The relaying of the Cumberland Valley Rail Read, with a new track of T railing, has already been commenced. The new rails come from the Montour Iron Works at Danville. The editor of the Chambersburg Sentinel, who recently passed over the road, says "it is certainly the safest and best constructed part of tainly the safest and best constructed part of the road from this point (Chambersburg) to hard. Mr. Joseph Porter to Miss Margaret Stickel, all of Middleton township, Camberland county. Philadelphia. The rails have been run twice Philadelphia. The rais nave open run twice the usual length, thus avoiding at least one half the joints that are encountered on other half the joints that are encountered on other of Dauphin co. rouds, and imparting a smoothness and equability of motion not often enjoyed by travelers The new track is laid on the south side of the road-the sills are imbedded in powdered limestone, and secured by transverse ties laid in the same manner, entirely obviating the rocking and surging so annoying to those who travek over the present track for the first time. It is expected that the new railway will be completed by the first of August next-a fact which should be a source of congratulation and pride to all the inhabitants of the valley thro' which it passes."

We learn that the company contemplate reducing the fare and freight to one-half the present rates, and it cannot be doubted that by so doing they will benefit themselves as greatly as the public.

A HINT TO MECHANICS.—The Managers of the American Institute, in New-York, report that the entire receipts during the late Fair at Castle Garden, were \$18,670. It is presumed that nearly 300,000 persons visited

As illustrating the value of these Fairs, the Tribune save that one manufacturer, who exhibited his wares at the late one, asserts that orders to the extent of \$30,000, for similar goods were the consequence. We have heard, says the Philadelphia North American, of numer-ous instances during past years, of similar results growing out of the displays made at the Franklin Institute in this city. It is to the interest of every man in business to sustain them; and apurt from selfish considerations, such institutions deserve the amplest encour agement, because they awaken and maintain a are widely beneficial. These facts are worthy the consideration of our borough mechanics inglew of the exhibition of the Cumberland co Agricultural Society next fall. Let our mechanics prepare to show their skill on that occasion, and show by the superiority of their workmanship, that they are determined to leave no ground of justification to those who are in the habit of purchasing in the cities what they be opening for several days, his second purought to buy at home.

THE GARRISON BAND-gave our citizens an other delightful serenade on the square on Friday night, last. A number of popular airs were beautifully performed. A delicious mounlit night, the soft dreamy air of the Indian Summer, and Music's entrancing strains, com bined to draw every body out, old and young and form especially "The hour when lovers' vows Seem sweet in every whisnered word."

Our citizens owe the Band many thanks for their delightful musical contributions to the public enjoyment, during the last month, which on their behalf we take pleasure in expressing

OUR MARKET House .- Our Market House has recently been scoured and painted, and the ceilings white-washed. It now looks as bright as a new pin, and presents a clean and lively appearance. MOFFATS

Life Pills and Phomix Bitters. These Medicines three new been before the public for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate powder of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS of certificated instances, they have even rescued sufficient from the yery verge of an untimely grave, after all the deceptive nestrums of the day had not terly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing... So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and, enduing them with renewed tone and vigor, that they were indebted for newed tone and vigor, that they were indebted for

newed tone and vigor, that they were indebted for their name.

Unlike the host of perateous quackeries which boast of vegetable ingredients, the LIFE MEDI-CINES are purely and solely vegetable; and contain noither Mercury, nor Antimony, nor Argenia, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hurdened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave, such

convolitions of the small intestines. Other incilicines only partially cleanse these, and loave, anch
collected messes behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhese
with its imminent dangers. This fact is wellknown to all regular anatomists who examine the
human bowels after death; and hence the prejudice of these-well-informed men against the quack
medicines of the age. The second effect of the
VEGETABLE LIFE MEDICINES is to
cleanse the kidneys and the bladder; and, by this cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action o means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veius, renews every part of the system, and triumphantly magnits the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infailible

consequence of its cure.

Scurvy, Ulcers, and Inveterate Sores, by the perfect purity which these LIFE MEDI-CINES give to the blood, and all the humors.

Scorbutic Kruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the merbid state of which occasions all cruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin.
