FOR THE CAMRAIGN.

In view-of the great importance of the pending political campaign in Pennsylvania, we propose to furnish our paper at FIFTY CENTS from this date till the first of November. The election of Auditor Genéral and Surveyor General, in addition to that of Canal Commissioner, presents a new and interesting feature in the contest, which demands an extraordinary effort on the part of the Whig party for success. In such an effort the hest and most efficient auxiliary is: the WHIO-TRESS-Well-conducted, prudent and spirited Whig papers ought to be scattered broad east over the Commonwealth, as the host and cheapest means of arousing the proper spirit, and energy in our Whig friends. In this important, and as we believe essential work, we invoke, the aid and co-ope-ation of the friends of the State and National Administratious in the circulation of the Carlisle Herald Our paper will therefore be furnished from this nate to the first of November, or for four months, he first of November, or for four months One copy for four months,

Three copies do 1 00
Seven copies do 2 00
Ten copies do 3 00
Ten copies do 3 00
BorAny person making up a club of ten or
more copies will be entitled to a copy gratis.

Our thanks are due to the Hon. James X. McLanahan for public docu-

FEMALE SCHOOLS .- The attention of parents is invited to the advertisements ding for the next year. of Miss Paine, of Carlisle, and the Misses. Pinneo, of Chambersburg. Miss Paine's seminary is known here as a school of the higest character, while that of the Misses Pinne o we understand enjoys the most exalted reputation.

SUMMER RETREATS .- Doubling Gap Springs we understand are still crowded with visiters, who could not be in a more refreshing place during this melting weather. There has also been quite a number at the Carlisle Sulphur Springs. Ditto, at the Perry Warm Springs, which is represented to be a beautiful place.

OUR TOWN CLOCK-is, again at a dead stand. We are consoled however, by the assurance that although "our sufferings is intolerable" we are to have Knesten daughter of Rev. A. H. Kremer, Pastor of the German Reformed Church in this place, aged stand it is to be here this week certainly, nine years. when we hope it will be put on duty on Monday evening, the 29th ult. at the residence with the shortest possible loss of time with the shortest possible loss of time.

THE COURT HOUSE .- The painters - have been at work at the Court House for the last two weeks, relieving it of its sombre brown-stone features, and giving to the whole building an airy, chaste and sprightly appearance. The entablature, columns and capitals of the pilasters have white lead and the painter's art could awhite lead and the painter's art could aMeal at \$2,87.
RYE FLOUR is held at the same price, without elicited pretty general admiration.

Our California Boys.

A letter from T. W. Martin to his father, dated San Antonio, Texas, July 7, 1850, gives intelligence that the last party which left this borough for California had reached that place in sixty days after leaving here. This party took the overland route from Fort Lavac-ca, Texas, under the guidance of a Capt.

French. It appears from the letter that they have met with many delays and department they will be considered they have met with many delays. took the overland route from Fort Lavachardships, owing to wet weather most impassable roads. The party were however all well, and determined to go

bravely forward.

A letter in the last Volunteer from Mr. George Bentz, notices the arrival of himself and companions at Panama, which they reached on the 16th of June, where they were anxiously waiting an opport. tunity of taking passage for San Francisco. They celebrated the 4th of July with great propriety and spirit in Panama. Major Peter Ritner and Jacob Plank, of this county, had shortly before sailed for San Francisco. The adventurers from Mechanicsburg and Lisburn, in this county, had left Panama on the 19th of June in a sailing vessel. The emigrants from Carlisle all live together in "an old Rookery," as they describe it, for which they pay \$40 a month rent. Their boarding in this way

costs them \$5 a week: It is neither very luxurious or comfortable, but they are contented.

They seem to have given up the expectation of reaching the "gold diggins" in time to do much this year, but are consoled with the fact that they will be there ready to commence vigorous operations next spring.

CAUTION.

As there a variety of Drills in the marke', sold under other Patents, which are direct infringments on the above, we have concluded to publish an extract from our claim, that farmers in purchasing machines, may be able to judge of shose that are infringments, and thereby prevent the liability of having to pay a fine.

The following is an extract from the Claim of the Original Patentee whose rights are being violated:—"1st. The simultaneous throwing into or out of operation, by the movement of a lever or other mechanical equivalent or device, each seeding cylinder and its respective Drill or Seed Tube, for the purpose of sowing with any number of Hoppers and Drills that may be required in sowing point or other irregular shaped land, without stopping the animal or animals attached to the Machive. Not intending to limit ourselves to the particular construction herein described and represented in the annexed drawing, but to vary those in any way that we may deem proper, so that the before described results are effected by means substantially the same as those described in the foregoing specification."

It will be seen from the above claim that all those Drills, whether sold as Patent or otherwise which have attached to them one or more Levers for the purpose of stopping the Seed and raising the seed tube out of the ground by-one-and-the same-operation, are-direct-infringments-on-on the above claim. And all persons are hereby warned against infringing in any way upon the law of the faw made and provided therefor.

Watering Places.

Ercildoun Post Office, Chester

WARM SPRINGS, PERRY COUNTY, PA.

THE undersigned begs leave to inform the public, that he has recently purchased the WARM SPRINGS, in Perry County, Pennsylvania, and has improved and returnished the buildings for the entertainment of visitors, in a style calculated to insure coinfort and conveni-

WARM, SPRINGS, in Perry County, Pennsylvania, and has improved and returnished the buildings for the entertainment of visitors, in a style calculated to insure confort and conversions the catch and who may be disposed to patronize the establishment.

These Springs are situated on the bank of and empty into Sherman's Creek, a stream associated with the thrilling screens between the early scriters of that part of Pennsylvania and the abortgines, whose hunting grounds lay on its margin. They are cleven miles from Carli-lef, (through which the Comberland Valley Railroad passes from Chambersburg to Harrisburg,) from which place visitors can at all times obtain excellent conveyances. Those also from the Central Railroad, and do so by taking passes to the Dancanno. Irren Works, (thirteen miles distant from the Springs, where coaches are took Inallroad Hotel at Newport, which is but a few miles distant from the Springs.

The qualities of the water of these Springs are most extraordinary indeed, for the speedy and permanent cure of Scroblas, Eruptions of the Skin, and every species of Cutaneous discases. He has hundryds of certificates, showing the wonderful tures effected by using this water internally, and by bathing in it; obtained as well from strangers as from those residing in the immediate neighborheed of the Springs, who have not only experienced the infallible efficacy of the water thomselves, but have virtuesed, the same upon others. Prof. James C. Booth has analyzed the waters, and foundation to contain 9-2 grains of solid matter in the gallon, which is composed as follows:

Carbonate of lime

2.667

Alkalino sale, chiefly chlorides, with a portion of sulphate

2.697

Organic matter

2.697

Organic matter

Organic matter

2:897 There are also at the same place half a dozen of other springs, of different descriptions, among which is one of sulphur and one of cold

Nater.

It may be proper to state why a knowledge of the extraordinary Medical qualities of these Springs has not been more extensively known than is indicated by the certificates of these only who have resided in their immediate neighborhood. Years ago the property fell into the hands of a number of heirs, who were indisposed to: undertake the responsibility of making it a place of public entertainment, as a business.—probably, because the patronage of the public would not have justified the undertaking as at that time, (before the spirit of public improvements by Canals and Railroads had rendered distant and difficult points of speedy and cheap access,) its location was out of the way, and the roads to it rough and almost impassable. At the death of Mr. Kennedy it fell into the hands of heirs, neither of whom seemed disposed to take hold of it, but leased it to tenants, more for the cultivation of the land, than a regard to the use of the water.—It was finally rented to Mr. Hipple, (now proprietor of a large Hotel, in Tremont, Pennsylvania,) who made arrangements to accommodate the public; and during his term, many invalids availed themselves of this opportunity to visit and test its medical qualities. Mr. Hipple, however, retired in a short time, and the visit and test its medical qualities. Hy. Hipple, however, retired in a short time, and the property again fell into the hands of the heirs, and romained so, until proceedings were instituted in the Orphans' Court, by the heirs, for its sale. It was then sald and the public is and contents. It may be proper to state why a knowledge property again tent into the hands of the heirs, and romained so, until proceedings were instituted in the Orphans' Court, by the heirs, for its sale. It was then sold, and the subscriber became the purchaser. With the exception of the short time it was held by Mr. Hipple, it remained in the lands of the heirs without any efforts to bring it into notice.

mained in the lands of the heirs without any efforts to bring it into notice.

The country round the Springs and neighborhood is diversified by cultivation, and is beautifully wild and picturesque in scenery, abounding in game, while the stream passing through the property affords fine fishing. Every attention will be paid to the comfort and convenience of guests, and the charges so moderate, that all may avail themselves of the benefits of the Water, je12, 50,2m.

DOUBLING GAP WHITE SULPHUR SPRING He subscriber, teeling highly a gratified with the success which has attended his management of the above establishment during the past season, has increased his efforts to

ender the place and accommodations still more render the place and accommodations still more inviting and comfortable.

Ample provision has been made for the various modes of Bathing, with either Warm, Cold, or Sulphur Water; also for Gymnastic exercise and pastime amusement.

The salubrity of the Spring, the splendid Mountain Scenery, with obliging and competent Sevants, and a strong desire on the part of the Proprietor to make his friends comfortable and happy, are some of the inducements offered to Vasitors, both valid and invalid, who desire either an occasion for innocent enjoyment, or repose and restoration to health.

The Spring is structed in CUMBERLAND COUNTY, PA. about eighteen miles North-West of Garlisle. It is accessible by Railroad from Philadelphia to Newville, and thence eight miles by stage to the Spring. Passengers leaving Philadelphia in the morning arrive at the Spring early the same evening. The house will be epen for visitors on and after the 10th day of June. rriting and comfortable.
