on D ishes

It seems our informant did not speak by authority," when he gave us the "by authority," when he gave us the

the interest of the purchaser to examine before buying elsewhere. All goods sold at this store, warranted to give satisfaction, and defy comple-trition, in quality, elegance and style of the cut and durability, and we hope by close attention to business to merit a share of public patron-

in our churches, schools, &c. Another word. There has been

good deal of "fun poked," not to speak of innumerable sarcasms, anathemas and the like, at the poor clock, which it has borne in the most amiable spirit. While the crowd have been fiercely scowling it has meekly hept its hands to its face, but has been "dumb" amidst ceaseless revilings, and has quietly borne the most ill-. natured abuse without "striking." Such a clock is entitled to some consideration, ---- and if moved by its "MUTE appeals" we conclude to release it from the heavy servitude of the tyrant Time, we should not at least kick it out with a bad character. The fact is as we are confidently assured, the clock does not really deserve the bad charactar with which every body has been ready to brand it. . We are informed by those who pretend to know that it

is in reality a good instrument, of most - excellent "parts," but that it was not adapted nor calculated for the place it occupies. In another position it would be

perfectly reliable. We have this assurance from various sources, and as our public authorities do not wish to deceive any who may contemplate purchasing it. they are confident it will be found a good instrument when examined by a qualified judge. The public is informed that it is in the market, and we trust therefore it will soon "go."

A number of fine Historical and Scriptural Paintings are now on exhibitinn at Education Hall. They have been justly admired in the cities. We have only toom before going to press to urge the public to call and see them.
