American Art Union.

We have been reading with a good deal of attention and interest the controversy waged by the friends respectively of the American Art Union, and the Art Union, recently organized by the French Printdealers, Messrs. Goupil, Vibert & Co. of New York. Our patriotism prompts us to stand by the American Art Union, but in addition to this our settled conviction, after reading carefully the attacks by Mr. N. P. Willis upon its management, &c. is, that it is still entitled to that confidence which over sixteen thousand subscribers placed in it last year .--The gentlemen who control it have not been shown to be any thing else than gentlemen of character and principle, and we think the mere fact of their being "merchant amateurs" does not show them unfit to manage George Hamilton on Monday, the 5th inst. Mr. George Hamilton of Newark, Ohio formerly of Shippensburg, in the 72d year of his age. teurs" does not show them unfit to manage Union of Messrs. Goupil, Vibert & Co. is manifestly but a private speculation, the idea of which was suggested to them by the success of the American Art Union. With our old-lashioned notions in favor of American progress in every art and manufacture, we feel inclined to stand by our own institutions in preference to foreign, and would therefore cess of the American Art Union. With our commend the American Art Union to continbeen strengthened in our convictions by va. AF Election for new Directors of the ued confidence and patronage. We have rious notices of the exhibitions of each, one of which we subjoin. It is from the N. York corgespondence of the Hartford Courant:

In Paris they might be attractive and be appreciated, but in New York they will excite disgust instead of approbation. The paintings of the American Art Union are the reverse of all this. In that establishment if you happened to be accompanied by a lady, you will not be compelled by the character of the works of American artists, to pass by some of the paintings without speaking of or in any way referring to them. I know of no better, mode of giving you a correct idea of the merits of those two institutions than by stating that the impressions that they produce on the that the impressions that they produce on the mind are as opposite as those created by a pe-rueal of the New Kork Observer and that no-torious sheet, "Ned Buntline's Own."

For the Removal and Permanent Cure of all NERVOUS DISEASES, hose Complaints which are caused by an im d, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mys-grous powers of GALVANISM and MAGNETISM, has een pronounced by distinguished physicians, both in urope and the United States, to be the most valuable tedicinal discovery of the Age. Dr. CHRISTIE'S GALVANIC BELT

MAGNETIC FLUID s used with the most perfect and certain success in all cases of

GENERAL DEBILITY, SENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in FITS, CRAMR, PARALYSIS and FALSY, DYSFEP. SIA. 50 INDIGESTION, RHEUMATISM, ACUITE and CHRONIC, GOUT, EPILETSY, LUMBAGO, DEAF. NESS, NERVOUS TREMORS, PALFITATION OF THE HEART, AFOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SIN AL COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS and PHYSICAL ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely.

A Derangement of the Nervous System. A Derangement of the Nervous System.

6.7— In NERVOUS COMPLAINTS, Drugs and Mediclines increase the disease, for they weaken the vital enerries of the already prostrated system; while under the
threngthening, life-giving, vitalizing influence of Galvanam, as applied by this beautiful and wonderful discovery,
the exhausted patient and weakened sufferer is restored
to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives. consists, in the fact that they arrest and our disease by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They iteraphen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

ncluding all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject o Nervous Complaints, have been were a large number of ladies, who are pebuliarly subject to Nervous Complaints, have been ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and every hing else been tried in vain!

To illustrate the use of the GALVANIO BELT, upnose the case of a person afflicted with that bane of sivilization, DYSPETSIA, or any other Chronic or Nervous Diagrder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles if the stomach, afford resporary relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare his with the effect resulting from the application of the JALVANIO BELT. Take a Dyseptic sufferer, even in the worse symptoms of an attack, and simply its the self and the continuous of the insensible perspiration will act on the positive element of the fielt, thereby austing a Gelvanic circulation which will pass on to the egative, and thence back again to the positive, thus teeping up a continuous Galvanic circulation throughout lessystem.—Thus the most severe cases of DYSEFSIA.

of New Jersey, of distinguished attainments and exaited seputation:—

Sidney, New Jersey, July 19, 1848,

Dr. A. IR Chinsvire—Dear Sir: You wish to know of one-what has been the result in my own case, of the appliation of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about teenty years I had been suffering from Dyslephia. Every year the symptoms decame worse, nor ould I obtain permanent relief from any course of medical treatment whatever. About four-rest years since, in consequence of frequent exposures to the weather, in the discharge of my pastoral dutles, I became subject to evers Chronic Riecumstism, which for year after year, aused me indescribable anguish. Farther: in the whiter of 40 and 46, in consequence of preaching a great deal in my nown and various other churches in this region, I was attacked by the Bronchitis, which soon became as evere as to require an immediate suspension of my pasoral labors. My nervous system was new theroughly presental control of the process of the o Jyspepsis and Incumatic affection—thus evincing that hese disorders were connected with each other through he medium of the Nervous System. In the whole pharaccopeis there seemed to be no remedial agent which yould reach and recuperate my Nervous System; every hing that I had tried for this purpose had completely silled. At last I was led by my ffiends to examine your reventions, and (though with no very sanguim hopes of heir efficiency.) I determined to try the effect of the pplication of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To MY ORAT ASTONIEMENT, IN TWO DAYS MY DYSPEYSIA AND GONE; IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTONIA LABORS; NOR HAYE IS NICK OMITTED A SHOULE ME JUCK IS AND ACCOUNT OF THE BRONCHITIS; AND MY RHEULAND AND ACCOUNT OF THE BRONCHITIS AND ACCOUNT OF THE BRONCHIT OF THE BRONCHIT

All physicians acknowledge that these terrible diseases the caused by a deficiency of Nervous Energy in the decided limbs. Ds. Chingris' Galvanic Articles will poply this deficient power, and a complete, and entire turn is thus offected.

1000 Cases of Palsy and Paralysis have been reported to Dr. Curateria and his Agents within he last two years, which have been entirely restored. The list two years, which averbeen entirely respored.
