WASHINGTON, Feb. 21. Dr. Gwin, the Senator elect from California, has already become an object of suspicion, if not of denunciation, on the part of the ultra Slavery men, who prefer dissolution to the admission of another Free State into the Union." This distrust has been brought about in this wise :---The conspirators against the Union, as an excuse for opposing the admission of California under her present Constitution. have assigned several objections either of which they have argued was fatal. The first is, that "undue influences" have been exerted on the part of the Executive and his Cabinet in provailing upon the peo-ple of California to adopt her present constitution, excluding slavery therefrom. The second is, that the right of suffrage was exercised by foreigners and others, who had no legal right to vote. And the third is that but for the above two reasons citizens from the South would have been permitted to have settled there by operation of law with their slaves. These propositions are all boldly met by Dr. Gwin, and unqualifiedly denied. He avows that no influence whatever, eitheir proper or improper, was exercised over the people of California on the part of the Administration or of individuals, in the action which they took in calling a convention, the formation of the constitution, or its subsequent adoption by the people. He denies in the most emphatic manner, that any but citizens of the United States, voted, when the constitution was submitted to the people for its approval. And declares that a majority of all the per-sons from the Slave States that were in Calilornia were in favor of making California a Free State. It is this has assertion that anbree State. It is this had assertion that an-noys the slavery propagandists more than anything else, and for the ulterance of which Dr. Gwin has been most censured. At a social gathering a few evenings since, composed of southern men, he was asked how he could make such an assertion, that southerners in California, were in favor of now no could make such an assertion, that southerners in California were in favor of her admission as a Free Slate. He replied I can satisfy you of it in a dew words: "La-bon is RESPECTABLE.
