### Sanday Beading.

WORDS FOR MUSIC. BY REV. DR. BETHUNG.

I love to sing when I am glad,
Song is the echo of my gladness;
I love togsing when I am sad,
Till song makes sweet my very sadness;
'Til pleasant time,
'Vien voices chime
To some sweet rhyme in concert only,
And song to me
I se company.

Good company when I am lonely: Whene'er I greet the morning light, My song goes forth in thankful num

My song goes forth in thankful numbers,
And 'mid the shadows of the hight,
I sing me to my welcome slumbers.

My heart is stirred
By each glad bird
Whose notes are heard in summer's bowers;
And song gives birth
To friendly mirth
Around the hearth in wintry hours.

Man first learned song in Paradise,
From the bright angels o'er him singing;
And in our home above the skies,
Glad anthems are forever ringing.
God lends his ear
Well plensed to hear
The songs that cheer his people's sorrow;
Till day shall break
And we shall wake
Where love will make unfading morrow.

Then let me ving while yet I may,
Like him God loved, the sweet tongued Psalmist
Who found in herb, and holy lay,
The charm that keeps the spirit calmest:
For sadly here
I need the cheer,

To join the throng, Who sing the song that never endeth !

#### Duration of Eternity.

Various illustrations have been suggested to convey to the mind some idea of illimitable duration. It has been said, suppose one drop of the ocean should be dried up every thousand years, how long -would it be before the last drop would disappear, and the ocean's bed be left dry and dusty? Far onward as that would be in coming ages, eternity would have but commenced! It would still be in its earliest hours of infancy.

It has been said, supose this vast globe upon which we tread were composed of particles of the finest sand, and that one particle should disapear at the termination of each million of years, oh, how inconceivably immense must be the period which would elapse before the last parficle would be gone! And yet eternity would then be in its morning twilight; the immortal spirit would then have just entered upon its interminable career.

It has been said, suppose some little insect, so small as to be imperceptible to the human eye, were to carry this world, by its tiny mouthfuls to the most distant star the hand of God has placed in the heavens. Hundreds of millions of years are required for the performance of a single journey. After millions and millions of years have rolled away it arives back again to take its second load, Oh, what interminable ages must pass before the one leaf would be removed! In what period of coming time would the whole tree be borne away? when would the forest be gone? And when would the insect take the last particle of this globe. and bear it away in its long, long journey? Even, then, eternity would but have ·. commenced!

One of the days of Heaven,

Mr Flavel at one time on a journey, set himself to improve his time by meditation; when his mind grew intent, till at length he had each rariching tuotoo of heavenly joy, and such assurance of his interest therein, that he unterly lost, the sight of, and sense of this world and all of its concerns, so that he knew not where he was At last, perceiving himself faint througha great loss of blood from his mose, he alighted from his horse and sat down at a spring, where he washed and refreshed himself, earestly desiring, if it were the will of God, that he might there leave the world. His spirits reviving, he finished his journey in the same delightful frame. He passed that night without any sleep, the joy of the Lord still overflowing him, so that he seemed an inhab mant of the other world .- After this, u heavenly serenity and sweet peace long continued with him, and for many years

he called that day "one of the days of

heaven!" and professed that he under-

stood more of the life of heaven by i than by all the discourses he had heard,

or the books he ever read.

How THE WORLD LOSES TIME .--An arithmetical friend of ours, believing after Leverrier's discovery, that there are no new planets to be found, has undertaken a series of economical calculation, showing how the world's time is wasted. He estimates that mankind, in the aggregate, annually repeat the quesions; "How are you?" "How do you do?" at least 130,000,000,000 times, thereby wasting about 2,166,666,666 hours, or 216,666,666 working days counting ten hours as the measure of each day. But this is not the only loss. The most polite man yawns at least ten times in a social company; allowing 500 yawns for each company (of which our friend reckons that 104,000,000 are held every year)and two seconds time for each yawn, the loss in working days will amount to 3,611,111. Counting a day's wages at the low rate of 50 cents, the human race spends every year, in yaw ning and saying "How do you do? How are you?" the sum of \$110,138,888. Our friend is now engaged upon calculating the time and money lost in talking about the weather, and expects to attain the grand result in six months. The developments, so far, are most astounding.

FATHER. Father is a word with me wondrously influential nor can I think of it without mingled reverence, and filial affection. "As a father pitieth his children," says David, and we feel the pity he describes. "Hear ye children the instruction of a father," says Solomonand we acknowledge the authority with reverence. "I will arise and go to my father," said the poor prodigal-and his words thrill through the heart. My ather ! my father, the chariots of Israel,

and the second of the second o

and the horseman thereof." cried Elisha into Heaven; and the exclamation arests our very souls. Few who have felt the kindly, correcting and fostering influence in the United States, can always be found at the of a father, but must feel at the name. when Elijah went up by whirlwind somewhat in the way I have described. And yet the greatest utility of a father, lives in what we may call "the preventive service"-not letting the son have his own course.

DISCONTENT. Discontent is a sin that is its own punishment, and makes men forment themselves; it makes the spirit sad-the body sick-and all the enjoyments sour; it arises not from the condition but from the mind. Paul was contented in prison—Ahab was discontented in a palace: He had all the delights of Canaan, that pleasant land, the wealth of a kingdom, the pleasure of a greater variety than wholesale Prices. AMERICAN AND ENGLISH BRITANNIA METAL GOODS wealth of a kingdom, the pleasure of a court, the honors and powers of a throne; yet all this avails him nothing without Naboth's vineyard. In ordinate desire exposes men to continual vexation, and being disposed to fret they will always find something a real flower.

BY We would invite any person visiting the city to call and see us—they will at least be pleased to walk around our beautiful store, and to visw the finest China and the cheapest the world produces. Very respectfully, TYNDALE & MITCHELL, No. 219 Chesnat Street. find something to free about.

#### Miscellancons. Golden Horse Hotel

ADJOINING THE COURT HOUSE, CABLISLE, PA. O THE subscriber having leased the above darge and compositions HOTEL, situated on the corner of the Public Square and South Handwerstreet, and lately occupied by Bent: L Eshelman, begg, leave to annotince to his friends, and the public that he is prepared to entertain them in a manner which cannot fail to meet their approbation.

THE HOUSE has the most pleasant location in the borough—has been newly furnished

tion in the borough—has been newly furnished and otherwise improved, and no pains will be spared to make those who may sojourn with him, comfortable during their stay. His parlors are large and well furnished, and his che bers supplied with new and comfortable bed-

ding.
HIS TABLE will be supplied with the best the market can afford, and all who are connected with his house will be found attentive careful and obliging. THE BAR will contain the best liquors the ills STABLING is entirely new and extensive, capable of accommodating from 50 to 60 horses—making it a desirable stopping place for DROVERS, and will be attended by a skilful-Ostler. In short, nothing will be wanting calculated to add to the comfort and conveni

expressly for our sules.
(Extract from the London Medical Jonrnal.)
"C. J. B. Williams, M. D., F. R. S., Profesa.C. J. B. Williams, M. D., F. R. S., Professor of Medicine in University College, London, Consulting Physician to the Hospital for consumption, &c., says: I have prescribed the Oil in above four hundred cases of tuberculous disease of the Lnings; in different stages, which have been under my care the last two years and a half. In the large number of cases, 206 out of 234, its use was followed by marked and unconvivocal improvement, vary-

cases, 206 out of 234, its use was followed by marked and unequivocal improvement, varying in degree in different cases, from a temporary retardation of the progress of the disease and a mingation of distressing symptoms, up to a more of less complete restoration to apparent health.

"The effect of the Cod Liver Oil in most of these cases was very remarkable. Even in the very best article at a price far helow any ever offered, of the same quality, and which cannot be undersold by any other store in Philadelphia or elsewhere. Every-watch sold for a minished in "quanty and opacity, the night sweats ceased, the pulse became slower, and of better volume, and the appetite, flesh and strength were gradually improved.

"In conclusion I repeat that the pure ftesh oil from the liver of the Cod is more beneficial in the treatment of Palmonary Consumption in the treatment of Pulmonary Consumption than eny agent, medicinal, dictotic or regime nal, that has yet been employed."

As we have made arrangements to procure the Cod Liver Oil, fresh from head quarters, it can now be had chemically pure by the single bottle, or in boxes of one dozen each. Its wonderful efficacy has induced numerous

spurious imitations. As its success depends entirely on its purity, too much care cannot be bad in procuring it genuine.

Every bottle having on it, our written signature, may be depended upon as genuine, Pamphlets containing an analysis of the Oil, with notices of it from Medical Journals,

LIPE INSURANCE. The Girard Life-Insurance Annuity and Trust Company of Phil'a. Office Aby 159 Chestnut Street, Capital \$300-2000. Charter Perpetual.

ONTINUE to make Insurances on Lives on the most favourable terms, receive and execute Trusts, and receive Deposits on Inte-rest.

execute Trusts, and roceive Deposits on Interest.

The Capital hoins paid up and invested, together with accumulated premium fund, affords a perfect security to the insured. The promium may be paid in yearly, hall yearly, or quarterly payments.

The Company add a BONUS at stated petriculs to the insurances for life. This plan on assurance is the most approved of, and is more generally in users than any other in Great-Britain, (where the -subject is best understood by Lain, (where the subject is lest understood by he neonle, and where they have had the longest experience.) as appears from the fact, that out of 117 Life Insurance Companies there, of all listing, 57 are on this plan.

The first BONUS was appropriated in Description.

The first BONUS was appropriated in December, 1844, amounting to 10 per cent, on the sum insured under the oldest publices; to 87 per cent., 74 per cent., &c., &c., on others, in proportion to the time of standing, making an addition of \$100; \$87:30; \$73, &c., &c. to every \$1,000, originally insured, which is an average of more than 50 per cent on the premiums paid, and without increasing the annual payment to the Company.

The operation of the BONUS will be seen by the following examples from the Life Insurance Register of the Company, thus:

Insured Addition Bonus payable a

#### \$1,000 \$100.00 2,500 250.00 4,500 400.00 2,500 175.00 5,000 \$275.00 2,750 CO 4,400 00 2:175:00

finduding all ages, classes and conditions, among wai were a large number of indies, who are peculiarly subject Novice Complaints here been ENTIRELY AND PERMANENTLY CURED. ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and everything eige been tripd in vani:

To illustrate the use of the GALVANIC BELT, suppose the case of a person sufficient with that bone of civilization, DYSPETSIA, or any other Chromic or Nervous Disadier in ordinary cases, sliminaits are taken, which, by the practice on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties, state the action thus excited has cessed. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic, sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid 2s, directed. In a short period the insensible perspiration will act on the Postiye clongent of, the Delt, thereby causing a Galvanic circulation which mill pass on to the negative, and dilence thek sagny to the freshric, thus keeping up a contampus Galvanic eigenful are they are the system. Thus the funct seyer cases we DYSPLESIA.

CERTIFICATES AND TENTINONIALS Of the most Unitoupted Churucter, all parts of the Country could be given, sufficience of the country and the given, sufficience of the country that the countr

AN EXTRAORDINARY CASE, chick conclusively proves than "Truth is stranger than Fiction." CUREOF RHEUNATISM, BRONCHITIS AND DISPERSIA Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted of New Jérsoy, of distinguished attainments and exalted regutation:

Sind v. Now Jersey, July 12, 1943.

Dr. A. II Crap tire. Dear Sir: You wish to know of me what has been the result in my own case, or the application of THE (MVANIC BELT AND NECKLACE My reply is as hollows:

For isbort twenty years I had been suffering from Dypipping. Eyery year the symptoms become worse, for could I obtain permanent relief from any courge of field call triatment whatover. About fourless years since, in consequence of frequent exposure to the weather, in the discharge of my handrad duties, Polecame subject to a severe Chronic Rhemmatism, which for year strey year of 45 and 46, inconsequence of preaching a great deal in my own and various other churches in this region? was attacked by the Bronchilis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system can now desired to the plant and the suspension of my pastoral labors. My nervous system can now the relief of the local laboration of the plant of the laboration of th

was attacked by the description of my pastoral labors. By server as to require an immediate suspension of my pastoral labors. By servous special and as my Promeitis necession worse, so also did my Dyapeysia and Rheumatis necession worse, so also did my Dyapeysia and Rheumatis necession—thus excincing that these disorders were connected with each other through the medium of the Nerrous System. In the whole phasmacoposis there seemed to be no remedial agent which could reach and recuperite my Nerrous System; overly thing that I had tried for this purpose had completely failed. At last I was lid by my friends to excausing your inventions, and (though with no very sangular) loopes of their efficiency.) I determined to fry the effect of the application of the GALANGIS BERT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To MY GREAT ASDORDHEST, IN TWO DAYS MY DYSPESSIA HAD GONE, IN EIGHT DAYS I WAS EXABLED TO RECUST MY PREVENCE ON SCOONT OF THE BRONDING IS, AND MY RHEEL MATICASTRUCTURES ON SCOONT OF THE BRONDING IS, AND MY RHEEL MATICASTRUCTURES AND STRUCKLESS OF THE STRUCKLESS OF THE

DR. OHRISTIE'S GALVANIC NECKLACE Is used for all complaints affecting the Throat or Head such as Brouchitis, Inflammation of the Throat, Nervou and Sick Headaclie, Diziness of the Head, Neuralgia is the Face, fluzzing or Roating in the Ears, Deafness, which is generally Norvous, and that distressed complaint, called Tie Doloreus.

Palsy and Paralysis. All physicians acknowledge that these terrible diseases tro caused by a deficiency of Nervous Energy in the affected limbs. On, Churrie's Galvanic Articles will, unply this deficient power, and a complete and entire are is thus effected.

1000 Cases of Palsy and Paralysis nave been reported to Dr. Cranyrus and his Agents within the last two years, which haggedeen entirely restored.

(27) Car. Annary J. F. Tolics of Brooklyn, N. Y. Indonot been able to walk a step for near four years, and was on helpless that he had to be fed. The most celebrated physicians gave him up. In five days after he commenced wearing the Garayate BELT, Nextlee, and Brackley he walked across the room, and in three weeks he had perfectly recovered his health. Captain Tomes is seventy years of age.

Severe Deafness Cured.

Severe Deatness Curred.

The following van extract from a letter lately received from a distinguished ply sicium in the State of Virginla:

"A. II. Curitaria, M. D.—Bear Sir: One of my patients, unknown to me, obtained your Galvanie Bell and Nechlace, with the Magnetic Fluid, for a serious affection of Deafness. The case was that of a lady whose Nervous system was much disordered, and her general health poor. Much was done previously to the application of the Deith, but with very little success, and I feel it only right to tell you, that since she commenced wearing the Bell and using the Fluid, but a few weeks ago, she has general health is better than for several yours."

[67] Every case of Deafness, if it be Nervous, as it generally is, can be curred by this wooderful remedy.

DR. CHRISTIE'S GALVANIC BRACELETS Are found of wast service in cases of Convulsions or Fits, speemedic Complaints, and general Nervous Affections of he Head and upper extremities. Also in Palsy and-Paralysis, and all discusse caused by a deficiency of power or Nervous Emergy in the limbs or other organs of the lody.

or Nervous Energy in the minus of South Soldy.

303-Many hundred Certificates from all parts of the country of the most extraordinary character can be given if required.

303-No trouble or inconvenience attends the use of DR. CHRISTIES GAILVINIC ARTICLES, and they may be worn by the most feelle and delicate with perfect case and safety. In many case the sensitive attending their use is kiefly pleasant and agreeable. They can be sent to any part of the country. Prices:

Y, Medicines.

MOFFATS Life Piffs and Phenix Pitters. Those Medicines have now been North the public for a period of FIFTEEN YEARS, and during that time have maintained a high-character in almost every part of the globe for their extraordinary and immediate power of feetoring period health to persons suffering under nearly every kind of discusse to which the human frame is linkly.

IN MANY THOUSANDS of certificated instances, they have even rescued sufficers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed and to many thousands they have permanently secured that, uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were according the the pentitulity philosophical prince. scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and apon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for a their name.

their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDI-CINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Araenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to savent ladjur they are the same land, the contact of the same and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some einiment pharmaceutical chemists, are alto-gether unknown to the ignorant pretenders to medical agience; and were never before adminis-tered at so happily efficacients a combination.

tered in so happily efficiencies a combination.

The first operation is to locacu from the coats of the stomach and howels the various impurities, and to remote the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave, auch collected massias behind to preduce habital Costiveners, with all its train of cyils, or sudden Diarrhea with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and house the projudice of these well-informed non against the quack, medicines of the age. The account effect of the medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleans the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the algoncy of the liver and lungs, before it passes into the heart, being thus purified by thorn, and nourished by food coming from a clean stonnech, courses freely through the voins, renews every part of the system, and triumphantly incounts the banner of health in the blooming cheek.

The following are among the distressing variety of human discusses in which the VEGETABLE LIFE MEDICINES are well known to be infallible

DYSPEPSIA, by thoroughly cleansing the first DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and aerid kind; FLATULENCY, Loss of Appetite, Hearthurn, Headache, Restlessness, Ill-temper, Anxiety, Languar, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent nurgos leave the bowds costive

the intestines with a solvent process, and violence: all violent purges leave the bowels costive

within two days.

Diarrhosa and Cholera, by removing the starp acrid fluids by which these complaints are occasioned, and by promoting the labricative secretion of the mucous membrane.

Fevers of all kinds, by restoring the blood to regulat circulation, through the process of perspiregular circulation, through the process of perspiration in such cases, and the thorough solution of The lare Municisms have been known to cure RHEUMATISM permanently in three weeks, and GOUT in helf that time, by removing local inflammation from the muscles and ligaments Dropsies of all kinds, by freeing and strength-

delignified on these important organs, and hence have ever been found a certain remedy for the warst cases of GRAVEL.

Also Worins, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air vessels of the lungs from the microus which even slight health will occasion, and which, if not removed, becomes hardened, and produces these dreadful diseases.

dreadful diseases.
Sourcy, Ulcers, and Inveterate Sores, by the perfect purity which these LUE MEDI-CINES give to the blood, and all the humors.
Scorbutic Eruptions and Bad Complexions, by their atterative effect, upon the fluids that fred the skin, and the morbid state of which occasions all cruptive complaints, sellow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will offect an entire cursed SALT RHEUM, and a striking improvement in the electroes of the skin.

common, could be supported by one dose, or by two oven in

The worst pages.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afficted with this company for unwards of survey to war and complaint for upwards of runary rive regars, and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cared in a very short time, after his recovery had been pro-nounced not only improbable, but absolutely im-possible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a reund, of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED. Billous Fevers and Diver Complaints.

General Debility, Loss or Appetite, and Distance of Penales—these medicines have been used with the most beneficial results in cases of this description:—King's Evil, and Scropula, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. Nont Sweats, Nervous Debility, Nirkous Complaints of all kinds, PALUITATION OF THE HEART, PAINTER'S

MERCURIAL DISEASES. MERCURIAL DISEASES,
Persons whose constitutions have become interaction by the injudicious use of Mercuar, will find these Medicines a perfect cire, as they never fail to eradicate from the system all the effect of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition; in the estimation of every patient.

BE CAREFUL OF COUNTERFEITS.
Sarsari have lately been discovered, and their Several have lately been discovered, and their efarious authors arrested, both in the city of New
