Splendid visions of the glittering rivers of California whose

The mechanic casts down his tools, and the farmer longs for a soil whose product is gold. Such is the "fever." From this borough as we learn, there will some thirty or forty start. A party of about thirty will go from Mechanicsburg. A number are preparing to start from Shippensburg, Hogestown and other points in the county. With what have already gone, and those preparing to go, Cumberland counsy is likely to have at least one hundred representatives in California. The grentest check to the ardor of emigrants is the difficulty of procuring tickets for passage in the steamers, as so great is the rush that most of the lines have their passenger lists made up for months in advance. Some of the adventurers from Carlisle expect to start by the 1st of June. It is scarcely probable they will all succeed to the extent of their high expectations, but they have our best wishes.

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive mostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their officacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Argenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to soveral Indian tribes, and recently to some eminent pharmaceutical chemists, are alto-

long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and credities constantly settling round them; and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of ovils, or sudden Diarrhea with its imminent dangers. This fact is well known to all regular matemists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of, the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the Madder. VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. Feyers of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicars have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the idea.

Dropsies of all kinds, by freeing and strength-ening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain semedy for the worst cases of GRAVEL. PILES. As a remedy for this most distressing and obstinate mulady, the VEGETABLE LIFE MEDICINES deserve a distinct and cuphatic becommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted, with this complaint for upwards of THIRTY-FUE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE. For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the discase—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints. General Debility, Loss of Appetite, and Diseases of Females—these medicines have been used with the most beneficial results in cases of this description:—King's Evil, and Scropula, in its constant forms, yields to the mild yet powerful action of worst forms, yields to the mild yet powerful action of these remarkable Medicines. Night Swrats, Nervous Debility, Nervous Complaints of all kinds, Palvitation of the Heart, Painter's Colic, are speedily cured. MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Mencurr, will find these Medicines a perfect cure, as they have fail to eradicate from the system all the effects of Mercury infinitely sconer than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient. ntimation of every patient.
