SELECTION SEE SE C. J. GAYLER'S WARRANTED FIRE AND THIEF PROOF, AND

PENHESE SAFES possess every-qual
diffication to render them proof against the action of fire or thieves, and of sufficient s. rength to endure a fall from any story of a burning building. They are made of wrought iron, being skneed, riveted and welded together, and lined with a perfect non-conducting fire proof mineral composition, no wood being used in their construction as in the majority of sales sold by other makers. The dotte of GAY-LER'S. Safes are secured with his THIEF DETECTOR and ANTI-GUNPOWDER LOCK, which precludes the possibility of picking or blowing their open with gunpowder.—Over TWO HUNDRED of these Safes have been exposed in accidental fire to the most intense heat, in many instances remaining in the burning ruins for several days, and at no time have they ever been known to fail in preserving their contents.
