FROM CALIFORNIA.--- We are indebted to our friend, Mr, George R. Crooks, now a resident of San Francisco, California, for a number of the Daily Alta California, published on the departure of the last steamer from there. It is chiefly occupied with a description of the great celebration of California's admission to the Union.

Several letters have been received from Carlisle adventurers to the mines, observance of Christmas in Pennsylva which we are glad to learn give highly encouraging accounts of their success. As an offset to the large amount of gold reported to be brought by the last steamers, a New York paper says private letters from California, contrast strikingly with the announcements in the newspapers of the arrivals of so much gold. Steamboat explosions, cholera, and other life taking agencies had created great havoc among the population-some of the passengers say, worse by far than is

The night was exceedingly stormy and the noise of the wind prevented their cries for help, if they made any, from being heard by their neighbors in time to afford relief. There will be morning service, in all our churches, and places of business will as usual be closed during the day. A public Thanksgiving day is comparatively a new thing in Pennsylvania and the spirit in which it is observed in New England is therefore almost unknown here. THE HOME JOURNAL, TUBLISHED WEEKLY IN THE CITY OF FEW YORK. AT TWO POLLARS YFAR. A ON the first of January mext, commences a New Series of this copious, comprehen-sive and eleganly printed Family Newspaper, which is now acknowledged to be the indis-pensable drawing room gazette of the country. A home is hardly complete, we think we may infely venture to say, without the HOME JOURNAL, which is the Chronicle of all that interasts all classes of Society, and of the in-telligence which most enlivens an American Home. New Fork is the great centre, and hero at the fountain head of novelty, incident, lite-rature, and foreign news, the Home Journal is printed and published. Its citors, (George P. Morris and M. P. Willis,) devote their entire time, skill and experience, to the task of giving each week. EVERY THING WORTH KNOWING. They particularly keep an eye on all the whims and novelies of New York society, presenting sketches of the BELLES OF OUR TIME, and caroful portraite of THE DISTINGUISHED PUBLIC CHA-RACTERS. In addition to this, the utmost weins are token. (by translutions from Fronch work shall not be surpassed by any other estab-lishment. They are also the authorized agonts of Mr Robert Wood, of Philadelphin, and will fur-nish from his manufactory all varieties of IRON RAIJING for the enclosing of Grave lots and all other purposes, at the shortcest notice and at Philadelphia prices. They will also finish or manufacture all kinds of Building Work, such as Silla, Steps and Platforms, Sc., at the short-est notice and on the most reasonable terms. Having had great experience, and being em-ployed in the best shops of Philadelphia, they are therefore 'enabled to manufacture the most fashionable work, and respectfully ask a sharo of the patronage of Carlisleand the surrounding country. [Carlisle, nov6 1850t] society, presenting site and carofiu portraits of THE DISTINGUISHED PUBLIC CHA-RACTERS In addition to this, the utmost pains are taken, by translations from French journals, and by foreign correspondence, to propare such reports of the *Fushnoable Gossip* of Paris, as will exceedingly instruct and a-muse. We present to our renders, the facts an-outlines of all 'news'. In our literary depart-ment, we nim at sketches and readable criticism, and'in our condensations of the feend produc-tions of the vast newspaper world of England, we aim to avoid the tiresome, and the local, and transfer to our columns the pick of Eng-lish' information and brillinary, while we on-deadour to selec with a true scale of pure. Mo-rals, true wit, and genuine humor. In addition to the above, we propose to give, in the course of the coming volume, ONE ENTIRELY NEW FEATURE, which we think will par-ticularly interest the Ladies, viz:—A SERIES OF RETURNED LOVE LETTERS.— This being a species of composition that inter-ests all coaders, we trust to make the numbers of the Home Journal more eagerly looked for, and was correspondents in London and Pa-ris, who will seed us much that could never reach us through foreign journals. As a New Yeur's Present from a Gentlemm. to a Lady, The Home Journal is one, of which the remem-brance is renewed every week, and it is unsur-maked as a pick in good table.
