seed Drill. Of the very many inventions to deposit seed in the ground, public opinion seems to have settled down upon Pearson's and Pearson's Drill, as being the only ones which will answer well the purpose for which they are intended, either of which the committee know will do the work well. There is some difference of opinion as to which of the two is the better one of these two. Upon a careful examination we are of opinion that "Pearson's Drill" is to be preferred, and in giving this preference we do not desire to be understood as disparaging "Pearson's Drill," which we think an excellent implement. It is to be regretted that so useful an implement should be sold at so high a price, and we cannot avoid the belief that more pleasure and profit than is probably had more pleasure and profit than in governmental business. The Whigs of this section of Pennsylvania, particularly, will regret, however, that in Mr. Penrose's withdrawal, they lose a familiar means of communication with the administration, afforded by his position, and which his uniform courtesy and attention to his friends gave them every facility of enjoying. The government also will lose an officer of talents, energy and experience.

Dastardly and Malignant.

A Washington correspondent of the Baltimore American makes a statement which is well calculated to excite the indignation of every honest mind and patriotic heart. He says—

"Contemptible scribblers, not content with abusing the President in the public prints, have invaded the sanctuaries of his family, and every day thrust upon his letters with fictitious signatures, filled with the most unbecoming and personal abuse and abuse. Nor do they stop even here. The Ladies of the Presidential mansion have had addressed to them almost daily letters containing the most offensive and obscene language which a fond could initiate, until they can scarcely dare to open any letter which is not from a well known and familiar hand."

This is indeed outrageous. Such a mode of warfare may possibly seem justified to those whose moral sense is blunted by the determination to oppose the Administration whether right or wrong, "to the bitter end," but honest and well meaning men of all parties cannot but condemn a course of conduct so shocking to decency and morality.

REMOVALS AND APPOINTMENTS.

"Alpha" of the New York Tribune, in referring to the fact that Mr. Hagner has recently been replaced by Mr. Gallagher in the office of Third Auditor at Washington, says—

"Other changes will take place of a more substantial character within a few days in the Treasury Department—among the appointments will be Mr. Edwards of Iowa, to succeed Peter G. Washington as well as Mr. Hobbie are both to be removed, and they will have to go before long."

ANOTHER DEMAND!

The N. York Tribune has authority for saying that the American Government had directed its Charge to demand of the Portuguese Government an unequivocal answer to the American claims given by the first of November next, and this must be conclusive as to the determination of the Portuguese Government to pay or resist payment. This is decided language, and, like sending the sheriff after a debtor, will probably produce the pay. Old Zach seems to have a good deal of trouble with our foreign neighbors, but will never surrender "the honor or any right that belongs to our government."

McBURNAN.

The Locofoco papers are beginning to show some signs again of putting Mr. Buchanan up for the Presidential race of 1852. The "Volunteer" is fast coming round that way, and as an evidence of what it is ready to do, stoutly denies, in the very face of his celebrated oration at Lancaster, on the 4th of July, 1851, that Mr. B himself it seems is also feeling round, and is particularly anxious about the Southern policy, which he returns by way of Alabama, to visit his bachelor friend, Hon. Wm R. King.

FIRE IN HARRISBURG.

On Friday last, a fire broke out in the Democratic Union office some three or four hours before daylight, which destroyed all the newspaper material in said establishment, except the machine presses. The materials on which the public work of the State is executed escaped, with but little injury. The building was a large four story edifice, and the fire was confined principally to a centre room on the first floor, where law books were stored, and the second story where the newspaper and job office was situated.

POISSONISM.

The French Government will not endorse the conduct of its dismissed minister here, but the locofoco papers, including the "Volunteer," will continue their long-winded but weak vindications of his insolent behaviour to our government. They are thus not even entitled to the dignity of being called French organs—they are only organs of Poisson!

Rich Nobles—Lords, &c.

To exhibit animosities between the different classes of Society, that make up the community—to array labor against capital—the poor against the rich—has long been the policy of the Locofoco politicians. The moral, social, and direct pecuniary evil, which results from this, is to them a consideration of no importance, so that their interested ends be accomplished, their party pleased in power, and themselves in office. By dignifying manufacturers as "millionaires" and "iron nabobs," they appeal to a common feeling of mankind—the disposition to view those whose condition is apparently better, with envy, and may induce the wish to thwart and injure such "lords" and "nabobs" without any hope or expectation of personal gain.

Foreign News by the Europa.

By the arrival of the steamship Europa, at Halifax, on last Wednesday morning, we have intelligence from Europe one week later. The news is highly important. The most interesting portion is that in relation to the difficulty between Turkey and Russia; growing out of the refusal of the Sultan to surrender to the Czar the Hungarian Rats. At the last session, the decision of the Emperor of Russia, relative to the war, was still in doubt. The Turks, apprehending a declaration of war on the part of Russia, had collected a large fleet of Steamers on the waters of the Bosphorus. There were also twelve ships of the line fully equipped and plentifully supplied with arms and provisions, and 100,000 soldiers under arms around the Turkish capital, preparing to repel the anticipated attack. The English Mediterranean fleet has been ordered to the Dardanelles. The English Government has signified its intention to support Turkey in her unequal contest, and France, it was thought, would imitate the conduct of England.

Christianity a Failure!

It is asserted in an Episcopal paper, that Dr. Woods, Jr., the President of Bowdoin College, in New England, has arrived at the conclusion that Christianity is a failure. The noble Kosuth, however, has given us an illustration of the power of Christianity which is worth far more than the testimony of Dr. Woods. We learn from the foreign intelligence received by the Europa, that after the brave Hungarian refugees had reached the soil of Turkey, they received an intimation from the Government that they would be surrendered to Russia unless they would "abjure the faith of their forefathers in the religion of Christ and become Mussulmen." Five thousand Christians were thus placed in the terrible alternative either of leaving the scaffold, or of purchasing their lives by abandoning their faith.

THE FINAL.

Common, the last stronghold of the Hungarians, has finally surrendered. Thus ends, for the present, says a European Journal, the struggle of the Hungarian nation for independence. The Austrian Russian combination has bowed down a pliant people, but the annals of the people's struggle, in language too plain not to be understood, that might do not ultimately overcome right.

Editors.

A contemporary very truly remarks that an Editor's duties, even in a case comparatively unimportant, are enormous and unthankful. Those who praise "love him less than their dinner, and those he finds fault with, hate him worse than the devil." If he steps out manfully, he can scarcely avoid treading now and then on somebody's toes, which will make a point of never forgetting it; while those on whom he may bestow commendation (even if nothing more substantial), during his journey, will quietly place it all to the account of their own merits.

SINGULAR ACCIDENT.

On Thursday evening, in New York, a young woman, while coming down stairs with a large earthen dish in her hands, fell and broke the dish, and at the same time struck her neck upon a piece of the broken crockery, which cut her throat in such a manner that before medical aid could be procured she bled to death.

AMOUNT OF COIN IN THE WORLD.

It is estimated that the whole amount of coin in the world is \$28,000,000 of dollars, of which \$80,000,000 is circulating, and \$24,000,000 is in bank. As the earth's population is 44,000,000, each individual has a share of 64 cents, if the whole were equally divided, it would be 78 cents.

LOCOFOCO HYPOCRISY.

Mr. Deal, the recently elected Sheriff of Philadelphia, entered upon his duties last week, and in advance made a "clean sweep" of all the members. Not even the driver of the prison wagon was the bill-poster escaped. There were many applicants for every post, and the doctrine of Locofocoism, that "no voters belong to the Locofoco," forbade that a single voter, no matter how competent or capable should be retained.

Ohio Election.

The contested election in Hamilton county is not the only one which is not to be decided by a matter of three cents. It appears that the seats of three Locofoco members, returned from Coshoc county, by Messrs. Jackson and Gallis counties, will be contested by Wm. G.

Deeds and Mortgages.

FRESH supply just received at the Cheap Book Store, next door to the Post Office.

Garrisonian Fanaticism!

The PENNSYLVANIA ANTI-SLAVERY SOCIETY held its twelfth annual Convention in the Baptist Meeting House, Northtown, last week. Lucetta Mot, Wm. Lloyd Garrison, and C. O. Burleigh, the arch-foes of the cause, were the principal actors in the proceedings. The usual amount of intemperance and fanaticism was displayed in everything said and done; growing, for the hundredth time, how gross a cause may be injured, by its misdirected and avowed advocacy. The Church, collectively, was denounced as corrupt, unwholesome and infidel, for allowing itself to be divided, the political parties—"Free Soilers," "Specialty"—were reprobated as having nothing good in them—the American Union was as nihilized as a bond of equality which would be a righteous act to destroy—and, oh, the ingratitude of man's "smere friends who are the colored man's sincere friends if he has any, were abused most furiously, as worse than all other people—and this, too, by a gentleman of color!

Rich Nobles—Lords, &c.

To exhibit animosities between the different classes of Society, that make up the community—to array labor against capital—the poor against the rich—has long been the policy of the Locofoco politicians. The moral, social, and direct pecuniary evil, which results from this, is to them a consideration of no importance, so that their interested ends be accomplished, their party pleased in power, and themselves in office. By dignifying manufacturers as "millionaires" and "iron nabobs," they appeal to a common feeling of mankind—the disposition to view those whose condition is apparently better, with envy, and may induce the wish to thwart and injure such "lords" and "nabobs" without any hope or expectation of personal gain.
