

WEDNESDAY, NOVEMBER 28, 1849. THANKSGIVING-DAY.

In the name and by the authority of the Commonwealth of Pennsylvania: WILLIAM F. JOHNSTON, Governor of the said Commonwealth.

A PROCLAMATION. A beneficent God has blessed the people of this Commonwealth with health and abundance. The fields have yielded bountiful returns to the labor of the husbandman.

A GOOD APPOINTMENT.—We have been aware for two or three weeks of the appointment by the Secretary of the Treasury, of Dr. JOHN J. MYERS, of Carlisle, as Surgeon of the Marine Hospital, at Pittsburg.

THE U. S. TREASURY.—A Deficit of Nearly Twenty Millions Expected.—The National Intelligencer learns from an official source that, in the amount of revenue which will be requisite to meet the expenditures of the Government for the fiscal year ending the 30th of June, 1850, and the 30th of June, 1851, there will be a deficit of between fifty, ten and twenty millions of dollars.

THE MESSAGE AND CABINET REPORTS.—The Washington correspondent of the Baltimore Patriot, says, I have good reason for believing, that President Taylor's first message to Congress will be a model document.

THE VICTORY IN NEW YORK.—An summary of the vote for State Senators in the recent Election in New York gives the following result: Whig aggregate, 209,984; Locooco, aggregate, 186,784. Whig majority, 23,192.

The Pardoning Power.—Facts.

A Triumphal Vindication of Governor Johnston. Judge Parsons, of Philadelphia, took occasion recently to write his bold, but in substance a batch of prisoners, convicted of riot, to include in a most unwarrantable outbreak of judicial fury in relation to the exercise of the pardoning power by the Executive. His remarks were made to bear chiefly upon Gov. Johnston, but in the course of his very coarse and vituperative attack, was a "melancholy" fact, yet nevertheless true, that from 1844 down to this time, scarcely an individual who had been convicted of an aggravated riot in Philadelphia, had served out his imprisonment, whether short or long.

Gov. Johnston has pardoned 118 persons in the city and county of Philadelphia during these three years. Number of riot pardoned in Philadelphia, 118. Gov. Johnston's term. Average number annually, 39. Number of riot pardoned in the State, 4. Number of riot pardoned in Philadelphia, 118.

Gov. Johnston has pardoned 118 persons in the city and county of Philadelphia during these three years. Number of riot pardoned in Philadelphia, 118. Gov. Johnston's term. Average number annually, 39. Number of riot pardoned in the State, 4. Number of riot pardoned in Philadelphia, 118.

THE TWO REMEDIES.—The recent failure of several Banks in this and other States, and particularly the monstrous swindle of the Susquehanna County Bank, which they will hardly have the hardihood to charge upon the Whigs, is of course taken advantage of by the locooco press to renew their furious clamor against all Banks, and to again sound the praises of the individual liability principle, or "the Shunk policy," as they term it.

APPOINTMENT.—The Republic makes an official announcement of the appointment by the President, of James M. Power, Esq., to the post of Charge d'Affaires to Naples, in place of Thomas W. Chinn, Esq., resigned. This appointment will meet with universal favor, and we are sure that Mr. Power will prove a most efficient officer.

THE GERMAN STATE PRINTING.—The Chambersburg Valley Spirit says the cost of the German State Printing would just about pay the expense of publishing the necessary public laws in every paper in the State. As the German Journals, &c., are scarcely read by any, the Spirit thinks the printing of the laws ought to be discontinued, and the money applied in a way which will really enlighten the people as to the doings of their law makers.

GEN. TAYLOR SUSTAINED.—Colonel Thompson, the defeated Locooco candidate for Congress in the Wheeling (Va.) district, was removed from the office of District Attorney by Gen. Taylor, and wrote a very abusive letter, which was highly lauded by the Locooco press. The district is generally conceded to Mr. Taylor, but he is defeated by some 400 majority.

CLAY & TAYLOR.—Mr. Edward A. Tilton, and Mr. Sweeney, of Ohio, Members of Congress, it is said are to stand at the opening. They are both Locoocs. Mr. King of Georgia, who is also in California. Col. J. Watson, Editor of the New York Courier & Enquirer, has been appointed Charge d'Affaires to Austria. He will sail for New York in a few days, for his post is Regensburg.

The Meeting of Congress.

The Thirty-first Congress will assemble in Washington on Monday next, the 5th of December. Many of the members are already announced as having arrived there, and a quorum will probably be present at the opening. The N. Y. Tribune classes parties in the House of Representatives thus: Whigs and Whig Free Soilers, 111; Locooco, Locooco Free Soilers and Abolitionists, 116; doubtful, Messrs. Allen, of Massachusetts; Root and Giddings, of Ohio. This makes the organization of the House a point of very warm interest.

THE LOCOOCO CONVENTION.—There are delegates from New York, New Jersey, Virginia, Kentucky, Ohio, Maryland, and Pennsylvania, present at the Convention of Iron Masters, and those interested in the Iron business, met in session in Pittsburg.

OUR GREAT MEN.—It will be a sight worth seeing, next winter, says the Spectator, to visit Washington and see the following men sitting together in their seats in the United States Senate—Daniel Webster, Thomas H. Benton, Henry Clay, John C. Calhoun and Lewis Cass—five such men no Parliament or body of Lawgivers in the world can boast of. Probably it will be a century before such a sight can be witnessed again.

A MODEL TOWN.—There is a model town in Wisconsin, called Ceresco, which has not now, and never had, a drunkard or a pauper in it. It has been incorporated five years, and during that period not one drop of ardent spirits has been retailed within its borders, nor have any suits of law occurred between the inhabitants.

DETOUR, NOV. 17.—Advices from South Sea, Marie speak of great excitement in consequence of the refusal or neglect of the Canadian authorities to compensate the Indians for the loss of possession of the Quebec Mining Company, as agreed upon. The Indians, numbering 300 men, well armed, have marched, with the purpose of taking property by force, and serious consequences are apprehended.

POST-OFFICES.—The number of post-offices in the United States on the first inst. was 17,164. And the Locooco are raising a terrible hue-and-cry, because out of this vast number there have been twenty-eight hundred removed, and some four thousand Whigs appointed!

THE IRON CONVENTION.—There are delegates from New York, New Jersey, Virginia, Kentucky, Ohio, Maryland, and Pennsylvania, present at the Convention of Iron Masters, and those interested in the Iron business, met in session in Pittsburg.

THE BEST YET.—Why is a new paper like a tooth-brush? Because every body should be provided with one of his own, and not borrow his neighbor's.

England's Best Customer!

Some tables were presented in our last paper, taken from an English official document, showing that the people of the United States were the purchasers of more than one-sixth of the manufactures and products of England—in fact that we are the best customers she has in the world. From the same authentic document we have the following statement of the exports of IRON from Great Britain to foreign countries, during the year 1848.

To the United States, 81,704 tons. To other countries, 85,946 tons. The total Exports of BAR IRON, during the same period, were: To the United States, 167,657 tons. To other countries, 153,077 tons.

Latest from Europe.

The steamer Calcedonia arrived at Boston on Sunday last, with news of the intelligence from Europe. Cotton had advanced from 4 to 4 1/2 of a penny in the Liverpool market, and the money market had improved. In a political point of view, the advices are not important.

Convinced at Last!

The Danville Democrat says that the Hon. Robert J. Walker has been on a visit to that section of the State, and looking at the extensive iron operations of the Monitor Company. The Democrat adds, that it is said he has altered his free-trade notions as far as regards duties on iron and coal, and that he will lend his influence in favor of moderate specific duties on these staple articles of Pennsylvania, if a bill of that kind should be brought before the next Congress.
