Death.

It is a solem thing to think of the output of the solem that the sole output of the sole o visions of death, dim and instant. Fail often flitted before those eyes may fail upon these lines; but did they ever come hear, very near, and clothe themselves in-something also the distinctness of reali-ty? To feel the fangs of fatal disease istened with a firm and relentless hold upon our vitals; to contemplate the grave as our speedy abode, and lie upon its werge without hope of rescue from its dark and dreary dominions ; to say to corruption, Thou art my father ; and the worm, Thou art my mother and my sister; these will try the heart as it has never been tried before. It is a trying thing to leave all below, and that forever; to part with the kindred that have grown up by our side; who have met with us at the same table, and warmed of the same fire, who have endeared themselves to our hearts by a thousand, proofs of true and tried affection. Dear reader, did vou ever think thus of dying? Remember that death will come upon you and me. Not all the fortifi--cations we can throw around the citadel of life, will arrest the entrance of the Hestroyer for a moment. The cold hand that has stopped the vital current so of ten, and peopled the grave with so many generations, will one day thrust its icv fingers into the very fountain of life within our bosoms and be feeling after our very heart-strings. Perhaps you 'think that will be an hour of consternation and dismay. Such it would be with-out the presence of God. But grace can make our souls calm and even joyful in the immediate prospect of dissolution and the grave.-Memoirs of Hannah Hobbie.

A Spiritual Ministry.

The people who enjoy the ministration of a truly spiritually-minded pastor, have a blessing, the value of which they are in but little danger of over estimating. There is a worth in spirituality for which no greatnes of natural or acquired ability can compensate. Learning and abilities are qualities much more ea-sily attained, and much more easily judged of. Piety does not he on the surface ;- it is developed by the life. But its possession is the best guarantys for that intellectual growth for which piety is too often sacrificed. The man of pi-

ety will grow in knowledge; his very piety supplies the most impulsive and sustaining motives in the universe for labor and study .- The richer his experience for grace, the bronder and brighter the fields of knowledge will open before him, to invite to higher and higher at-tanments. But if he be not learned or philosophical, he has in his spirituality, a source of power far surpassing the utmost scope of influence that learning ev-er supplied. Preaching, in Protestant countries, must respect the heads of the people; but after all, in any congrega-tion of immortal men who have souls to save, and sins to be lorgiven, to affect the heart is the preacher's chief business -The difficulty in the way of the gospel, is not so much the want of knowledge, as of feeling. The preacher's desider atum is not so much the power to instruct, as to move ; light is needed, but warmth and life is more wanted. Piety which emits its electric fire from heart to heart, that gathers and gets hold of the moral susceptibilities of the soul, and rouses its latent powers to the mighty business of salvation .- N. Y. Evange-How to be Happy. "Some time since," says Dr. Payson in a letter to a young clergyman, "I took up a little work purporting to be the lives of sundry characters, as related by them. selves. Two of these characters-agreed in remarking that they were never happy until they ceased striving to be great men. This remark struck me, as you know the most simple remarks will strike us, when Heaven pleases. It occurred to me at once that most of my sufferings and sorrows were occasioned by an unwillingness to be the nothing which I am, and by consequent struggles to be some thing. I saw if I would but cease struggling, and consent to be anything or nothing, just as God pleases, I might be You will think it strange that I happy.-You will think it strange that I mention this as a new discovery. In one sense it was not new : I had known it or years. But I now saw it in a new light. My heart saw it, and consented to it; and I am comparatively happy. GENERAL DEBYLITY, Strengthening the weakened body, giving tone to the various organs, and invigorating the ontire system. Also in FITS, CRAMP, PARALYSIS and PALSY, DYSPEP-SLA or INDIGESTION, RIEUMATISM, ACUTE and CHRONIC, GOUT, EFILEFSY, LUBBAGO, DEAR-NESS, NERVOUS TREMORS, FALFITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and COUVATURE of the SIDE, HIP CHENCY OF NERVOUS and FHITSICAL ENERGY, and all NERVOUS DISEASES of the KIDNEYS, DEFI-CHENCY OF NERVOUS BUSEASES, which complaints arise from one simple cause-namely, A Derargement of the Nervous System.

A Derangement of the Nervous System.

A Derangement of the Nervous System. OF- In NERVOUS COMPLAINTS, Drugs and Medi-tines increase the discase, for they weaken the vital ener-gies of the already prestrated system; while under the strengthening, life-giving, vitalizing influence of Galvan-tem, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and rigor. The great veculiarity and excellence of

Dr. Ohristie's Galvanic Curatives,

, No 45 South 2d Street, Philadelphia. Dr. Christie's Galvanic Ouratives, consist, in the fact that they arrest and cure disease by outward application, in place of the usual mode of drug-ging and physicking the putient, till exhausted Nature sinks hopelessly under the infliction. They strengthen the vokels system, equalize the circulation of the blood, promote the secretions, and never do the slight-est injury under any circumstance. ENTIRELY AND PERMANENTLY CURED,

BATIRELY AND FERMANENTLY OURED, when all hops of relief had been given up, and every thing elso been tried in voin ! To illustrate the use of the GALVANIC BELT, upprose the case of a person adjusted with that bane of oivilization, DYSERFSIA, or any other Chronic or Nervore Disordor. In ordinary Cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has cessed. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspotic sufferer, over m the wore symptoms of an attack, and simply the the Bolt around the body, using the Magnetic Fluid as directed. The short period the insensible perspiration-will ect on the positive element of the Bolt, thereby causing a Galvanic circulation which will reas on to the system. This the most severe cases of DYSPETSIA or e.PERMANENTLY. CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Severe Deafness Cured, The following is an extinct from a letter lately received from a distinguished physician in the State of Virginia: "A.H. CRNIETLE, M. D.-Bear Sir: One of my patients, unknown to me, obtained your Galevanic Bell and Nech-lace, with the Magnetic Fluid, for a sorious affection of Deafness. The case was that of a lody whose Norrous system was much disordered, and her general health poor. Much was done previously to the application of the Bell, but with very little success, and I feel it only right to tell you that since she commenced wearing the Belt and using the Fluid, but a for weeks so, she has general health is better than for several year."
